This request is for a permanent closure.

Part 3 reasons for this Closure

R12-4-110. I requesting permission to close this marina to fishing and to post a no fishing sign in accordance with ARS 17-304 in the Riviera Marina. This is to protect the rights and property of moored vessels in the Marina. There are underwater hazards. This is not public or state land. I own the Marina and surrounding land, this includes the land under the water. It is fed and connected to the Colorado River by a manmade channel with concrete bottom and walls. The Marina has no surrounding federal water This Marina was dug out in the late 1960s and has

surrounding concrete walls approx 38 ft high with a hard bottom. It's a manmade still water marina that I am restoring. No wake, No swimming and No fishing are common place in this type of harbor. Besides protecting the boats that are harbored here it gives the different types of species a better chance to survive and thrive. As the Marinas Harbor Master I have certain obligations to protect the vessels harbored here. We are expected by the Department to promote boating safety, to bring public awareness to environmental issues such as the quaggl mussle and prohibit fueling on the water, and to not drain the boats bilge back in to the river while on our launch

ramp. This still water Marina is not a natural part of the Colorado River water way. It is not a natural fishing area. It is a manmade harbor solely for the mooring of vessels. This is why I am requesting this closure.

Part 4 Dates and Signatures

Thank You

Rusty Braun
Owner and Harbor Master of the Riviera Marina
