Big-eared Bat

by

The big-eared bat has a thumb and four fingers, just like you.

5

But when the stars come out, it flies up and away.

2

Directions: Write your name on the line on the cover page. Color the pictures. (Hint: the big-eared bat has a dark brown body and wings, and light brown ears). Then cut along the dotted lines. Fold each strip in half so that you see one picture on each page. Make sure that the cover is on the front and the pages are in the correct order. Then staple your booklet together.

The big-eared bat hangs upside down all day.

1

But a bat can fly, don't you wish you could too?

6

It catches beetles and moths, by making sounds we can't hear.

3

The sounds bounce off insects and back to the bat's big ears.
