

Arizona Wildlife Podcast Comprehension Activity

Episode 13: A Year in the Life of a Turkey

Part A: *Define each of the terms below, as they relate to turkey biology.*

1. Brood
2. Down Feathers
3. Herbaceous
4. Mast
5. Poult
6. Precocial

Part B: *For each of the seasons below, write down the primary food source for turkeys in Arizona.*

1. Spring
2. Summer
3. Fall
4. Winter

Part C: *In your own words, explain how each statement below can be true.*

1. Flock sizes in winter are usually much larger than the rest of the year.
2. Six inches of snow can often be easier to access food than one inch of snow.
