#### ARTICLE 2. ENFORCEMENT

Section	
3-931.	Enforcement powers and procedures

#### ARTICLE 1. ADMINISTRATION

##### **3-906. Collection and salvage of protected plants; procedures, permits, tags and seals; duration; exception**

A. Except as provided in this chapter a person shall not take, transport or possess any protected native plant taken from the original growing site in this state without possessing a valid permit issued by the division. The division shall issue permits in either a name or business name. A permit to take, transport or possess native plants is nontransferable, except that a permittee, by subcontract or otherwise, may allow its agents to work under the permit if the permittee remains primarily responsible for the actions of persons acting under his expressed or implied authority.

B. In addition to the requirements prescribed by this section, a person who moves or salvages a saguaro cactus (*cereus giganteus*) that is more than four feet tall, from other than its original growing location, must purchase a permit, tag and seal from the department. A person may move a saguaro cactus without obtaining a permit, tag and seal only if the person maintains documentation of a

previous legal movement or if the department has record of a previous legal movement of the cactus by the person. Saguaro cacti that are propagated by humans are exempt from the requirements of this subsection.

C. Permits applicable to highly safeguarded native plants may be issued only for collection for scientific purposes or for the noncommercial salvage of highly safeguarded native plants whose existence is threatened by intended destruction, or by their location or by a change in land usage, and if the permit may enhance the survival of the affected species.

D. Permits issued for the salvage of salvage assessed native plants shall be issued for a period of one calendar year without respect to the land from which the plants will later be taken. The associated tags and seals shall be issued individually or in bulk on payment of any fees required under section 3-913, subsection A, without respect to the specific plants for which they will be used. All such tags and seals remain valid for use in subsequent years as long as the permit is renewed.

E. The division shall provide tags and seals for each permit issued for taking, transporting or possessing highly safeguarded, salvage restricted or salvage assessed native plants. The director by rule shall establish procedures and forms for permits, tags and seals to be issued for the collection and salvage of highly safeguarded native plants and the salvage of salvage restricted and salvage assessed native plants. The director by rule may establish and modify the form and character of the tags and seals described in this section. All such tags and seals shall be attached to the plants at the time of taking and before transporting. It is unlawful to remove a tag or seal from a protected native plant that has been taken and tagged pursuant to this article before the plant has been transplanted at its designated site. A tag or seal may be removed only by a designated agent of the division or by the owner of the plant.

F. This section does not apply to the transporting of protected native plants by a landowner or his agent from one of his properties to another if the plants are not offered for sale. 2005

##### **3-907. Cutting or removal of harvest restricted plants for their by-products, fiber or wood; procedures; exceptions**

A. The division shall provide harvest or wood permits, and wood receipts with each wood permit, authorizing the taking, transporting or possessing of harvest restricted native plants cut or removed for manufacturing or processing purposes, for their by-products, fiber or wood. It is unlawful for a person to take, transport or possess such a plant for its by-products, fiber or wood if he is not in possession of a permit and any required receipt. A permit or receipt is not transferable by the permittee or his agent, nor may it be used by anyone other than the person to

whom it was issued, except that the permittee shall transfer the receipt to the purchaser as proof of ownership of the wood covered by the receipt.

B. A person in possession of a valid permit for the removal of dead plants, wood, fiber or other by-products issued by the United States department of agriculture or the United States department of the interior from lands under the administration of the United States forest service or the United States bureau of land management is exempt from the permit required by subsection A.

C. This chapter shall not be construed to prohibit any person from cutting, removing, transporting or possessing any harvest restricted native plant or part for manufacturing or processing purposes in amounts of one hundred pounds or less, or any such plant or part as wood in amounts of two cords or less in quantity from land owned or leased by that person, other than state-owned land or other public land, or from land if the owner has given written consent to the person to cut, remove, transport or use the plant, or its fiber or wood.

D. This section does not apply to the use of dead wood for branding fires or at permissible camping or cooking sites for camping or cooking fires or cutting, removing, transporting or possessing dead harvest restricted plants or the dead parts from such plants from land owned or leased by that person. 2006

### **3-908. Prohibited acts; use of permits, tags, seals and receipts**

A. Except as provided in this chapter, it is unlawful for a person to destroy, dig up, mutilate, collect, cut, harvest or take any living highly safeguarded native plant or the living parts of any highly safeguarded native plant, including seeds or fruit, or any other living protected native plant or the living parts of any other protected plant, except seeds or fruit, from state land or public land without obtaining any required permit, tags, seals or receipts from the department, or from private land without obtaining written permission from the landowner, and any required permit, tags, seals or receipts from the department. It is unlawful for a person to falsify any paper or document issued to give permission for a person to take native plants of the protected group or to take more protected native plants than authorized by the permit or to take protected native plants from areas other than authorized by the permit.

B. Permits issued for the removal of protected native plants, or any parts of protected native plants, except permits issued for the salvage of salvage assessed native plants, shall be granted only on submission to the division of an application executed by both the landowner or his agent and the party who intends to be the permittee, after being completed by either or both, and are valid for a stated period of time to allow the permittee to remove the specific amount of plants, by-products, fiber or wood stated in the permit, or that period of time stated by the landowner as part of the landowner's permission, whichever is shorter. The permit expires on the termination date shown on the permit, when the tags and seals issued with the permit have been attached to the plants covered by the permit and the plants are no longer in the possession of the permittee or when the receipts have been transferred to the purchaser of the wood covered by the receipts.

C. A permit is valid for taking plants or parts of plants listed on the permit but not removed from the land described in the permit until the permit's expiration or for one year from the date of issuance, whichever occurs first, except that for any permit the tags and seals, or receipts, issued therewith but not yet used by the permittee become invalid if the land on which the plants are growing, and described in the permit, changes ownership, unless the new owner certifies in writing that the permittee may continue taking the plants or parts of plants as specified on the permit.

D. It is unlawful for a person or scientific or educational institution to misuse a permit in any manner. A permittee shall make permits, tags, seals and receipts available for inspection by the department or any peace officer as provided for in this chapter. A tag, seal or receipt is invalid unless it is issued with a valid permit. A permit is invalid unless it bears the required tag numbers or receipt numbers on its face. It is unlawful to alter or deface any permit, tag, seal or receipt.

E. The director may give written permission for a person or a scientific institution to take a definite number of specified plants in a protected group from areas specified by the department for scientific purposes. In addition the director may give written permission for a person to take specific plants or parts of plants not in the highly safeguarded category from areas specified by the department for salvage or for manufacturing or processing purposes or for the cutting or removal of wood and assess reasonable and proper fees for such taking of the plants or parts of the plants. The director may give written permission for a landowner to transfer specified plants in the protected group from land he owns to another property owned by him, and such permits shall be exempt from fees. 1997

### **3-909. Shipment of plants; exhibition of permit and certificate of inspection to carrier; sale of highly safeguarded plants**

A. No person or common carrier may transport a plant, or any part of a plant, belonging to the protected group, nor receive or possess a protected native plant for transportation within or without this state, except for manufactured wood articles, unless the person offering the plant for shipment exhibits to the person or common carrier a valid written permit for the transportation of the plant or part of a plant and has securely and properly attached a valid required native plant tag and seal to the plant. If for transport without the state, the plant shall also bear a certificate of inspection by the department. All protected native plant species or varieties, not grown in Arizona and imported into this state, shall be transported directly to a department field office at which a movement permit and seals must be purchased before proceeding to the final destination.

B. Plants of the protected group that are shipped into this state shall be accompanied by all permits, tags and seals required by the exporting state or country.

C. It is unlawful for a person to commercially sell or offer for commercial sale in interstate commerce any highly safeguarded native plant or in the course of interstate commercial activity to deliver, receive, carry, transport or ship by any means any such plant in furtherance of a commercial sale or offer for commercial sale. 2005

ARTICLE 2. ENFORCEMENT

3-931. Enforcement powers and procedures

A. An employee, officer or agent of the department may enter in or on any premises or other place, train, vehicle or other means of transportation within or entering this state, if he has reason to believe there is present or on such premises or means of transportation a protected native plant taken, transported or possessed in violation of this chapter.

B. A power granted pursuant to this chapter to any person may be exercised by a deputy, inspector or agent of the authorized person. A person who is authorized to enforce this chapter, including an employee of a state, the United States or an Indian tribe with which cooperative agreements have been made by the director, has powers of a peace officer to enforce this chapter. It is unlawful to interfere with or hinder the actions of a peace officer or an officer or employee of the department in the enforcement of this chapter.

C. In the enforcement of this chapter, a peace officer or an officer or employee of the department may make arrests without warrant for a violation of this chapter which he may witness and may confiscate, or seize by the attachment of a "warning hold" notice, any protected native plant found without a valid and properly affixed tag and seal when required by this chapter, or any plant by-product, fiber or wood from protected native plants found in the possession of a person without a valid receipt if a receipt is required under this chapter. It is unlawful to move or otherwise handle or dispose of any protected plant or part of a plant held under a "warning hold" notice, except with the express written permission of the enforcing officer, and for the specified purpose. Plants, by-products, fiber or wood confiscated under this subsection, if not released to the person from whom they were seized before such time, shall be disposed of by the department or pursuant to court order at the conclusion of the proceedings.

D. Devices, equipment or vehicles used in the illegal taking, transportation, destruction or mutilation of protected native plants may be seized by a peace officer or officer of the department on a temporary basis, not to exceed one working day, to permit the protected native plants or parts of plants involved in the illegal act to be moved to a secure location.

E. An officer, employee or agent of the department who is duly authorized to enforce this chapter, in addition to peace officers, may enforce title 41, chapter 4.1, article 4 and sections 13-3702 and 13-3702.01. Such an officer, employee or agent may make an arrest without warrant for violations witnessed by the officer, employee or agent and may confiscate archaeological and other specimens or objects if unlawfully excavated or collected. 2007

6. For a person to take or solicit orders for spirituous liquors unless the person is a salesman or solicitor of a licensed wholesaler, a salesman or solicitor of a distiller, brewer, vintner, importer or broker or a registered retail agent.

7. For any retail licensee to purchase spirituous liquors from any person other than a solicitor or salesman of a wholesaler licensed in this state.

8. For a retailer to acquire an interest in property owned, occupied or used by a wholesaler in his business, or in a license with respect to the premises of the wholesaler.

9. Except as provided in paragraphs 10 and 11 of this section, for a licensee or other person to sell, furnish, dispose of or give, or cause to be sold, furnished, disposed of or given, to a person under the legal drinking age or for a person under the legal drinking age to buy, receive, have in the person's possession or consume spirituous liquor. This paragraph shall not prohibit the employment by an off-sale retailer of persons who are at least sixteen years of age to check out, if supervised by a person on the premises who is at least nineteen years of age, package or carry merchandise, including spirituous liquor, in unbroken packages, for the convenience of the customer of the employer, if the employer sells primarily merchandise other than spirituous liquor.

10. For a licensee to employ a person under nineteen years of age to manufacture, sell or dispose of spirituous liquors. This paragraph shall not prohibit the employment by an off-sale retailer of persons who are at least sixteen years of age to check out, if supervised by a person on the premises who is at least nineteen years of age, package or carry merchandise, including spirituous liquor, in unbroken packages, for the convenience of the customer of the employer, if the employer sells primarily merchandise other than spirituous liquor.

11. For an on-sale retailer to employ a person under nineteen years of age in any capacity connected with the handling of spirituous liquors. 12. For a licensee, when engaged in waiting on or serving customers, to consume spirituous liquor or for a licensee or on-duty employee to be on or about the licensed premises while in an intoxicated or disorderly condition.

13. For an employee of a retail licensee, during that employee's working hours or in connection with such employment, to give to or purchase for any other person, accept a gift of, purchase for himself or consume spirituous liquor, except that:

(a) An employee of a licensee, during that employee's working hours or in connection with the employment, while the employee is not engaged in waiting on or serving customers, may give spirituous liquor to or purchase spirituous liquor for any other person.

For the purposes of this section, "obviously intoxicated" means inebriated to the extent that a person's physical faculties are substantially impaired and the impairment is shown by significantly uncoordinated physical action or significant physical dysfunction that would have been obvious to a reasonable person.

15. For an on-sale or off-sale retailer or an employee of such retailer to sell, dispose of, deliver or give spirituous liquor to a person between the hours of 2:00 a.m. and 6:00 a.m.

21. For a person to have possession of or to transport spirituous liquor which is manufactured in a distillery, winery, brewery or rectifying plant contrary to the laws of the United States and this state. 2. Every motorboat of classes 2 and 3 shall carry the following lights:

- (a) A bright white light in the fore part of the watercraft as near the stem as practicable, so constructed as to show the unbroken light over an arc of the horizon of twenty points (225°) of the compass, so fixed as to throw

For every other collision, accident or other casualty involving property damage exceeding five hundred dollars, a report shall be submitted within five days after the incident by the operator or owner of the watercraft involved. Written reports shall be submitted directly to the department for use in statistical studies for casualty prevention. Reports shall not be used as evidence in any trial, civil or criminal, arising from any collision, accident or other casualty. On request, a report shall be forwarded to the United States coast guard or other authorized federal agency to be used in statistical studies for casualty prevention.

C. A person shall not operate or knowingly allow another person to operate a personal watercraft under his ownership or control in a reckless or negligent manner endangering the life or property of another person. Prima facie evidence of reckless operation exists if the person commits two or more of the following acts simultaneously:

speed of five nautical miles per hour or less.

2. Operates the personal watercraft within the vicinity of a motorboat in a manner that obstructs the visibility of either operator.

3. Heads into the wake of a motorboat that is within a zone of proximity closer than sixty feet and causes one-half or more of the length of the personal watercraft to leave the water.

4. Within a zone of proximity to another watercraft closer than sixty feet, maneuvers quickly, turns sharply or swerves, unless the maneuver is necessary to avoid a collision.

D. If equipped by the manufacturer, a person shall not operate a personal watercraft without a functioning spring-loaded throttle mechanism that immediately returns the engine to an idle speed on release of the operator's hand from the control or without any other engine cutoff feature that is installed by the manufacturer.

## ARTICLE 10. BOATING WHILE INTOXICATED

### 5-395. Operating or in actual physical control of a motorized watercraft while under the influence; violation; classification; definition

A. It is unlawful for any person to operate or be in actual physical control of a motorized watercraft that is underway within this state under any of the following circumstances:

1. While under the influence of intoxicating liquor, any drug, a vapor releasing substance containing a toxic substance or any combination of liquor, drugs or vapor releasing substances if the person is impaired to the slightest degree.

2. If the person has an alcohol concentration of 0.08 or more within two hours of operating or being in actual physical control of the motorized watercraft and the alcohol concentration results from alcohol consumed either before or while operating or being in actual physical control of the motorized watercraft.

3. While there is any drug as defined in section 13-3401 or its metabolite in the person's body.

4. If the motorized watercraft is a commercial motorized watercraft and the person has an alcohol concentration of 0.04 or more.

B. It is not a defense to a charge of a violation of subsection A, paragraph 1 of this section that the person is or has been entitled to use the drug under the laws of this state.

C. A person using a drug prescribed by a medical practitioner licensed pursuant to title 32, chapter 7, 11, 13 or 17 is not guilty of violating subsection A, paragraph 3 of this section.

D. The state shall not dismiss a charge of violating this section for either of the following:

1. In return for a plea of guilty or no contest to any other offense by the person charged with the violation of this section.

2. For the purpose of pursuing any other misdemeanor or a petty offense, including those arising out of the same event or course of conduct, unless there is clearly an insufficient legal or factual basis to pursue the charge of violating this section.

E. In any prosecution for a violation of this section the state, for the purpose of classification and sentencing pursuant to section 5-395.01 or 5-396, shall allege all prior convictions of violating this section occurring within the past eighty-four months, unless there is clearly an insufficient legal or factual basis to do so.

F. In a trial, action or proceeding for a violation of this section or section 5-396 other than a trial, action or proceeding involving operating or being in actual physical control of a commercial motorized watercraft, the defendant's alcohol concentration within two hours of the time of operating or being in actual physical control as shown by analysis of the defendant's blood, breath or other bodily substance gives rise to the following presumptions:

1. If there was at that time 0.05 or less alcohol con-

centration in the defendant's blood, breath or other bodily substance, it may be presumed that the defendant was not under the influence of intoxicating liquor.

2. If there was at that time in excess of 0.05 but less than 0.08 alcohol concentration in the defendant's blood, breath or other bodily substance, such fact shall not give rise to any presumption that the defendant was or was not under the influence of intoxicating liquor, but such fact may be considered with other competent evidence in determining the guilt or innocence of the defendant.

3. If there was at that time 0.08 or more alcohol concentration in the defendant's blood, breath or other bodily substance, it may be presumed that the defendant was under the influence of intoxicating liquor.

G. Subsection F of this section shall not be construed as limiting the introduction of any other competent evidence bearing on the question of whether or not the defendant was under the influence of intoxicating liquor.

H. If a blood test is administered, only a physician, a registered nurse or another qualified person may withdraw blood for the purpose of determining the alcohol concentration or drug content. The qualifications of the individual withdrawing the blood and the method used to withdraw the blood are not foundational prerequisites for the admissibility of any blood alcohol content determination made pursuant to this subsection.

I. If a law enforcement officer administers a duplicate breath test and the person tested is given a reasonable opportunity to arrange for an additional test pursuant to subsection J of this section, a sample of the person's breath does not have to be collected or preserved.

J. The person tested shall be given a reasonable opportunity to arrange for any physician, registered nurse or other qualified person of the tested person's own choosing to administer a test or tests in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person does not preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer.

K. If a person under arrest refuses to submit to a test or tests under section 5-395.03, whether or not a sample was collected pursuant to subsection L of this section or a search warrant, evidence of refusal is admissible in any civil or criminal action or other proceeding. The issue of refusal shall be an issue of fact to be determined by the trier of fact in all cases.

L. Notwithstanding any other law, if a law enforcement officer has probable cause to believe that a person has violated this section and a sample of blood, urine or any other bodily substance is taken from that person for any reason a portion of that sample sufficient for analysis shall be provided to a law enforcement officer if requested for law enforcement purposes. A person who fails to comply with this subsection is guilty of a class 1 misdemeanor.

M. A person who collects blood, urine or any other bodily substance under this section or any hospital, laboratory or clinic employing or utilizing the services of the person does not incur any civil liability as a result of this activity if requested by a law enforcement officer to collect blood, urine or any other bodily substances unless the person, while performing the activity, acts with gross negligence.

N. A statement by the defendant that the defendant

was operating a motorized watercraft that was underway and that was involved in an accident resulting in injury to or death of any person is admissible in any criminal proceeding without further proof of corpus delicti if it is otherwise admissible.

O. At the arraignment, the court shall inform the defendant that the defendant may request a trial by jury and that the request, if made, shall be granted.

P. For the purposes of this section, "alcohol concentration" means grams of alcohol per one hundred milliliters of blood or grams of alcohol per two hundred ten liters of breath. 2008

If the person fails to complete the court ordered alcohol or other drug screening, education or treatment program and has not been placed on probation, the court shall issue an order to show cause as to why the remaining jail sentence should not be served.

F. In applying the eighty-four month provision of subsection D of this section, the dates of the commission of the offense shall be the determining factor irrespective of the sequence in which the offenses were committed.

H. Any political subdivision processing or utilizing the services of a person ordered to perform community restitution pursuant to this section does not incur any civil liability to the person ordered to perform community restitution as a result of these activities unless the political subdivision or its agent or employee acts with gross negligence.

### **5-395.02. Admissibility of breath test or other records**

A. The results of a breath test administered for the purpose of determining a person's alcohol concentration as defined in section 5-395 are admissible as evidence in any trial, action or proceeding on establishing the following foundational requirements:

1. The test was performed using a quantitative breath testing device approved by the department of public safety. A properly authenticated certification by the department of public safety or judicial notice of department of public safety rules is sufficient to establish this requirement.

2. The operator who conducted the test possessed a valid permit issued by the department of health services or the department of public safety to operate the device used to conduct the test.

3. Duplicate tests were administered and the test re-

sults were within 0.02 alcohol concentration of each other and an operator observed the person charged with the violation for fifteen minutes immediately preceding the administration of the test.

4. The operator who conducted the test followed an operational checklist approved by the department of public safety for the operation of the device used to conduct the test. The testimony of the operator is sufficient to establish this requirement.

5. The device used to conduct the test was in proper operating condition. Records of periodic maintenance that show that the device was in proper operating condition are admissible in any proceeding as prima facie evidence that the device was in proper operating condition at the time of the test. Calibration checks with a standard alcohol concentration solution bracketing each person's duplicate breath test are one type of records of periodic maintenance that satisfies the requirements of this section. The records are public records.

B. Compliance with subsection A of this section is the only requirement for the admission in evidence of a breath test result.

C. The inability of any person to obtain manufacturer's schematics and software for a quantitative breath testing device that is approved as prescribed in subsection A of this section shall not affect the admissibility of the results of a breath test pursuant to this section.

D. Records that may be obtained or are otherwise maintained pursuant to section 28-1327 are admissible as evidence in any trial, action or proceeding. 2008

#### **5-395.03. Test for alcohol concentration or drug content; refusal**

The test or tests chosen by the law enforcement agency shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been operating or in actual physical control of a motorized watercraft that is underway within this state while under the influence of intoxicating liquor or drugs, or if the person is under twenty-one years of age, with spirituous liquor in the person's body.

B. Following an arrest a violator shall be requested to submit to and successfully complete any test or tests prescribed by subsection A of this section.

#### **5-395.04. Preliminary breath tests; authority**

A. A law enforcement officer who has reasonable suspicion to believe that a person has committed a violation

of section 5-395 may request that the person submit to a preliminary breath test or tests before an arrest.

B. In addition to a breath test or tests the officer may require that the person submit to further testing pursuant to section 5-395.03.

G. A person who is convicted of a violation of this section and who is placed on probation shall attend and complete alcohol or drug screening, counseling and education from an approved facility and, if ordered by the court, treatment from an approved facility. **ARTICLE 1. ADOPTION****17-501. Short title**

This chapter shall be known and may be cited as "the wildlife violator compact". 1990

**17-502. Adoption and text of compact**

The wildlife violator compact is adopted and enacted into law as follows:

Article I

Findings, Declaration of Policy and Purpose

(a) The participating states find that:

(1) Wildlife resources are managed in trust by the respective states for the benefit of all residents and visitors.

(2) The protection of the wildlife resources of a state is materially affected by the degree of compliance with state statutes, laws, regulations, ordinances and administrative rules relating to the management of such resources.

(3) The preservation, protection, management and restoration of wildlife contributes immeasurably to the aesthetic, recreational and economic aspects of such natural resources.

(4) Wildlife resources are valuable without regard to political boundaries; therefore, every person should be required to comply with wildlife preservation, protection, management and restoration laws, ordinances, and administrative rules and regulations of the participating states as a condition precedent to the continuance or issuance of any license to hunt, fish, trap or possess wildlife.

(5) Violation of wildlife laws interferes with the management of wildlife resources and may endanger the safety of persons and property.

(6) The mobility of many wildlife law violators necessitates the maintenance of channels of communication among the various states.

(7) In some states, a person who is cited for a wildlife violation in a state other than his home state:

(i) Is required to post collateral or a bond to secure appearance for a trial at a later date; or

(ii) Is taken into custody until the collateral or bond is posted; or

(iii) Is taken directly to court for an immediate appearance.

(8) The purpose of the enforcement practices set forth in paragraph (7) of this article is to ensure compliance with the terms of a wildlife citation by the cited person who, if permitted to continue on his way after receiving the citation, could return to his home state and disregard his duty under the terms of the citation.

(9) In most instances, a person receiving a wildlife citation in his home state is permitted to accept the citation from the officer at the scene of the violation and immediately continue on his way after agreeing or being instructed to comply with the terms of the citation.

(10) The practices described in paragraph (7) of this article cause unnecessary inconvenience and, at times, a hardship for the person who is unable at the time to post collateral, furnish a bond, stand trial or pay a fine, and thus is compelled to remain in custody until some alternative arrangement is made.

(11) The enforcement practices described in paragraph (7) of this article consume an undue amount of law enforcement time.

(b) It is the policy of the participating states to:

(1) Promote compliance with the statutes, laws, ordinances, regulations and administrative rules relating to management of wildlife resources in their respective states.

(2) Recognize the suspension of wildlife license privileges of any person whose license privileges have been suspended by a participating state and treat such suspension as if it had occurred in their state provided the violation which resulted in the suspension could have been the basis for suspension in their state.

(3) Allow a violator, except as provided in paragraph (b) of article III, to accept a wildlife citation and, without delay, proceed on his way, whether or not a resident of the state in which the citation was issued, provided that the violator's home state is party to this compact.

(4) Report to the appropriate participating state, as provided in the compact manual, any conviction recorded against any person whose home state was not the issuing state.

(5) Allow the home state to recognize and treat convictions recorded against its residents, which convictions occurred in a participating state, as though they had occurred in the home state.

(6) Extend cooperation to its fullest extent among the

participating states for enforcing compliance with the terms of a wildlife citation issued in one participating state to a resident of another participating state.

(7) Maximize effective use of law enforcement personnel and information.

(8) Assist court systems in the efficient disposition of wildlife violations.

(c) The purpose of this compact is to:

(1) Provide a means through which a participating state may join in a reciprocal program to effectuate the policies enumerated in paragraph (b) of this article in a uniform and orderly manner.

(2) Provide for the fair and impartial treatment of wildlife violators operating within participating states in recognition of the violator's right to due process and the sovereign status of a participating state.

## ARTICLE 1. OUTDOOR SHOOTING RANGE NOISE STANDARDS

### 17-601. Definition of outdoor shooting range

In this article, unless the context otherwise requires, "outdoor shooting range" or "range" means a permanently located and improved area that is designed and operated for the use of rifles, shotguns, pistols, silhouettes, skeet, trap, black powder or any other similar sport shooting in an outdoor environment. Outdoor shooting range does not include any area for the exclusive use of archery or air guns or a totally enclosed facility that is designed to offer a totally controlled shooting environment that includes impenetrable walls, floor and ceiling, adequate ventilation, lighting systems and acoustical treatment for sound attenuation suitable for the range's approved use.

2002

### 17-602. State outdoor shooting range noise standards; preemption; measurement; definitions

A. The legislature finds that outdoor shooting range noise standards are a matter of statewide concern. City, town, county and any other state noise standards are preempted as applied to outdoor shooting ranges.

B. Each outdoor shooting range in this state shall measure the noise emitted from the range pursuant to subsection E at least once. In addition, the range shall measure the noise it emits if the range expands the area designed and operated for the use of firearms or explosives by more than twenty per cent in size than at the time of its initial noise measurement or if the range introduces the use of a type of firearm or explosive device that will increase noise production. The range shall pay for the measurement and shall keep the results of the measurement at the range at all times. Any person may review the noise measurement during the range's business hours. Ranges that are located at least one mile from areas that are zoned for residences, schools, hotels, motels, hospitals or churches are exempt from this subsection.

C. Any person, at the person's expense, may measure the noise emitted from an outdoor shooting range pursuant to subsection E.

D. The noise emitted from an outdoor shooting range shall not exceed an LEQ(h) of sixty-four DBA.

E. In measuring the noise emitted from an outdoor shooting range:

1. If a range performs the measurement of noise pursuant to subsection B, sound pressure measurements shall be taken twenty feet from the nearest occupied residence, school, hotel, hospital or church, or from the nearest proposed location of a residence, school, hotel, motel, hospital or church if the property is zoned for such

a structure but is currently unimproved. If a person performs the measurement of noise pursuant to subsection C, sound pressure measurements shall be taken twenty feet from the person's residence, school, hotel, motel, hospital or church, or twenty feet from the proposed location of the person's residence, school, hotel, motel, hospital or church if the property is zoned for such a structure but is currently unimproved.

2. Sound pressure measurements shall be made in a location directly between the range and the nearest existing or proposed residence, school, hotel, motel, hospital or church. If there are natural or artificial obstructions that prevent an accurate noise measurement, the measurement may be taken within an additional twenty feet radius from the initial measurement location.

3. Sound pressure measurements shall be made on the A-weighted fast response mode scale. Measurements shall be taken during the noisiest hour of peak use during the operation of the range. Measurements shall be taken according to American National Standards Institute's standard methods ANSI S1.2-1962 (R1976) American national standard method for physical measurement of sound and ANSI S1.2-1971 (R1976) American national standard method for measuring sound pressure levels. Measurements shall be taken using a type 1 sound meter meeting the requirements of ANSI S1.41-1971. Any part of the measurements conducted on a range shall comply with the range safety rules.

F. Outdoor shooting ranges in operation on July 1, 2002 shall comply with the provisions of this section before July 1, 2003. Ranges not in operation on July 1, 2002 shall comply with the provisions of this section when they begin operation.

G. For the purposes of this section:

1. "A-weighted" means a frequency weighting network used to account for changes in sensitivity as a function of frequency.

2. "DBA" means A-weighted decibels, taking into account human response to sound energy in different frequency bands.

3. "Decibel" means the unit of measure for sound pressure denoting the ratio between two quantities that are proportional to power. The number of decibels is ten times the base ten logarithm of this ratio.

4. "LEQ(h)" means the equivalent energy level that is the steady state level that contains the same amount of sound energy as a time varying sound level for a sixty minute time period.

2002

### 17-603. Pre-existing outdoor shooting ranges; noise buffering or attenuation

A. If an outdoor shooting range was constructed before July 1, 2002 in compliance with existing applicable county or municipal ordinances and zoning requirements and if property located within one mile of the exterior property boundary of the range is rezoned after July 1, 2002 for residential use or any other use that includes a school, hotel, motel, hospital or church, the zoning authority must provide for noise buffers or attenuation devices that are either:

1. Within the new development as a condition for developing the property or as supplied by the zoning authority.

2. Supplied or funded by the zoning authority for lo-

cation in the range.

B. Property owners, developers, zoning authorities and ranges may negotiate and provide for noise buffers or attenuation devices located on or off the range.

C. Any noise buffering or attenuation under this section must comply with the state noise standards prescribed by section 17-602. 2002

**17-604. Nighttime outdoor shooting range operations**

A. Outdoor shooting ranges that are located in areas that are zoned for residential use or any other use that includes a school, hotel, motel, hospital or church shall not operate from 10:00 p.m. through 7:00 a.m.

B. This section does not apply to any outdoor shooting range while it is providing law enforcement or military training. These ranges must provide adequate public notice including posting in four public locations within one mile of the exterior boundaries of the range each calendar quarter of the schedule of when the range will operate from 10:00 p.m. through 7:00 a.m. and the purpose for those nighttime operations. Nighttime operations under this subsection must comply with the nighttime noise standards prescribed by section 17-602. 2002

**17-605. Noise pollution; nuisance; defense; costs**

A. It is an affirmative defense to any civil liability or claim for equitable relief arising from any allegation regarding noise or noise pollution that results from owning, operating or using an outdoor shooting range if the entity or individual owning, operating or using the range complies with this article.

B. In any action where a defense has been raised pursuant to subsection A, the court shall award the prevailing party its costs and all expenses, including the party's costs incurred in measuring noise emitted from the range and reasonable attorney fees. 2002

**ARTICLE 2. DISCLOSURE OF PROXIMITY TO SHOOTING RANGE**

**17-621. Recording proximity to shooting range; definition**

A. A city with a population of more than one million persons shall execute and record in the office of the county recorder a document relating to real property located within one-half mile of the exterior boundaries of any shooting range that is owned by this state and that is located within or adjacent to the exterior municipal boundaries on or before January 1, 2004. The city attorney shall prepare the document in recordable form. The document must be on eight and one-half inch by eleven inch paper containing the following information in twelve point type:

1. A legal description of the property within one-half mile of the exterior boundaries of the shooting range. To assist in identifying that property, the game and fish commission shall submit the legal description of the shooting range to the city attorney.

2. The following disclosure:

This property is located within one-half mile of the exterior boundaries of a shooting range and may be subject to:

- 1. Increased noise.
- 2. Restrictions on the use of the property under the

city's general plan and zoning ordinances.

B. The game and fish commission shall not close a shooting range described in this section unless all of the following occur:

1. The director of the department recommends the closure in writing.

2. The commission issues a report detailing the basis for the recommendation.

3. The commission unanimously approves the closure after public hearings have been held to discuss the closure in the three counties with the highest population.

4. The joint committee on capital review reviews the closure recommendation.

5. The governor approves the closure in an executive order.

C. For the purposes of this section, "shooting range" means a permanently located and improved area that is designed and operated for the use of rifles, shotguns, pistols, silhouettes, skeet, trap, black powder or any other similar sport shooting in an outdoor environment. Shooting range does not include:

1. Any area for the exclusive use of archery or air guns.

2. An enclosed indoor facility that is designed to offer a totally controlled shooting environment and that includes impenetrable walls, floor and ceiling, adequate ventilation, lighting systems and acoustical treatment for sound attenuation suitable for the range's approved use.

3. A national guard facility located in a city or town with a population of more than one million persons.

4. A facility that was not owned by this state before January 1, 2002. 2004

A failure to expressly agree to the test or successfully complete the test is deemed a refusal. The violator shall also be informed that:

1. If the test results show a blood or breath alcohol concentration of 0.08 or more, or if the results show a blood or breath alcohol concentration of 0.04 or more and the violator was driving or in actual physical control of a commercial motor vehicle, the violator's license or permit to drive will be suspended or denied for not less than ninety consecutive days.

2. The law enforcement officer directing the administration of the test shall:

(a) File a certified report of the refusal with the department.

(b) On behalf of the department, serve an order of suspension on the person that is effective fifteen days after the date the order is served.

E. The certified report is subject to the penalty for perjury as prescribed by section 28-1561 and shall state all of the following:

1. The officer's reasonable grounds to believe that the arrested person was driving or in actual physical control of a motor vehicle in this state either:

3. That the person was advised of the consequences of refusal.

F. On receipt of the certified report of refusal and a copy of the order of suspension and on the effective date stated on the order, the department shall enter the order of suspension on its records unless a written request for a hearing as provided in this section has been filed by the accused person. If the department receives only the certified report of refusal, the department shall notify the person named in the report in writing sent by mail that:

2. The department will provide an opportunity for a hearing if the person requests a hearing in writing and the request is received by the department within fifteen days after the notice is sent.

G. The order of suspension issued by a law enforce-

1. The person may submit a written request for a hearing.

2. The request for a hearing must be received by the department within fifteen days after the date of the notice or the order of suspension will become final.

J. A timely request for a hearing stays the suspension until a hearing is held, except that the department shall not return any surrendered license or permit to the person but may issue temporary permits to drive that expire no later than when the department has made its final decision. If the person is a resident without a license or permit or has an expired license or permit, the department may allow the person to apply for a restricted license or permit. If the department determines the person is otherwise entitled to the license or permit, the department shall issue and retain a restricted license or permit subject to this section.

M. If the suspension order is sustained after the hearing, a motion for rehearing is not required. Within thirty days after a suspension order is sustained, the affected person may file a petition in the superior court to review the final order of suspension or denial by the department in the same manner provided in section 28-3317. The court shall hear the review of the final order of suspension or denial on an expedited basis.

N. If the suspension or determination that there should be a denial of issuance is not sustained, the ruling is not admissible in and has no effect on any administrative, civil or criminal court proceeding.

O. If it has been determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, the department shall give information either in writing or by electronic means of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which the person has a license.

(f) Forward the certified report of refusal, a copy of the completed notice of suspension, a copy of any completed temporary permit and any driver license or permit taken into possession under this section to the department within five days after the issuance of the notice of suspension.

E. The certified report is subject to the penalty for perjury as prescribed by section 28-1561 and shall state all of the following:

1. The officer's reasonable grounds to believe that the arrested person was driving or in actual physical control of a motor vehicle in this state either:

(a) While under the influence of intoxicating liquor or drugs.

(b) If the person is under twenty-one years of age, with spirituous liquor in the person's body.

2. The manner in which the person refused to submit to the test or tests.

3. That the person was advised of the consequences of refusal.

F. On receipt of the certified report of refusal and a copy of the order of suspension and on the effective date stated on the order, the department shall enter the order of suspension on its records unless a written or online request for a hearing as provided in this section has been filed by the accused person. If the department receives only the certified report of refusal, the department shall notify the person named in the report in writing sent by mail that:

1. Fifteen days after the date of issuance of the notice the department will suspend the person's license or permit, driving privilege or nonresident driving privilege.

2. The department will provide an opportunity for a hearing if the person requests a hearing in writing or online and the request is received by the department within fifteen days after the notice is sent.

G. The order of suspension issued by a law enforcement officer or the department under this section shall notify the person that:

1. The person may submit a written or online request for a hearing.

2. The request for a hearing must be received by the department within fifteen days after the date of the notice or the order of suspension will become final.

3. The affected person's license or permit to drive or right to apply for a license or permit or any nonresident operating privilege will be suspended for twelve months from that date or for two years from that date for a second or subsequent refusal within a period of eighty-four months.

4. The person's driving privilege, license, permit, right to apply for a license or permit or nonresident operating privilege may be issued or reinstated following the period of suspension only if the person completes alcohol or other drug screening.

H. The order for suspension shall:

2. Advise the person that unless the person has surrendered any driver license or permit issued by this state the person's hearing request will not be accepted, except that the person may certify pursuant to section 28-3170 that the license or permit is lost or destroyed.

I. On the receipt of a request for a hearing, the department shall set the hearing within thirty days in the county in which the person named in the report resides unless the law enforcement agency filing the certified report of refusal pursuant to subsection D of this section requests at the time of its filing that the hearing be held in the county where the refusal occurred.

J. A timely request for a hearing stays the suspension until a hearing is held, except that the department shall not return any surrendered license or permit to the person but may issue temporary permits to drive that expire no later than when the department has made its final decision. If the person is a resident without a license or permit or has an expired license or permit, the department may allow the person to apply for a restricted license or permit. If the department determines the person is otherwise entitled to the license or permit, the department shall issue and retain a restricted license or permit subject to this section.

K. Hearings requested under this section shall be conducted in the same manner and under the same conditions as provided in section 28-3306. For the purposes of this section, the scope of the hearing shall include only the issues of whether:

1. A law enforcement officer had reasonable grounds to believe that the person was driving or was in actual physical control of a motor vehicle in this state either:

3. The person refused to submit to the test.

4. The person was informed of the consequences of refusal.

L. If the department determines at the hearing to suspend the affected person's privilege to operate a motor vehicle, the suspension provided in this section is effective fifteen days after giving written notice of the suspension, except that the department may issue or extend a temporary license that expires on the effective date of the suspension. If the person is a resident without a license or permit or has an expired license or permit to operate a motor vehicle in this state, the department shall deny to the person the issuance of a license or permit for a period of twelve months after the order of suspension becomes effective or for a period of two years after the order of suspension becomes effective for a second or subsequent refusal within a period of eighty-four months, and may reinstate the person's driving privilege, license, permit, right to apply for a license or permit or nonresident operating privilege following the period of suspension only if the person completes alcohol or other drug screening.

M. If the suspension order is sustained after the hearing, a motion for rehearing is not required. Within thirty days after a suspension order is sustained, the affected person may file a petition in the superior court to review the final order of suspension or denial by the department in the same manner provided in section 28-3317. The court shall hear the review of the final order of suspension or denial on an expedited basis.

N. If the suspension or determination that there should be a denial of issuance is not sustained, the ruling is not admissible in and has no effect on any administrative, civil or criminal court proceeding.

O. If it has been determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, the department shall give information either in writing or by electronic means of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which the person has a license.

P. After completing not less than ninety consecutive days of the period of suspension required by this section and any alcohol or other drug screening that is ordered by the department pursuant to this chapter, a person whose driving privilege is suspended pursuant to this section may apply to the department for a special ignition interlock restricted driver license pursuant to section 28-1401. 1. Did not cause death or serious physical injury as defined in section 13-105 to another person during the course of conduct out of which the current action arose.
2. Has not been convicted of a violation of section 4-244, paragraph 34, section 28-1381, section 28-1382 or section 28-1383 within eighty-four months of the date of commission of the acts out of which the current action arose. The dates of commission of the acts are the determining factor in applying the eighty-four month provision.
3. Has not had the person's privilege to drive suspended pursuant to this section or section 28-1321 within eighty-four months of the date of commission of the acts out of which the current action arose.
4. Provides satisfactory evidence to the department of the person's completion of alcohol or other drug screening that is ordered by the department. If the person does not complete alcohol or other drug screening, the department may impose a ninety day suspension pursuant to this section.

H. If the officer does not serve an order of suspension pursuant to subsection C of this section and if the department does not receive the report of the results of the blood or breath alcohol test pursuant to subsection B, paragraph 4 of this section, but subsequently receives the results and the results indicate 0.08 or more alcohol concentration in the person's blood or breath, or a blood or breath alcohol concentration of 0.04 or more and the person was driving or in actual physical control of a commercial motor vehicle, the department shall notify the

person named in the report in writing sent by mail that fifteen days after the date of issuance of the notice the department will suspend the person's license or permit, driving privilege or nonresident driving privilege. The notice shall also state that the department will provide an opportunity for a hearing and administrative review if the person requests a hearing or review in writing and the request is received by the department within fifteen days after the notice is sent.

I. A timely request for a hearing stays the suspension until a hearing is held, except that the department shall not return any surrendered license or permit to the person but may issue temporary permits to drive that expire no later than when the department has made its final decision. If the person is a resident without a license or permit or has an expired license or permit, the department may allow the person to apply for a restricted license or permit. If the department determines the person is otherwise entitled to the restricted license or permit, the department shall issue, but retain, the license or permit, subject to this section. All hearings requested under this section shall be conducted in the same manner and under the same conditions as provided in section 28-3306.

J. For the purposes of this section, the scope of the hearing shall include only the following issues:

1. Whether the officer had reasonable grounds to believe the person was driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor.
2. Whether the person was placed under arrest for a violation of section 4-244, paragraph 34, section 28-1381, section 28-1382 or section 28-1383 or for a violation of title 13, chapter 11 or section 13-1201 or 13-1204 involving a motor vehicle.
3. Whether a test was taken, the results of which indicated the alcohol concentration in the person's blood or breath at the time the test was administered of either:
  - (a) 0.08 or more.
  - (b) 0.04 or more if the person was driving or in actual physical control of a commercial motor vehicle.
4. Whether the testing method used was valid and reliable.
5. Whether the test results were accurately evaluated.

K. The results of the blood or breath alcohol test shall be admitted on establishing the requirements in section 28-1323 or 28-1326.

L. If the department determines at the hearing to suspend the affected person's privilege to operate a motor vehicle, the suspension provided in this section is effective fifteen days after giving written notice of the suspension, except that the department may issue or extend a temporary license that expires on the effective date of the suspension. If the person is a resident without a license or permit or has an expired license or permit to operate a motor vehicle in this state, the department shall deny the issuance of a license or permit to the person for not less than ninety consecutive days. The department may reinstate the person's driving privilege, license, permit, right to apply for a license or permit or nonresident operating privilege following the period of suspension only if the violator completes alcohol or other drug screening.

M. A person may apply for a summary review of an order issued pursuant to this section instead of a hearing at any time before the effective date of the order. The per-

son shall submit the application in writing to any department driver license examining office together with any written explanation as to why the department should not suspend the driving privilege. The agent of the department receiving the notice shall issue to the person an additional driving permit that expires twenty days from the date the request is received. The department shall review all reports submitted by the officer and any written explanation submitted by the person and shall determine if the order of suspension should be sustained or cancelled. The department shall not hold a hearing, and the review is not subject to title 41, chapter 6. The department shall notify the person of its decision before the temporary driving permit expires.

N. If the suspension or determination that there should be a denial of issuance is not sustained after a hearing or review, the ruling is not admissible in and does not have any effect on any civil or criminal court proceeding.

O. If it has been determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, the department shall give information either in writing or by electronic means of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which the person has a license. 2009

1. Information that adequately identifies the arrested person.

2. A statement of the officer's grounds for belief that

the person was driving or in actual physical control of a motor vehicle in violation of section 4-244, paragraph 34, section 28-1381, section 28-1382 or section 28-1383 or committed a violation of title 13, chapter 11 or section 13-1201 or 13-1204 involving a motor vehicle.

3. A statement that the person was arrested for a violation of section 4-244, paragraph 34, section 28-1381, section 28-1382 or section 28-1383 or for a violation of title 13, chapter 11 or section 13-1201 or 13-1204 involving a motor vehicle.

4. A report of the results of the blood or breath alcohol test that was administered, if the results are available.

C. The officer shall also serve an order of suspension on the person on behalf of the department. The order of suspension:

1. Is effective fifteen days after the date it is served.

2. Shall require the immediate surrender of any license or permit to drive that is issued by this state and that is in the possession or control of the person.

3. Shall contain information concerning the right to a summary review and hearing, including information concerning the hearing as required by section 28-1321, subsections G and H.

4. Shall be accompanied by printed forms that are ready to mail to the department that the person may fill out and sign to indicate the person's desire for a hearing and that advise the person that the person may alternatively submit an online request for a hearing.

7. Shall contain information on alcohol or other drug education and treatment programs that are provided by a facility approved by the department of health services.

D. If the blood test result is unavailable at the time the test is administered, the result shall be forwarded to the department before the hearing held pursuant to this section in a form prescribed by the director.

E. If the license or permit is not surrendered pursuant to subsection C of this section, the officer shall state the reason for the nonsurrender. If a valid license or permit is surrendered, the officer shall issue a temporary driving permit that is valid for fifteen days. The officer shall forward a copy of the completed order of suspension, a copy of any completed temporary permit and any driver license or permit taken into possession under this section to the department within five days after the issuance of the order of suspension along with the report.

F. The department shall suspend the affected person's license or permit to drive or right to apply for a license or permit or any nonresident operating privilege for not less than ninety consecutive days from that date. If the person is otherwise qualified, the department may reinstate the person's driving privilege, license, permit, right to apply for a license or permit or nonresident operating privilege following the period of suspension only if the violator completes alcohol or other drug screening.

G. Notwithstanding subsections A through F of this section, the department shall suspend the driving privi-

3. Has not had the person's privilege to drive suspended pursuant to this section or section 28-1321 within eighty-four months of the date of commission of the acts out of which the current action arose.

4. Provides satisfactory evidence to the department of the person's completion of alcohol or other drug screening that is ordered by the department. If the person does not complete alcohol or other drug screening, the department may impose a ninety day suspension pursuant to this section.

H. If the officer does not serve an order of suspension pursuant to subsection C of this section and if the department does not receive the report of the results of the blood or breath alcohol test pursuant to subsection B, paragraph 4 of this section, but subsequently receives the results and the results indicate 0.08 or more alcohol concentration in the person's blood or breath, a blood or breath alcohol concentration of 0.04 or more and the person was driving or in actual physical control of a commercial motor vehicle or any drug defined in section 13-3401 or its metabolite in the person's body and the person does not possess a valid prescription for the drug, the department shall notify the person named in the report in writing sent by mail that fifteen days after the date of issuance of the notice the department will suspend the person's license or permit, driving privilege or nonresident driving privilege. The notice shall also state that the department will provide an opportunity for a hearing and administrative review if the person requests a hearing or review in writing and the request is received by the department within fifteen days after the notice is sent.

I. A timely request for a hearing stays the suspension until a hearing is held, except that the department shall not return any surrendered license or permit to the person but may issue temporary permits to drive that expire no later than when the department has made its final decision. If the person is a resident without a license or permit or has an expired license or permit, the department may allow the person to apply for a restricted license or permit. If the department determines the person is otherwise entitled to the restricted license or permit, the de-

partment shall issue, but retain, the license or permit, subject to this section. All hearings requested under this section shall be conducted in the same manner and under the same conditions as provided in section 28-3306.

J. For the purposes of this section, the scope of the hearing shall include only the following issues:

1. Whether the officer had reasonable grounds to believe the person was driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor.

2. Whether the person was placed under arrest for a violation of section 4-244, paragraph 34, section 28-1381, section 28-1382 or section 28-1383 or for a violation of title 13, chapter 11 or section 13-1201 or 13-1204 involving a motor vehicle.

4. Whether the testing method used was valid and reliable.

5. Whether the test results were accurately evaluated.

K. The results of the blood or breath alcohol test shall be admitted on establishing the requirements in section 28-1323 or 28-1326.

L. If the department determines at the hearing to suspend the affected person's privilege to operate a motor vehicle, the suspension provided in this section is effective fifteen days after giving written notice of the suspension, except that the department may issue or extend a temporary license that expires on the effective date of the suspension. If the person is a resident without a license or permit or has an expired license or permit to operate a motor vehicle in this state, the department shall deny the issuance of a license or permit to the person for not less than ninety consecutive days. The department may reinstate the person's driving privilege, license, permit, right to apply for a license or permit or nonresident operating privilege following the period of suspension only if the violator completes alcohol or other drug screening.

M. A person may apply for a summary review of an order issued pursuant to this section instead of a hearing at any time before the effective date of the order. The person shall submit the application in writing to any department driver license examining office together with any written explanation as to why the department should not suspend the driving privilege. The agent of the department receiving the notice shall issue to the person an additional driving permit that expires twenty days from the date the request is received. The department shall review all reports submitted by the officer and any written explanation submitted by the person and shall determine if the order of suspension should be sustained or cancelled. The department shall not hold a hearing, and the review is not subject to title 41, chapter 6. The department shall notify the person of its decision before the temporary driving permit expires.

O. If it has been determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, the department shall give information either in writing or by electronic means of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which the person has a license. 2011

**28-1386. Operating a motor vehicle, aircraft, watercraft or water skis under the influence; emergency response costs; definitions**

A. A person who is under the influence of intoxicating liquor, any drug, a vapor releasing substance containing a toxic substance or any combination of liquor, drugs or vapor releasing substances, who causes an accident that results in an appropriate emergency response and who is convicted of a violation of any of the following sections is liable for the expenses of that emergency response:

1. Section 28-1381, 28-1382 or 28-1383.
2. Section 28-8279, section 28-8280 or section 28-8282, subsection C.
3. Section 5-395 or 5-397.

B. The expenses of an emergency response are a charge against the person liable for those expenses pursuant to subsection A, paragraph 1 of this section. The charge is a debt of that person. The public agency, for-profit entity or not-for-profit entity that incurred the expenses may collect the debt proportionally. The person's liability for the expenses of an emergency response shall not exceed one thousand dollars for a single accident. The liability imposed under this section is in addition to and not in limitation of any other liability that may be imposed.

C. Any testimony, admission or other statement made by a defendant in a proceeding brought pursuant to this section or any evidence derived from the testimony, admission or statement is not admissible in a criminal proceeding arising out of the same accident.

D. As used in this section:

1. "Expenses of an emergency response" means reasonable costs directly incurred by a public agency, for-profit entity or not-for-profit entity that makes an appropriate emergency response to an accident, including the costs of providing police, fire fighting, rescue and emergency medical services at the scene of an accident and the salaries of the persons who respond to the accident but excluding charges assessed by an ambulance service that is regulated pursuant to title 36, chapter 21.1, article 2.

2. "Public agency" means this state and any city, county, municipal corporation, district or other public authority that is located in whole or in part in this state and that provides police, fire fighting, medical or other emergency services. 2002

**28-1387. Prior convictions; alcohol or other drug screening, education and treatment; license suspension; supervised probation; civil liability; procedures**

A. The court shall allow the allegation of a prior conviction or any other pending charge of a violation of sec-

tion 28-1381, 28-1382 or 28-1383 or an act in another jurisdiction that if committed in this state would be a violation of section 28-1381, 28-1382 or 28-1383 filed twenty or more days before the date the case is actually tried and may allow the allegation of a prior conviction or any other pending charge of a violation of section 28-1381, 28-1382 or 28-1383 or an act in another jurisdiction that if committed in this state would be a violation of section 28-1381, 28-1382 or 28-1383 filed at any time before the date the case is actually tried if this state makes available to the defendant when the allegation is filed a copy of any information obtained concerning the prior conviction or other pending charge. Any conviction may be used to enhance another conviction irrespective of the dates on which the offenses occurred within the eighty-four month provision. For the purposes of this article, an order of a juvenile court adjudicating a person delinquent is equivalent to a conviction.

B. In addition to any other penalties prescribed by law, the judge shall order a person who is convicted of a violation of section 28-1381, 28-1382 or 28-1383 to complete alcohol or other drug screening that is provided by a facility approved by the department of health services or a probation department. If a judge determines that the person requires further alcohol or other drug education or treatment, the person may be required pursuant to court order to obtain alcohol or other drug education or treatment under the court's supervision from an approved facility. The judge may review an education or treatment determination at the request of the state, the defendant or the probation officer or on the judge's initiative. The person shall pay the costs of the screening, education or treatment unless, after considering the person's ability to pay all or part of the costs, the court waives all or part of the costs. If a person is referred to a screening, education or treatment facility, the facility shall report to the court whether the person has successfully completed the screening, education or treatment program. The court may accept evidence of a person's completion of alcohol or other drug screening pursuant to section 28-1445 as sufficient to meet the requirements of this section or section 28-1381, 28-1382 or 28-1383 or may order the person to complete additional alcohol or other drug screening, education or treatment programs. If a person has previously been ordered to complete an alcohol or other drug screening, education or treatment program pursuant to this section, the judge shall order the person to complete an alcohol or other drug screening, education or treatment program unless the court determines that alternative sanctions are more appropriate.

C. After a person who is sentenced pursuant to section 28-1381, subsection I has served twenty-four consecutive hours in jail or after a person who is sentenced pursuant to section 28-1381, subsection K or section 28-1382, subsection D or E has served forty-eight consecutive hours in jail and after the court receives confirmation that the person is employed or is a student, the court shall provide in the sentence that the defendant, if the defendant is employed or is a student and can continue the defendant's employment or schooling, may continue the employment or schooling for not more than twelve hours a day nor more than six days a week, unless the court finds good cause to not allow the release

and places those findings on the record. The person shall spend the remaining day, days or parts of days in jail until the sentence is served and shall be allowed out of jail only long enough to complete the actual hours of employment or schooling.

D. Unless the license of a person convicted under section 28-1381 or 28-1382 has been or is suspended pursuant to section 28-1321 or 28-1385, the department on receipt of the abstract of conviction of a violation of section 28-1381 or 28-1382 shall suspend the license of the affected person for not less than ninety consecutive days.

E. When the department receives notification that the person meets the criteria provided in section 28-1385, subsection G, the department shall suspend the driving privileges of the person for not less than thirty consecutive days and shall restrict the driving privileges of the person for not less than sixty consecutive additional days to travel between any of the following:

1. The person's place of employment and residence and during specified periods of time while at employment.
2. The person's place of residence and the person's secondary or postsecondary school, according to the person's employment or educational schedule.
3. The person's place of residence and a screening, education or treatment facility for scheduled appointments.
4. The person's place of residence and the office of the person's probation officer for scheduled appointments.

F. If a person is placed on probation for violating section 28-1381 or 28-1382, the probation shall be supervised unless the court finds that supervised probation is not necessary or the court does not have supervisory probation services.

G. Any political subdivision processing or using the services of a person ordered to perform community restitution pursuant to section 28-1381 or 28-1382 does not incur any civil liability to the person ordered to perform community restitution as a result of these activities unless the political subdivision or its agent or employee acts with gross negligence.

H. If a person fails to complete the community restitution ordered pursuant to section 28-1381, subsection K or section 28-1382, subsection E, the court may order alternative sanctions if the court determines that alternative sanctions are more appropriate.

I. Except for another violation of this article, the state shall not dismiss a charge of violating any provision of this article unless there is an insufficient legal or factual basis to pursue that charge. 2011

#### **28-1388. Blood and breath tests; violation; classification; admissible evidence**

A. If blood is drawn under section 28-1321, only a physician, a registered nurse or another qualified person may withdraw blood for the purpose of determining the alcohol concentration or drug content in the blood. The qualifications of the individual withdrawing the blood and the method used to withdraw the blood are not foundational prerequisites for the admissibility of a blood alcohol content determination made pursuant to this subsection.

B. If a law enforcement officer administers a duplicate breath test and the person tested is given a reasonable opportunity to arrange for an additional test pursuant to subsection C of this section, a sample of the person's breath does not have to be collected or preserved.

C. The person tested shall be given a reasonable opportunity to arrange for any physician, registered nurse or other qualified person of the person's own choosing to administer a test or tests in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person does not preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer.

D. If a person under arrest refuses to submit to a test or tests under section 28-1321, whether or not a sample was collected pursuant to subsection E of this section or a search warrant, evidence of refusal is admissible in any civil or criminal action or other proceeding. The issue of refusal is an issue of fact to be determined by the trier of fact in all cases.

E. Notwithstanding any other law, if a law enforcement officer has probable cause to believe that a person has violated section 28-1381 and a sample of blood, urine or other bodily substance is taken from that person for any reason, a portion of that sample sufficient for analysis shall be provided to a law enforcement officer if requested for law enforcement purposes. A person who fails to comply with this subsection is guilty of a class 1 misdemeanor.

F. A person who collects blood, urine or any other bodily substance under this section or any hospital, laboratory or clinic employing or using the services of the person does not incur any civil liability as a result of this activity if requested by a law enforcement officer to collect blood, urine or other bodily substances unless the person, while performing the activity, acts with gross negligence.

G. A statement by the defendant that the defendant was driving a vehicle that was involved in an accident resulting in injury to or death of any person is admissible in any criminal proceeding without further proof of corpus delicti if it is otherwise admissible. 1999

#### **28-1389. Waiver of fine, surcharge or assessment**

Notwithstanding any other law, the court shall not waive a fine or assessment imposed pursuant to this article or a surcharge imposed pursuant to section 12-116.01 or 12-116.02 for a conviction of an offense listed in this article. 1999

#### **28-1390. Emergency personnel; law enforcement**

A. Notwithstanding any other law, if a law enforcement officer reasonably believes that a person may have violated section 28-1381, 28-1382 or 28-1383, the law enforcement officer may request emergency department personnel of a health care institution as defined in section 36-401 to provide to the law enforcement officer a copy of any written or electronic report of the person's blood alcohol concentration.

B. Before requesting the information required by subsection A of this section, a law enforcement officer shall obtain permission from the emergency department director or the director's designee to speak with the personnel. The permission shall not be refused, but may be delayed if, in the opinion of the emergency department director or the director's designee, taking the personnel away from patient care duties could cause patient harm.

C. If a law enforcement officer makes a request of emergency department personnel pursuant to subsection A of this section, the personnel shall comply with the re-

quest. Emergency department personnel are not required to determine whether a law enforcement officer has a reasonable belief that a person may have violated section 28-1381, 28-1382 or 28-1383 when complying with the request in subsection A of this section.

D. Emergency department personnel do not incur any civil liability as a result of complying with this section unless the personnel, while performing the activity, act with gross negligence. 2007

**R12-4-104. Application Procedures for Issuance of Hunt Permit-tags by Drawing and Purchase of Bonus Points**

- A.** For the purposes of this Section, "group" means all applicants who have placed their names on a single application form contained in a single envelope, or submitted electronically over the Internet as part of the same application. No more than four individuals may apply as a group.
- B.** An individual is eligible to apply:
1. For a hunt permit-tag if the individual:
    - a. Is at least 10 years old at the start of the hunt for which the individual applies;
    - b. Has completed a department-approved hunter education course by the start date of the hunt for which the individual applies, if the individual is under the age of 14; and
    - c. Does not have his or her license or license privileges to hunt in this state suspended or revoked at the time the individual submits an applica-

tion, as a result of an action under either A.R.S. §§ 17-340 or 17-502.

2. For a bonus point if the individual:
    - a. Is at least 10 years old by the deadline to apply; and
    - b. Does not have his or her license or license privileges to hunt in this state suspended or revoked at the time the individual submits an application, as a result of an action under either A.R.S. §§ 17-340 or 17-502.
- C.** An applicant for a hunt permit-tag or a bonus point shall complete and submit a Hunt Permit-tag Application Form, available from any Department office, the Department's Internet web site, or a license dealer. An applicant shall apply at the times, locations, and in the manner established by the hunt permit-tag application schedule that is published annually by the Department and available at any Department office, the Department's Internet web site, or a license dealer. Under A.R.S. § 17-231, the Commission shall set application deadlines for hunt permit-tag drawing applications. The Director has the authority to extend any draw deadline date if problems occur that prevent the public from submitting a hunt permit-tag application within the deadlines set by the Commission.
- D.** An applicant shall sign the Hunt Permit-tag Application Form, or provide permission for another individual to sign the application form on behalf of the applicant. If applying electronically over the Internet, an applicant shall attest to, or provide permission for another individual to attest to, the information electronically provided.
- E.** An applicant shall provide the following information on the Hunt Permit-tag Application Form:
1. The applicant's name, the applicant's home mailing address, the applicant's residency status, and the applicant's date of birth;
  2. The applicant's social security number, as required under A.R.S. §§ 25-320(N) and 25-502(K), and the applicant's Department identification number, if different from the social security number;
  3. If licensed to take wildlife in this state, the number of the applicant's license for the year the hunt will take place;
  4. If not licensed for the year in which the applicable hunt will take place, the applicant shall purchase a license by completing the License Application portion of the Hunt Permit-tag Application Form, providing the applicant's name, Department identification number, home mailing address, class of license for which application is made, residency status, length of Arizona residency (if applicable), date of birth, sex, weight, height, and color of hair and eyes; and
  5. If an applicant is younger than age 14, and is applying for a hunt other than big game, but is not required to have a license under A.R.S. § 17-335(B), the applicant shall indicate "juvenile" in the space provided for the license number on the Hunt Permit-tag Application Form.
- F.** An applicant shall include as part of the hunt permit-tag application, the following fees as prescribed by R12-4-102:
1. The fee for the applicable hunt permit-tag, un-

- less application is submitted electronically over the Internet or telephone;
2. A permit application fee; and
  3. The license fee if the applicant has not previously purchased a license for the year in which the hunt takes place.
- G.** An applicant shall enclose payment for a hunt permit-tag with a single hunt permit-tag application form, made payable in U.S. currency to the Arizona Game and Fish Department, by certified check, cashier's check, money order, or personal check. If applying electronically over the Internet or telephone, an applicant shall include payment by valid credit card as a part of the hunt permit-tag application.
- H.** An applicant shall apply for a specific hunt or a bonus point by the current hunt number. If all hunts selected by the applicant are filled at the time the application is processed in the drawing, the Department shall deem the application unsuccessful, unless the application is for a bonus point.
- I.** An applicant shall make all hunt choices for the same genus within one application.
- J.** An applicant shall not include applications for different genera of wildlife in the same envelope.
- K.** All members of a group shall apply for the same hunt numbers and in the same order of preference. The Department shall not issue a hunt permit-tag to any group member unless sufficient hunt permit-tags are available for all group members.
- L.** An applicant shall submit only one valid application per genus of wildlife for any calendar year, except:
1. If the bag limit is one per calendar year, an unsuccessful applicant may reapply for remaining hunt permit-tags in unfilled hunt areas, as specified in the hunt permit-tag application schedule published annually by the Department.
  2. For genera that have multiple draws within a single calendar year, an individual who successfully draws a hunt permit-tag during an earlier season may apply for a later season for the same genus if the individual has not taken the bag limit for that genus during a preceding hunt in the same calendar year.
  3. If the bag limit is more than one per calendar year, an individual may apply as specified in the hunt permit-tag application schedule published annually by the Department for remaining hunt permit-tags in unfilled hunt areas.
- M.** An individual shall not apply for a hunt permit-tag for Rocky Mountain bighorn sheep or desert bighorn sheep if that individual has met the lifetime bag limit for that sub-species. An individual shall not apply for a hunt permit-tag for buffalo if the individual has met the lifetime bag limit for that species.
- N.** To participate in the bonus point system, an applicant shall comply with R12-4-107.
- O.** The Department shall reject as invalid a Hunt Permit-Tag Application Form not prepared or submitted in accordance with this Section or not prepared in a legible manner. If the Department rejects an application from any member of a group, the Department shall reject all applications from the group.
- P.** Any hunt permit-tag issued for an application that is subsequently found not to be in accordance with this Section is invalid.
- Q.** The Department or its authorized agent shall mail hunt permit-tags to successful applicants. The Department shall return application overpayments to the applicant designated "A" on the Hunt Permit-tag Application Form. Permit application fees shall not be refunded. License fees submitted with a valid application for a bonus point shall not be refunded.
- R.** If the Director determines that Department error caused an individual to submit an invalid application for a hunt permit-tag, prevented an individual from lawfully submitting an application, caused the rejection of an application for a hunt permit-tag, or caused the denial of a hunt permit-tag, the Director may authorize an additional hunt permit-tag if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted and the application for the hunt permit-tag would have otherwise been successful based on its random number. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. If the Director determines that Department error caused the failure to apply an applicant's bonus points to an application, the Director may authorize an additional hunt permit-tag to correct the error, if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. An individual who is denied a hunt permit-tag or a bonus point under this procedure may appeal to the Commission as provided under A.R.S. Title 41, Chapter 6, Article 10.

#### **R12-4-107. Bonus Point System**

**A.** For the purpose of this Section, the following definitions apply:

1. "Bonus point hunt number" means the hunt number assigned by the Commission in a Commission Order for use by an applicant applying only for a bonus point for a genus identified in this Section; and
2. "Loyalty bonus point" means a bonus point awarded to an individual who has submitted a valid application for a hunt permit-tag or a bonus point for a specific genus identified in subsection (B) at least once annually for a consecutive five-year period.

**B.** The bonus point system grants an individual one entry in each drawing for antelope, bear, bighorn sheep, buffalo, deer, elk, javelina, or turkey for each bonus point that individual has accumulated under this Section. Each bonus point entry is in addition to the entry normally granted by R12-4-104. When processing "group" applications, as defined in R12-4-104, the Department shall use the average number of bonus points accumulated by the individuals in the group, rounded to the nearest whole number. If the average is equal to or greater than .5, the total will be rounded to the next higher number.

**C.** The Department shall award one bonus point to an applicant who submits a valid Hunt Permit-tag Application Form if all of the following apply:

1. The application is unsuccessful in the drawing or the application is for a bonus point only;
  2. The application is not for a hunt permit-tag left over after the drawing and available on a first-come, first-served basis as prescribed in R12-4-114; and
  3. The applicant, before the drawing, purchases a hunting license valid for the year in which the hunt takes place. The applicant shall either provide the hunting license number on the application, or submit an application and fees for the license with the Hunt Permit-tag Application Form.
- D.** An applicant who purchases a bonus point only shall:
1. Submit a valid Hunt Permit-tag Application Form, as prescribed in R12-4-104, with the Commission-assigned bonus point hunt number for the particular genus as the first choice hunt number on the application. Placing the bonus point only hunt number as a choice other than the first choice or including any other hunt number on the application will result in rejection of the application;
  2. Include with the application, payment for the hunt permit-tag application fee and a fee for a hunting license if the applicant does not already possess a license valid for the year for which the draw is conducted (If an applicant who purchases a bonus point has not already purchased a license for the year for which the applicant is applying, the applicant shall also submit the number of the applicant's license); and
  3. Submit only one Hunt Permit-tag Application Form for the same genus for each season that bonus points are issued for that genus.
- E.** With the exception of the hunter education bonus point, each bonus point accumulated is valid only for the genus designated on the Hunt Permit-tag Application Form.
- F.** Except for a permanent bonus point awarded for hunter education, or loyalty bonus points that are accrued and forfeited as prescribed in subsection (K), all of an individual's accumulated bonus points for a genus are forfeited if:
1. The individual is issued a hunt permit-tag for that genus in a computer drawing; or
  2. The individual fails to submit a Hunt Permit-tag Application Form for that genus for five consecutive years.
- G.** An applicant issued a first-come, first-served hunt permit-tag under R12-4-114(C)(2)(d) after the computer drawing does not lose bonus points for that genus, and a valid but unsuccessful applicant for a first-come, first-served hunt permit-tag remaining after the computer drawing does not gain a bonus point.
- H.** The Department shall award one permanent bonus point for each genus upon an individual's first graduation from the Department's Arizona Hunter Education Course or for serving as a Department hunter education instructor.
1. The Department shall credit an individual who

**R12-4-110. Posting and Access to State Land**

**A.** For the purpose of this Section:

1. "Corrals," "feed lots," or "holding pens" mean completely fenced areas used to contain livestock for purposes other than grazing, including feeding, roundup, branding, doctoring, and other related purposes.
2. "Existing road" means any maintained or unmaintained road, way, highway, trail or path that has been used for motorized vehicular travel and clearly shows or has a history of established vehicle use.
3. "State lands" means all land owned or held in trust by the state that is managed by the State Land Department and lands that are owned or managed by the Game and Fish Commission.

**B.** In addition to those prohibitions against posting in A.R.S. § 17-304, an individual shall not lock a gate, construct a fence, place an obstacle or otherwise commit an act that denies legally available access to or use of any existing road upon state lands by persons lawfully taking or retrieving wildlife. An individual in violation of this Section shall take immediate corrective action to remove any lock, fence, or other obstacle that unlawfully blocks access to state lands. If immediate corrective action is not taken, a representative of the Department may remove any unlawful posting and remove any lock, fence, or other obstacle that unlawfully blocks access to state lands. In addition, the Department may take appropriate legal action to recover expenses incurred in the removal of any unlawful posting or obstacle that blocks access to state land.

**C.** The provisions of this Section do not allow any individual to trespass upon private land to gain access to any state land.

**D.** An individual may post state lands within 1/4 mile of any occupied residence, cabin, lodge, or other building and lands within corrals, feed lots, or holding pens containing concentrations of livestock other than for grazing purposes as closed to hunting, fishing, or trapping without further action by the Commission.

**E.** An individual may post state lands other than those referred to in subsection (D) as closed to hunting, fish-

ing, or trapping only if the individual has obtained a permit from the Commission, and the Commission determines that the closing is necessary:

1. Because the taking of wildlife constitutes an unusual hazard to permitted users;
  2. To prevent unreasonable destruction of plant life or habitat; or
  3. For proper resource conservation, use, or protection, including but not limited to high fire danger, excessive interference with mineral development, developed agricultural land, or timber or livestock operations.
- F.** An individual shall submit an application for posting state land to prohibit hunting, fishing, or trapping under subsection (E), or to close an existing road under subsection (J), as required by R12-4-610. If an application to close state land to hunting, fishing, or trapping is made by an individual other than the state land lessee, the Department shall provide notice to the lessee and the State Land Commissioner before the Commission considers the application. The state land lessee or the State Land Commissioner shall file any objections in writing within 30 days after receipt of notice, after which the matter shall be submitted to the Commission for determination.
- G.** An individual may use a vehicle on or off a road to pick up lawfully taken big game animals.
- H.** The closing of state land to hunting, fishing, or trapping shall not restrict any other permitted use of the land.
- I.** State trust land may be posted with signs that read "State Land No Trespassing" but such posting shall not prohibit access to such land by any individual lawfully taking or retrieving wildlife.
- J.** The Commission may grant permission to lock or obliterate a gate or close a road or trail that provides legally available access to state lands for licensed hunters and fishermen if access to such lands is provided by a reasonable alternate route. Under R12-4-610, the Director may grant a permit to a state land lessee to temporarily lock a gate or close an existing road that provides access to state lands if the taking of wildlife will cause unreasonable interference during a critical livestock or commercial operation. This permit shall not exceed 30 days. Applications for permits for more than 30 days shall be submitted to the Commission for approval. If a permit is issued to temporarily close a road or gate, a copy of the permit shall be posted at the point of the closure during the period of the closure.
- K.** When hunting, fishing, or trapping on state land, a license holder shall not:
1. Break or remove any lock or cut any fence to gain access to state land;
  2. Open and not immediately close a gate;

- A.** The Director may authorize Department employees to condemn the carcass of lawfully taken and lawfully possessed diseased, injured, or chemically immobilized wildlife taken under any permit tag that is, in the opinion of the employee, unfit for human consumption, if the individual who took the wildlife requests it and this condition was not created by the actions of the individual who took the wildlife. **R12-4-113. Small Game Depredation Permit**

- A.** Under A.R.S. § 17-239(D), the Commission determines that it is impractical to resolve property damage problems caused by small game by establishing special seasons or bag limits for the purpose of taking small game by hunters. The Commission finds it necessary to waive license fees, bag limits, and seasons for small game causing property damage.
- B.** The Department shall issue a complimentary small game depredation permit to take small game to a landowner, lessee, livestock operator, or municipality suffering property damage, if the Department determines that all other remedies in A.R.S. § 17-239(A), (B), and (C) have been exhausted and the take of the small game is necessary to alleviate the damage. A small game depredation permit is not valid for migratory birds unless the permit holder obtains a federal special purpose permit under 50 CFR 21.27, revised October 1, 1988, not including any later amendments or editions, which is incorporated by reference herein. A copy of the incorporated matter is available for inspection at any Department office, or it may be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.
- C.** Notwithstanding the requirements of R12-4-304 and R12-4-318, individuals or municipalities issued a small game depredation permit under this Section may take depredating small game by whatever safe and humane means are practical for the particular situation.

**R12-4-114. Issuance of Nonpermit-tags and Hunt Permit-tags**

- A.** In accordance with A.R.S. § 17-332 and the provisions of this Section, the Department shall annually provide numbered tags for sale to the public. The Department shall ensure that each tag includes a transportation and shipping permit as prescribed in A.R.S. §§ 17-332 and 17-371, and that each tag is made of tear-resistant material with an adhesive back covered by a detachable paper backing and clearly identifies the animal for which the tag is valid.
- B.** If the Commission establishes a big game season for which a hunt number is not assigned, the Department or its authorized agent, or both, shall sell nonpermit-tags.
1. To obtain a nonpermit-tag, an applicant shall provide to a license dealer or Department office the applicant's name, home mailing address, and Department identification number.
  2. An applicant shall not apply for or obtain nonpermit-tags in excess of the bag limit prescribed by the Commission when it established the season for which the nonpermit-tags are valid.
- C.** If the number of hunt permits for a species in a particular hunt area must be limited, a Commission Order establishes a hunt number for that hunt area, and a hunt permit-tag is required to take the species in that hunt area.
1. To apply for a hunt permit-tag, an applicant shall submit an application under R12-4-104.
  2. The Department shall use the following procedure to determine whether a hunt permit-tag will be issued to an applicant:
    - a. The Department shall reserve a maximum of 20% of the hunt permit-tags for each hunt number for antelope, bear, deer, elk, javelina, and turkey to issue to individuals and groups that have bonus points. The Department shall reserve a maximum of 20% of the hunt permit-tags for all hunt numbers combined statewide for bighorn sheep and buffalo to issue to individuals and groups that have bonus points.
    - b. The Department shall issue the reserved hunt permit-tags for hunt numbers designated by eligible applicants as their first or second choices. The Department shall issue the reserved hunt permit-tags by random selection:
      - i. First, to eligible applicants with the highest number of bonus points for that genus;
      - ii. Next, if there are reserved hunt permit-tags remaining, to eligible applicants with the next highest number of bonus points for that genus; and
      - iii. If there are still tags remaining, to the next eligible applicants with the next highest number of bonus points; continuing in the same manner until all of the reserved tags have been issued or until there are no more applicants for that hunt number who have bonus points.

- c. The Department shall ensure that the first selection from all unreserved hunt permit-tags is by random drawing.
  - d. If the bag limit established by Commission Order is more than one per calendar year, or if there are hunt permit-tags remaining unissued after the random drawings, the Department shall ensure that these hunt permit-tags are available on a set date on a first-come, first-served basis as specified in the hunt permit-tag application schedule published annually.
  - D.** The Department shall not make available more than one hunt permit-tag or 10% of the total hunt permit-tags, whichever is greater, for bighorn sheep or buffalo in any draw to nonresidents. The Department shall not make available more than 50% nor more than two bighorn sheep or buffalo hunt permit-tags of the total in any hunt number to nonresidents.
  - E.** The Department shall not make available more than 10%, rounded down, of the total hunt permit-tags in any hunt number to nonresidents for antelope, antlered deer, bull elk, javelina, or turkey. If a hunt number for antelope, antlered deer, bull elk, javelina or turkey has 10 hunt permit-tags or fewer, no more than one hunt permit-tag will be made available to a nonresident, except that if a hunt number has only one hunt permit-tag, that tag shall only be available to a resident.
  - F.** Any cap established under this Section applies only to hunt permit-tags issued by random drawing under subsections (C)(2)(b) and (c).

#### **R12-4-115. Supplemental Hunts and Hunter Pool**

- A.** For the purposes of this Section, the following definitions apply:
  1. "Management objectives" means goals, recommendations, or guidelines contained in Commission-approved wildlife management plans, which include hunt guidelines, operational plans, or hunt recommendations;
  2. "Hunter pool" means all individuals who have submitted an application for a supplemental hunt; and
  3. "Supplemental hunt" means a season established by the Commission for the following purposes:
    - a. Take of depredated wildlife under A.R.S. § 17-239;
    - b. Take of wildlife under an Emergency Season if the Commission adopts, amends, or repeals a Commission Order for reasons constituting an immediate threat to the health, safety, or management of wildlife or its habitat, or to public health or safety; or
- c. Take of wildlife under a population management hunt if the Commission has prescribed restricted nonpermit-tags by Commission Order for the purpose of meeting management objectives because regular seasons are not, have not been, or will not be sufficient or effective to achieve management objectives.
- B.** For the purposes of authorizing a population management hunt, the Commission through Commission Order shall open a season or seasons and prescribe a maximum number of restricted nonpermit-tags that the Director may issue under this Section.
- C.** The Director shall implement a population management hunt under the open season or seasons prescribed in subsection (B) if the Director finds that:
  1. Regular seasons have not met or will not meet management objectives;
  2. Take of wildlife is necessary to meet management objectives; and
  3. Issuance of a specific number of restricted nonpermit-tags is likely to meet management objectives.
- D.** To implement a population management hunt under subsection (B), the Director shall do the following:
  1. Select season dates, within the range of dates prescribed by the Commission through Commission Order;
  2. Select specific hunt areas, within the range of hunt areas prescribed by the Commission through Commission Order;
  3. Select the legal animal that may be taken from the list of legal animals prescribed by the Commission through Commission Order;
  4. Determine the number of restricted nonpermit-tags that will be issued from the maximum number of tags prescribed by the Commission through Commission Order; and
  5. Reduce restricted nonpermit-tag fees up to 75% if the normal fee structure will not generate adequate participation from either the hunter pool or hunt permit-tag holders under subsection (J).
- E.** The Director shall not issue more restricted nonpermit-tags than the maximum number prescribed by the Commission through Commission Order.
- F.** To participate in a supplemental hunt, an individual shall obtain a restricted non-permit tag as prescribed by this Section. A restricted non-permit tag is valid only for the supplemental hunt for which it is issued.
- G.** If the season dates and open areas of a supplemental hunt prescribed by the Commission through Commission Order exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw, the Department shall make the restricted nonpermit-tags available only to holders of the hunt permit-tags, and not the hunter pool.
- H.** To obtain a restricted nonpermit-tag under subsection (G), an applicant shall provide to a Department office the applicant's name, address, Department identification number, and hunt permit-tag number on a form prescribed by the Department.

- a. The applicant shall provide verification that the applicant legally obtained the hunt permit-tag for the hunt described under subsection (G) by presenting the hunt permit-tag to a Department office for verification.
- b. The applicant shall not apply for or obtain a restricted nonpermit-tag to take wildlife in excess of the bag limit prescribed by the Commission.
- I. The Department or its authorized agent shall maintain a hunter pool for supplemental hunts and shall randomly select applicants from the hunter pool for participation in a supplemental hunt, if the season dates and open areas of the supplemental hunt do not exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw.
- J. When issuing restricted nonpermit-tags to the hunter pool, the Department or its authorized agent shall randomly select applicants from the hunter pool. The Department or its authorized agent shall attempt to contact each randomly-selected applicant by telephone at least three times during a 24-hour period. If an applicant cannot be contacted or cannot participate in the supplemental hunt, the Department or its authorized agent shall return the application to the hunter pool and draw another application. The Department or its authorized agent shall draw no more applications after the number of restricted nonpermit-tags prescribed in subsection (D)(4) has been issued.
- K. The Department shall purge and renew the hunter pool annually.
- L. An applicant for a supplemental hunt shall submit the following information on a form available from the Department or its authorized agent:
  1. Applicant's name, home mailing address, whether a resident or nonresident, and date of birth;
  2. Daytime and evening telephone numbers;
  3. The species that the applicant would like to hunt if drawn; and
  4. The number of the applicant's hunting license for the year that corresponds with the applicable supplemental hunt.
- M. Along with the application form, an applicant for a supplemental hunt shall submit the permit application fee prescribed in R12-4-102.
- N. The Department shall not accept group applications, as described in R12-4-104, for supplemental hunts.
- O. A hunter pool applicant who is drawn and who wishes to participate in a supplemental hunt shall submit the following to the Department to obtain a restricted nonpermit-tag:
  1. The fee for the tag as prescribed by R12-4-102, or as prescribed by subsection (D)(5) if the fee has been reduced, and
  2. The number of the applicant's hunting license, valid for the year of the supplemental hunt.
- P. The Department shall reserve a restricted nonpermit-tag for an applicant only for the period specified by the Department when contact is made with the applicant. The Department shall issue a restricted nonpermit-tag not purchased within the specified period to another individual whose application is drawn from the hunter pool as prescribed by this Section. The Depart-

ment or its authorized agent shall remove from the hunter pool the application of any successful applicant who does not purchase a tag after being contacted and agreeing to purchase the tag.

- Q. An individual who participates in a supplemental hunt through the hunter pool shall be removed from the supplemental hunter pool for the genus for which the individual participated. An individual who participates in a supplemental hunt shall not reapply for the hunter pool for that genus until that hunter pool is renewed.
- R. The provisions of R12-4-104, R12-4-107, R12-4-114, and R12-4-609 do not apply to supplemental hunts. A supplemental hunt application submitted in accordance with this Section does not invalidate any application for a hunt permit-tag. The issuance of a restricted nonpermit-tag does not authorize an individual to exceed the bag limit established by the Commission.

- A. Subject to the restrictions in A.R.S. § 17-315, an individual may claim a reward from the Department if the individual provides information that leads to an arrest through the Operation Game Thief Program.   1. Funds are available in the wildlife theft prevention fund;
  2. The individual who reported the violation provides the Operation Game Thief control number issued by Department law enforcement personnel, as prescribed in subsection (B);
  3. If more than one individual provides information or evidence that leads to an arrest for a violation, the Department may divide the reward payment among the individuals that provided the information if the total amount of the reward payment does not exceed the maximum amount of a monetary reward prescribed in subsections (C) or (D);
  4. The information provided relates to a violation of any provisions of A.R.S. Title 17, A.A.C. Title 12, Chapter 4, or federal wildlife laws enforced by and

    - a. The value of the information;
    - b. The unusual value of the wildlife;
    - c. The number of individual animals taken;
    - d. Whether or not the individual who committed the unlawful act was arrested for commercialization of wildlife; and
    - e. Whether or not the individual who committed the unlawful act is a repeat offender.
- D.** Notwithstanding subsection (C), the Department may offer and pay a reward up to the minimum civil value of the wildlife unlawfully taken, as prescribed in A.R.S. § 17-314, if a violation is discovered and the Department believes that a reward may result in sufficient information to make an arrest.

Title 41, Section 6, Article 7.1. By signing the application, the applicant attests that they are authorized or have permission to conduct special license activities at any locations specified in the application.
- C.** In addition to any criteria prescribed by a special license's governing Section, the Department shall deny a special license to an applicant if:
1. The applicant's live wildlife privileges are revoked or suspended in this state, any other state, or by the United States;
  2. The applicant has been convicted of illegally holding or possessing live wildlife within three years of applying for a special license;
  3. The applicant knowingly provides false information on an application; or
  4. The applicant submits an incomplete application.
- D.** If an individual obtains a special license despite meeting any criteria for denial, the license shall be void and of no effect from the date of issuance. If an applicant is denied a special license listed in subsection (A), the Department shall provide a written notice to the applicant that states the reason for denial with references to the statutes or rules on which the denial is based. The applicant may appeal the denial to the Commission as prescribed in A.R.S. Title 41, Chapter 6, Article 10.
- E.** Special license holders are not exempt from any municipal, county, state or federal statutes, rules, or ordinances. A special license does not authorize an individual to engage in any activity using wildlife if the wildlife is protected by federal regulation. A special license holder may only engage in authorized activities using federally-protected wildlife if the license holder possesses a valid license, permit, or other form of documentation issued by the United States that authorizes the license holder to use that wildlife in a manner consistent with the special license.
- F.** The Department has the authority to place additional stipulations on a special license at the time of application or renewal if necessary to conserve wildlife populations, prevent introduction and proliferation of wildlife diseases, prevent wildlife from escaping, or for public health or safety.
- G.** A special license holder shall keep live wildlife in a facility according to the captivity standards prescribed by R12-4-428, or if applicable, as otherwise required by the Section that prescribes captivity requirements under the special license. The Department may authorize one of its employees to make a reasonable inspection of a facility to ensure that it complies with all requirements prescribed by this Article. The Department shall ensure that an inspection does not inadvertently transmit disease among facilities.
- H.** A special license holder shall keep records according to the Section that prescribes requirements for the special license. The license holder shall make the records available for inspection to any authorized Department employee upon reasonable request.
- I.** If a disease or other emergency condition exists that poses an immediate threat to the public or the welfare of wildlife, including wildlife held under a special license, as determined by a person with relevant expertise, the Department shall immediately order a cessation of operation under the special license and, if necessary, order humane disposition or quarantine of any contaminated or threatened wildlife. The license holder shall perform disease testing, submit biological samples to the Department or its designee, quarantine the wildlife, or destroy the wildlife as directed by the Department. The license holder shall ensure that any disease giving rise to an emergency condition under this subsection is diagnosed by an individual or individuals professionally certified to make the diagnosis. Once operation has ceased and an emergency no longer exists, subsection (J) applies.
- J.** If a condition exists, including disease or any violation of this Article, that poses a threat to the welfare of wildlife, including the wildlife held, or the public, but the threat does not constitute an emergency, the Department shall provide the license holder a written notice of the condition, by certified mail or personal service, specifying a reasonable time for the license holder to cure the noticed condition. Failure of the license holder to cure the noticed condition within the time specified by the Department is a violation under subsection (K). If a licensee receives three notices under this subsection for the same condition within a two-year period, the Department shall treat the third notice as a failure to cure.
- K.** The Department has the authority to do any or all of the following as it deems necessary: file criminal charges; suspend a special license; seize, or seize in place any wildlife held under a special license, and unless the license holder appeals the conviction, humanely dispose of the wildlife, if a special license holder:
1. Violates any provision of this Section;
  2. Violates any provision of the special license that the individual possesses, including any stipulations applied by the Department;
  3. Violates A.R.S. § 13-2908, relating to criminal nuisance;
  4. Violates A.R.S. § 13-2910, relating to cruelty to animals;
  5. Is convicted of any other criminal offense involving cruelty to animals;
  6. Refuses to allow reasonable inspection of facilities, wildlife, or required records; or
  7. Fails to keep records or submit reports if required by this Section or the Section that governs any special license, listed in subsection (A), that the individual possesses.
- L.** An individual may appeal to the Commission any Department action listed in subsection (K), except filing of criminal charges, as prescribed by A.R.S. Title 41, Chapter 6, Article 10.
- M.** All special licenses listed in subsection (A) expire on December 31 for the year issued unless otherwise

specified in the governing Section. If the special license holder does not submit an application to the Department for a new license by the date that the license expires, any live wildlife possessed under the license is considered unlawfully possessed, and the Department has the authority to seize it. If the special license holder submits an application for a new license on or before the date that the license expires, the license holder's current license remains valid until the Department grants or denies the new special license. If the Department denies the new license, and the license holder appeals the denial to the Commission as prescribed by subsection (D), the license holder may continue to hold the wildlife until the date that the Commission makes its final decision on the denial.

- N.** If the special license holder chooses to renew the license, the license holder shall submit an application for a new license as required by the governing Section.
- O.** If required by the governing Section, a special license holder shall submit an annual report to the Department before January 31 of each year on activities performed under the license for the previous calendar year. If the license holder is acting as a representative of an institution, organization, or agency for the purposes of the special license, the annual report is due within 30 days after the license holder's termination of affiliation with that entity. The special license holder shall submit the following information and any additional information required by the governing Section.
1. The license holder's name, address, telephone number, and special license number;
  2. The number and species of all restricted live wildlife obtained and the date when it was obtained;
  3. The source of all restricted live wildlife obtained and the date when it was obtained;
  4. The number of offspring propagated by all restricted live wildlife; and
  5. If applicable, the number, species, and date of disposition and manner of disposition of all wildlife, including the names and addresses of individuals to whom the wildlife was sold, bartered, or given, if authorized.

1. Indoor facilities.
    - a. An area large enough to allow easy access for caring for the raptors housed in the facility;

    - c. At least 1 window, protected on the inside by vertical bars, spaced narrower than the width of the raptor’s body, and a door that can be easily closed and secured;
    - d. A well drained floor designed to permit easy cleaning;

1. At least 1 pair of jesses constructed of pliable, high-quality leather or synthetic material, containing bracelets to affix to each leg of a raptor, with a grommet through which a strap passes freely so that an escaped raptor can pull the strap out of the bracelet. 1. During capture, the licensee shall have in possession the Sport Falconry License or falconer license issued by another lawful jurisdiction, Arizona hunting license, and any required hunt permit-tag issued to that licensee.
  2. The licensee shall immediately release any non-target raptor inadvertently captured. If the raptor is wearing a band or other marker the licensee shall report the capture and release of the marked bird to the Department, along with any identifying number and related information.
  3. The licensee shall not remove any eyas raptor from any nest unless 1 or more live eyas raptors remain in the nest after the removal.
  4. The licensee may capture raptors only with traps or bird nets which are unlikely to cause injury to the raptor, and shall not use mist nets, steel-jawed traps, or stupefying substances.

  6. The licensee shall present each captured Harris hawk, Gyrfalcon, or Peregrine falcon to the Department within 5 calendar days after capture. A Department representative shall attach a numbered band to 1 leg of the lawfully obtained raptor. This band shall not be removed except by an authorized official of the Department, or except as provided in this rule. Licensees shall not alter, counterfeit, or deface a band but may remove the rear tab on the band and may smooth any imperfect surface provided the integrity of the band and numbering are not affected. Raptors other than Harris Hawks, Gyrfalcons, or Peregrine falcons shall not be banded.
- L.** A licensee may exhibit or use for educational display a lawfully held raptor.
- M.** Licensees may retain and exchange feathers that are molted or those feathers from raptors held in captivity that die only for purposes of repairing or replacing a broken feather with a feather.
- N.** If any raptor used in falconry incidentally kills any species of wildlife for which there is no open season or for which the season is closed, the licensee shall not take the dead wildlife into possession. The licensee shall leave the wildlife where it lies, but may allow the raptor making the kill to feed on the dead wildlife before leaving the site.
- O.** Licensees may transfer raptors taken from the wild in Arizona to an Arizona resident's federal raptor propagation license, with the concurrence of the U.S. Fish and Wildlife Service.
- P.** A licensee shall not transfer a raptor taken from the wild in Arizona to another falconer or raptor breeder licensed outside of Arizona, or export the raptor from the state, without written authorization from the Department. The Department shall not authorize exportation transactions involving more than 2 raptors taken from the wild in Arizona, singly or in combination, per licensee in any calendar year. The Department shall deny any request for authorization of exportation when the number or species which have been or are being exported is not in the best interest of raptor management.
- Q.** A licensee may place a raptor or raptors listed in 50 CFR Part 10.13 in temporary facilities, under the care of another licensee, for a period not to exceed 30 days, providing that the licensee completes a Form 3-186A naming the temporary caregiver as the recipient and provides the raptor to the temporary caregiver to retain at the location where the raptor is being held. - T.** A licensee shall transfer the carcass of a raptor listed in 50 CFR Part 10.13 to a Department office, or destroy the carcass after receiving authorization for destruction of the carcass from the Department. The

licensee shall remove any federal markers prior to destroying the carcass and return the markers to the Department.

A wildlife rehabilitation license allows an individual to capture alive; transport; temporarily possess; rehabilitate; transfer to a practicing veterinarian for treatment or euthanasia or to another rehabilitator licensed for the wildlife; release; or euthanize an injured, diseased, disabled, orphaned, or otherwise debilitated live wildlife specified on the license. The license also allows an individual to export, transfer to a licensed zoo, or dispose of wildlife as directed in writing by the Department. A wildlife rehabilitation license holder shall not display for educational purposes, exhibit, or permanently possess wildlife held under the license. - C. Before applying for a wildlife rehabilitation license, an individual shall take an examination administered and supervised by the Department that covers wildlife rehabilitation; handling, transport, humane treatment, and nutritional, behavioral, developmental, ecological, and habitat requirements of wildlife; captivity standards established under R12-4-428; human and wildlife safety considerations; and state laws regarding wildlife rehabilitation, specifically R12-4-409 and this Section. An individual shall make an appointment with the Department to take the examination during normal business hours. An individual may request that the test be written or tape-recorded. The Department shall mail the results to the individual within 30 calendar days of the examination. The Department shall consider only those parts of the examination that are applicable to the taxa of wildlife for which the license is sought in establishing the qualifications of the applicant.
- D. An applicant shall apply for a wildlife rehabilitation license using a form available from the Department. The applicant shall provide the following information:
  1. Name, address, telephone number, birthdate, physical description, and (if applicable) Department ID number;

**R12-4-428. Captivity Standards**

- A.** An individual who holds a special license listed in R12-4-409(A) shall keep all wildlife held under the li-

cense in as humane a manner as the activities authorized by the license allow, to safeguard and protect the interests of the wildlife held. A special license holder subject to the provisions of this Section shall comply with the minimum standards for humane treatment prescribed by this Section. For the purposes of this Section, "animal" means any wildlife held under a special license, unless otherwise indicated.

- B.** A special license holder shall ensure that all facilities required by the special license meet the following minimum standards.
1. The facility shall be constructed of material and be of a strength appropriate for the nature of the animal held. The facility shall be properly braced and constructed of material of sufficient strength to resist any force the animal may be capable of exerting against it. The facility shall be constructed in such a manner as to reasonably prevent the animal's escape or the entry of unauthorized individuals or animals. The facility shall be structurally sound and shall be maintained in good repair to protect the animals that are held from injury and to facilitate the humane practices prescribed by this Section.
  2. If required to comply with related provisions of this Section, there shall be safe, reliable and adequate electric power to the facility. All electric wiring shall be constructed and maintained in accordance with all applicable governmental building codes. Electrical construction and maintenance shall be sufficient to ensure that no animal has direct contact with any electrical wiring or electrical apparatus and is fully protected from any possibility of shock or electrocution from electric conducting materials.
  3. Every animal shall be supplied with sufficient potable water to meet its needs. If potable water is not accessible to the animal at all times, it shall be provided as often as necessary for the health and comfort of the animal, and the license holder shall ensure that the level of available water is monitored once daily or more often as the needs of the animal dictate. All water receptacles shall be kept in clean and sanitary condition.
  4. Food shall be wholesome, palatable, and free from contamination, and of sufficient appeal, quantity, and nutritive value to maintain in good health each animal that is held. Each animal's diet shall be prepared based upon the nutritional needs and preferences of the animal with consideration for the age, species, condition, size, and type of the animal, and all veterinary directions or recommendations in regard to diet. The quantity of food supplied to each animal shall be sufficient to meet its needs and keep it in good health. Each animal shall be fed as often as its needs dictate, taking into consideration hibernation, veterinary treatment or recommendation, normal fasts, or other professionally accepted humane practices. The license holder shall ensure that the level of available food for each animal is monitored once daily, except for those periods of time when professionally accepted humane practices dictate that the animal not consume any food during the entire day. Food

- and food receptacles, if used, shall be sufficient in quantity and accessible to all animals in the facility and shall be placed to minimize potential contamination. Food receptacles shall be kept clean and sanitary at all times. Any self-feeding food receptacles shall function properly and the food they provide shall not be subject to deterioration, contamination, molding, caking, or any other process that would render the food unsafe or unpalatable for the animal to be fed. Appropriate means of refrigeration shall be provided for supplies of perishable animal foods.
5. The facility shall be kept sanitary and regularly cleaned as the nature of the animal requires and allows. Adequate provision shall be made for the removal and disposal of animal waste, food waste, unusable bedding materials, trash, debris and dead animals not intended for food. The facility shall be maintained to minimize the potential of vermin infestation, disease, and unseemly odors. Excreta shall be removed from the primary enclosure facility as often as necessary to prevent contamination of the animals and to minimize hazard of disease and to reduce unseemly odors. The sanitary condition of the facility shall be monitored by the licensee at least daily. When the facility is cleaned by hosing, flushing or the introduction of any chemical substances, adequate measures shall be taken to ensure the animal has no direct contact with any chemical substance and is not directly sprayed with water, steam or chemical substances or otherwise wetted involuntarily.
  6. A sanitary and humane method shall be provided to rapidly eliminate excess water from the facility. If drains are utilized, they shall be properly constructed and kept in good repair to avoid foul odors, and installed so as to prevent backup or accumulation of debris or sewage.
  7. No animal shall be exposed to any human activity or environment that may have an inhumane or harmful effect upon the animal that is inconsistent with the purpose of the special license.
  8. Facilities shall not be constructed or maintained in proximity to any physical condition which may give rise to any health threat to the animal including, but not limited to, trash or garbage collection sites and/or pools of standing water. All individuals that care for the animals shall maintain themselves in a sufficiently clean condition when dealing in or around the animal so as to minimize any threat to the health of the animal.
  9. All animals housed in the same facility or within the same enclosed area shall be compatible and shall not pose a substantial threat to the health, life or well-being of any other animal in the same facility or enclosure, whether or not the other animals are held under a special license. This shall not apply to live animals placed as food items in the enclosures.
  10. Facilities for the enclosure of animals shall be constructed and maintained to provide sufficient space to allow each animal adequate freedom of movement to make normal postural and social adjustments. The facility area shall be large enough and constructed in a manner to allow the animal proper and adequate exercise as is characteristic to each animal's natural behavior and physical need. Facilities for digging or burrowing animals shall have secure safe floors below materials supplied for digging or burrowing activity. Animals that naturally climb shall be provided with safe and adequate climbing apparatus. Animals that naturally live in an aquatic environment shall be supplied with sufficient access to safe water so as to meet their aquatic behavioral needs.
  11. A special license holder shall ensure that a sufficient number of properly trained personnel are utilized to meet all the humane husbandry practices prescribed by this Section. The license holder shall be responsible for the actions of all animal care personnel and all other individuals that come in contact with the animals.
  12. The facility and holding environment shall be structured to reasonably promote the psychological well-being of any primate held under a special license.
  13. Except for wildlife hobby license holders that possess fewer than 50 birds and license holders that possess animals for less than one year, a special license holder shall designate a veterinarian licensed to practice in this state as the primary treating veterinarian for each individual species of animal to be held under any special license issued. The license holder shall ensure that all animals in their care receive proper, adequate and humane veterinary care as the needs of each animal dictate. Each animal held for one year or more and each facility used shall be inspected by the attending veterinarian at least once every year. Every animal shall receive veterinary care whenever it appears that the animal is ill, wounded, diseased, infected by parasites or behaving in a substantially abnormal manner, including but not limited to exhibiting loss of appetite or disinclination to normal physical activity. All medications, treatments and other directions prescribed by the attending veterinarian shall be properly administered by the licensee. No prescription medicine or medical treatment shall be administered by any license holder unless under the direction of a veterinarian.
  14. Any animal that is suspected of or diagnosed as harboring any infectious or transmissible disease, whether or not the animal is held under a special license, shall be isolated immediately upon suspicion or diagnosis from any animal to whom such disease could be transmitted. The isolated animal shall continue to be kept in a humane manner and in a facility as required by this Section. When there is an animal with an infectious or transmissible disease in any animal facility, whether or not the animal is held under a special license, the facility shall be reasonably sanitized so as to reasonably eliminate the chance of other animals being exposed to infection. Sanitation procedures may include, but not necessarily be limited to, the washing of facilities or animal-related materials with hot water and appropriate antibacterial

chemical agents and appropriate soaps or detergents; the appropriate application of steam under pressure; and the replacement of gravel, sand, water, food, or dirt. All residue of chemical agents utilized in the sanitation process shall be reasonably eliminated from the facility before any animal is returned to the facility. Parasites and avian and mammalian pests shall be controlled and eliminated so as to ensure the continued health and well-being of all animals.

- C. A special license holder shall ensure that all indoor facilities meet the following standards in addition to those set forth in subsection (B).
1. Heating and cooling facilities shall be supplied that are sufficient to regulate the temperature to protect the animals from extremes of temperature as the nature of the wildlife requires and to provide a healthful and humane living environment and prevent discomfort to the animal. The ambient temperature shall not be allowed to fall below nor rise above temperatures compatible with the health, comfort, and humane care of any animal.
  2. Indoor facilities shall be adequately ventilated by natural or mechanical means to provide for the healthful and humane keeping of any animal and prevent the discomfort of any animal. The facility shall be provided with fresh air, either by means of windows, doors, vents, fan, or air conditioning sufficient to meet the humane needs of any animal and shall be constructed to minimize drafts, odors and moisture condensation.
  3. Indoor facilities shall have lighting by either natural or artificial means, or both, that is appropriate to the nature of the animals being kept. Lighting shall be of a quality, distribution, and duration as is appropriate for the needs and nature of the animals held. Lighting shall be utilized in regular cycles as the animal's needs may dictate. Lighting of uniform distribution and sufficient intensity to permit routine inspection and cleaning of the facility shall be available. Lighting shall be designed to protect the animals from excessive or otherwise harmful aspects of illumination.
- D. A special license holder shall ensure that all outdoor facilities meet the following standards in addition to those set forth in subsection (B).
1. If sunlight is likely to cause overheating or discomfort of any animal, sufficient shade by natural or artificial means shall be provided to allow all animals kept outdoors to humanely protect themselves from any harmful affects of direct sunlight.
  2. Sufficient natural or artificial shelter appropriate to humanely protect animals from normally expected local climatic conditions through the year shall be provided for all animals to prevent any discomfort or harm to the animals. No animal shall be exposed to any climatic condition that is potentially harmful to the animal. Individual animals shall be acclimated to outdoor climatic conditions before they are housed in any outdoor facility or otherwise exposed to the extremes of climate.
- E. If an animal must be handled, the special license holder that possesses it shall ensure that the animal is handled in an expeditious and careful manner to

ensure no unnecessary discomfort, behavioral stress, or physical harm to the animal. An animal that is transported shall be transported in an expeditious, careful, and humane fashion. During periods of transport, an animal shall be made as humanely secure as reasonably possible. No animal shall be transported in any manner that poses a substantial threat to the life, health, or behavioral well-being of the animal. All facilities and services used to transport the animal shall provide for the basic humane needs of the animal during periods when the animal is held in a transportation facility, including but not necessarily limited to providing the animal with adequate food, water, sanitary conditions, and ventilation, and any medication as prescribed by the attending veterinarian. If any animal is placed on public exhibit or educational display, such animal shall be handled in a manner minimizing the risk of harm to members of the public and to the animal: Minimization of risk shall include but not necessarily be limited to sufficient distance existing between the animal and the viewing public to assure the safety of both the public and the animals. Any restraint used on any animal shall be humane in nature and not likely in either its design or use to cause physical harm or discomfort to the restrained animal except when discomfort is necessary to control the animal due to its size or strength.

- F. The Department may impose additional requirements on facilities that hold animals if it becomes necessary to meet the needs of the particular animal and to ensure public health and safety. Any additional special license facility requirements shall be set forth in writing by the Department at the time the special license is issued. Any additional requirements for housing facilities shall specify the reason necessitating the additional measures.

- A. A person shall apply for watercraft registration under A.R.S. § 5-321 using a form provided by the Department. The applicant shall provide the following information for registration of all watercraft except homemade watercraft, which are addressed in subsection (B):
  1. Type of watercraft and propulsion type;
  2. Overall length of watercraft;
  3. Manufacturer's name, if known;
  4. Year built or model year, if known;
  5. Hull identification number;
  6. Hull material;
  7. Fuel type;
  8. Category of use;
  9. Watercraft number previously issued for the watercraft, if any;
  10. State of principal use; and
  11. Name, mailing address, and date of birth of each owner. To simplify the description of joint ownership when a watercraft is owned by more than one person, the applicant shall indicate ownership by use of one of the following methods:
    - a. Where ownership is joint tenancy with right of survivorship or community property with right of survivorship, the applicant shall use "and/or"

"Abandoned watercraft" means a watercraft that has remained on private property without the consent of the private property owner or has remained unattended on a highway, public street, or other public property, or waterway for more than seven days. A watercraft left under a written repair or storage order is not an abandoned watercraft.

  3. "Unreleased watercraft" means a watercraft for which there is no release of interest from the registered owner.
- B. Unless an abandoned or unreleased watercraft is reported stolen the last registered owner is presumed to be responsible for the watercraft.
- C. An applicant seeking transfer of ownership of an abandoned or unreleased watercraft shall submit the following information, if available, on a form obtained from the Department:
  1. Hull identification number, unless exempted by R12-4-505;

  9. State in which the watercraft will be used;
  10. Length of time the watercraft was abandoned; and

If service is successful and the registered owner does not respond to the notice in writing within 30 days from the date of mailing, when service was successful, the Department shall advise the applicant of the failure to respond, and the Department shall not register the watercraft to the applicant unless the applicant provides proof of ownership and complies with R12-4-502;
    - d.   2. If the Department cannot determine who the registered owner of the watercraft is, or if the written notice is returned unclaimed or refused, the Department shall advise the applicant in writing within 15 days of the notice being returned that the attempt to identify or contact the registered owner was unsuccessful.

The published notice shall include a statement of the intent of the Director to transfer ownership of the watercraft as provided by R12-4-502 10 days after the notice is published, unless the Department receives notice from the registered owner refusing to release interest in the watercraft. Title 41, Chapter 6, Article 10. A respondent shall limit testimony to facts that show why the license should not be revoked or denied. Because

the Commission does not have the authority to consider or change the conviction, a respondent is not permitted to raise this issue in the proceeding. The Commission shall permit a respondent to offer testimony or evidence relevant to the Commission's decision to order recovery of civil damages or wildlife parts.

- C. If a respondent does not appear for a hearing on the date scheduled, at the time and location noticed, no further opportunity to be heard is provided, unless rehearing or review is granted under R12-4-607. If the respondent does not wish to attend the hearing, the respondent may submit written testimony to the Department before the hearing date designated in the Notice of Hearing required by A.R.S. § 17-340(D). The Commission shall ensure that written testimony received at the time of the hearing is read into the record at the hearing.

With the notice of hearing required by A.R.S. § 17-340(D), the Department shall supply the respondent with a copy of each document provided to the Commission for use in reaching a decision.
- E. Any party may apply to the Commission for issuance of a subpoena to compel the appearance of any witness or the production of documents at any hearing or deposition. Not later than 10 calendar days before the hearing or deposition, the party shall file a written application that provides the name and address of the witness, the subject matter of the expected testimony, the documents sought to be produced, and the date, time, and place of the hearing or deposition. The Commission chair has the authority to issue the subpoenas.
  1. A party shall have a subpoena served as prescribed in the Arizona Rules of Civil Procedure, Rule 45. An employee of the Department may serve a subpoena at the request of the Commission chair.
  2. A party may request that a subpoena be amended at any time before the deadline provided in this Section for filing the application. The party shall have the amended subpoena served as provided in subsection (E)(1).
- F. A license revoked by the Commission is suspended on the date of the hearing and revoked upon issuance of the findings of fact, conclusions of law, and order. If a respondent appeals the Commission's order revoking a license, the license is revoked after all appeals have been completed. A denial of the right to obtain a license is effective for a period not to exceed five years, as determined by the Commission, beginning on the date of the hearing.
- G. A license suspended by the Commission is suspended on the date of the hearing, and suspended upon issuance of the findings of fact, conclusions of law, and order. If a respondent appeals the Commission's order suspending a license, the license is suspended after all appeals have been completed. Under A.R.S. § 17-340(A), a suspension of a license is effective for a period not to exceed five years, as determined by the Commission, beginning on the date of the hearing.

If both parties agree that all project costs shall be expended within the first quarter of the project period, the Department shall transfer the total amount of awarded grant funds to the participant within the first quarter of the project period. In all other cases, the Department shall transfer awarded grant funds, less 10 percent, to the participant within one year of the grant effective date. The Department shall include provisions in the Grant-in-Aid Participant

Agreement that authorize the Department to perform completion inspections and reviews before release of final payment.

3. The participant shall deposit transferred Heritage Grant funds in a separate project account carrying the name and number of the project. The participant shall expend funds from the account only as authorized under the terms of the Grant-in-Aid Participant Agreement.

Title 41, Chapter 24, Article 1. The Department shall provide public notice of the time, location, and due date for application submission. After providing public notice, the Department shall furnish materials necessary to complete the application.
- B.** Any state agency, political subdivision, Indian tribe, or non-profit organization exempt from federal income taxation under Section 501(c) of the Internal Revenue Code may apply for a grant from the fund in accordance with A.R.S. § 17-299 and this Article.
- C.** A participant shall not begin a project until after the grant effective date. A participant shall complete the project as specified under the terms and conditions of the grant agreement.
- D.** The Department shall announce grant awards 30 days after the Commission reviews and acts on the Department's recommendations at a regularly scheduled public meeting, and notify each applicant of the result.
- E.** An applicant shall demonstrate control of land or waters where projects are to be completed by providing documentation of a fee title, lease, easement, land use agreement, or similar evidence of control for the purposes of conservation enhancement, restoration, or public access that is sufficient to meet the terms and conditions in the grant agreement, and complies with A.R.S. § 17-299(C). The Department shall determine whether or not similar evidence of control and tenure of land or waters that the applicant submits with an application is sufficient during the grant application review process.
- F.** In accordance with A.R.S. § 17-299, a non-profit participant shall provide evidence of reasonable public access to any land that is wholly or partly purchased with grant monies.
- G.** A participant shall operate and maintain properties, facilities, equipment, and services funded by a grant for the benefit of the public as required under A.R.S. § 17-299 and the terms and conditions of the grant agreement.
- H.** A participant shall provide public acknowledgment of the Arizona Wildlife Conservation Fund for the life of a project. If a project involves acquisition of property or improvements, development of public access, or renovation of a habitat site, the participant shall install a permanent sign that describes the Fund at the project site. The participant may include the cost of the sign as part of the project, but shall pay for maintenance or replacement of the sign through non-grant monies, if necessary. For other project types, a participant shall provide a substantially similar form of Fund acknowledgment.
- I.** A participant shall not use grant monies to replace monies already budgeted for the project. The Department shall review each application to ensure that grant monies for proposed projects will not replace existing monies from another source.
- J.** The Department has the authority to require an eligible applicant or a participant to provide evidence of compliance with local, state, and federal laws that are applicable to a project before the release of grant monies or project implementation.

- K.** In accordance with A.R.S. Title 41, Chapter 24, an unsuccessful applicant may submit an appeal.
- L.** An applicant that does not comply with the terms or conditions of a grant agreement is not eligible to apply for other grants until the applicant's project is brought into compliance.
- M.** If a representative has a grant-funded project that has been extended under R12-4-905, an administrative subunit that employs the representative is not eligible to apply for other grant monies until the project is completed.
- N.** If applicable, an applicant shall comply with A.R.S. Title 41, Chapter 4.2 (Historic Preservation), and provide evidence to the Department that the applicant has satisfied all the necessary requirements of these statutes.

#### R12-4-905. Grant Agreements

Before the Department will transfer any monies, a participant shall sign a grant agreement that includes the following terms and conditions:

1. A participant shall use awarded grant monies solely for the purposes defined in A.R.S. § 17-299, as approved by the Department. The participant shall not exceed the grant allocation unless the parties amend the grant agreement.
2. The Department shall transfer awarded grant monies, less 10 percent, to the participant within one year of the grant effective date. The Department shall transfer the remaining 10 percent, less any adjustment for actual expenditures, upon receipt of a written request and a certification of project completion from the participant, unless the participant violates state law or the grant agreement.
3. The Department has the authority, under the grant agreement, to perform completion inspections and reviews of an awarded project or projects before release of final payment.
4. A participant shall deposit transferred grant monies into a bank account for each project, under the name and number of the project. The participant shall expend monies and interest from the account only as authorized under the terms of the grant agreement. The participant shall maintain a list of itemized expenditures.
5. A participant shall submit project status reports, as required by R12-4-906. The Department shall not make any grant payment until the participant has submitted all past due project status reports.
6. If both parties agree, the Department and the participant may amend the grant agreement. During the project period, the participant may submit a written request and justification to amend the

- agreement.
7. The Department shall prepare any approved amendment in writing, and both the Department and the participant shall sign the amendment. An amendment that lacks a required signature is invalid.
  8. Notwithstanding subsection (6), the Department has the authority to extend the project period for good cause.
  9. Upon completion of the awarded project, a participant shall return to the Department any unused monies. The participant may make a written request that the Department award the unused monies for an additional project that is consistent with the original scope of work.
  10. If a participant violates state or federal law or the grant agreement, the Department shall seek recovery of all monies awarded and classify the participant as ineligible for grant monies for a period that does not exceed five years.
  11. If applicable, a participant shall operate and maintain grant-assisted capital improvements, provide reasonable protection of any project improvements, and ensure that reasonable public access is maintained as specified in the grant agreement.
  12. If a participant contracts with a third party or subcontractor, the participant is responsible for compliance with the grant agreement provisions if the third party or subcontractor defaults or violates any terms or conditions of the grant agreement.
  13. The project period is two years from the grant effective date unless otherwise agreed upon by the Department and the participant.
  14. A participant shall use equipment purchased with grant funds in a manner consistent with the purposes of the grant agreement, for the useful life of the equipment, or surrender the equipment to the Department upon completion of the project if the equipment has an acquisition cost of more than \$500. If the equipment is sold, the participant shall pay to the Department the amount of any proceeds according to a ratio equivalent to the Department's share of funds provided for the purchase.
  15. A participant shall ensure that the value of real property purchased with grant assistance is appraised by a state certified appraiser within six months before the acquisition, in accordance with the Uniform Standards of Professional Appraisal Practice. The Department has the authority to select an appraiser for an independent evaluation if the Department has evidence that the participant's appraised value of the real property is not accurate.
  16. Notwithstanding subsection (3), the Department has the authority to conduct inspections to ensure compliance with all terms and conditions of the grant agreement.
  17. The Department has the authority to inspect or audit participant and subcontractor records based on verified complaints or evidence that indicates the need for an inspection or audit. Upon the Department's request, a participant or subcontractor shall produce a legible copy of these records. The participant is responsible for the acceptable per-

formance of a subcontractor under each subcontract.

18. A participant shall not use grant monies for the purpose of generating income. If the participant generates income from a project, the participant shall use the money to pay costs of the project.

  1. Progress towards completing approved work;
  2. An itemized, cumulative project expenditure sheet;
  3. Any anticipated delays or other problems that may prevent on-time completion of the project; and
