Special Animals Need Our Help

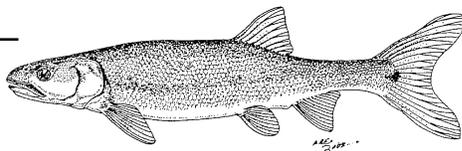

Some animals need our help because they are endangered. **Endangered** means that the animal needs help to live in its home. People are working hard so that these special **wild animals** will not become **extinct**. Extinct means that the animal is no longer found anywhere on the earth.

All animals and people live on the earth together. When animals become endangered, we all need to help. Some

endangered animals have very special needs. People are helping endangered animals by making sure the places where they live have all the things the animal needs to stay alive. These things include food, water, shelter and lots of space.

You can help endangered animals. First, learn which animals are endangered. Then learn about the habitats where endangered animals live and help protect these habitats.

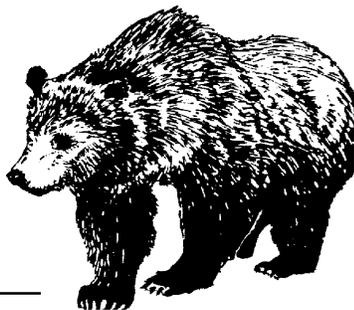

Draw a line from the picture to the name of the animal. Then write the name of the animal in the space provided.

Grizzly Bear

Colorado Squawfish

Bald Eagle

I am a thick-billed parrot.

I am a beautiful big green bird.

I need pine cones for food and pine trees for shelter.

Only a few of us live in Arizona now.

I am endangered and need special help from people.

Please color me using these colors:

R - RED

B - BLACK

G - GREEN

Y - YELLOW

Br - BROWN
