

2005-2006 Small Game Forecast by Game Management Unit

These forecasts were generated by the local Wildlife Manager for each Game Management Unit. In most cases, a blank cell indicates the species is not present in a particular Game Management Unit, does not occur in huntable numbers, or no data were available to support a hunting forecast. Obviously, suitable habitat for the species listed may or may not cover an entire Game Management Unit, and hunters are encouraged to prescout locations for the desired species. Please consult your 2005-2006 Arizona Hunting and Trapping Regulations for additional information and Game Management Unit boundaries.

<i>GMU</i>	<i>Gambel's Quail</i>	<i>Scaled Quail</i>	<i>Mearns' Quail</i>	<i>Cottontail</i>	<i>Tree Squirrel</i>	<i>Blue Grouse</i>	<i>Chukar</i>	<i>Pheasant</i>	<i>Mourning Dove</i>	<i>White-winged Dove</i>	<i>Band-tailed Pigeon</i>
