Animal Sign

Animals are everywhere!

Even though you may not see them, you can look for clues animals leave behind.

These clues are called animal **sign**.

A feather on the ground is a sign a bird may be around.

A web is a sign a spider designs.

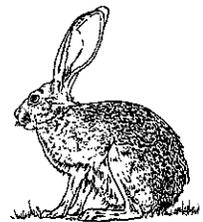

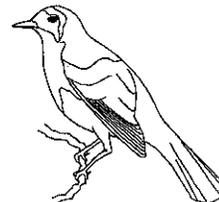

If you see a track, an animal has been there – that's a fact!

Pellets are a sign a rabbit leaves behind.

Match the animal sign on the left to the animal that left it on the right.
Then spell the name of each animal.

1. Circle the animal sign in this picture.
2. What animal may have left each sign?
3. Draw those animals.
4. Color your picture.
