Hunt Regulation Changes For 2005-2006

This list is for informational purposes only and lists only the major changes that have occurred since the publication of the last regulation booklet. Individuals should thoroughly read and understand the appropriate regulations prior to making application or going afield.

No Online Applications for the 2005 Fall Draw Only manual (paper) applications will be accepted for the 2005 Fall draw and first come, first serve issuance of permits.

Tag Fees have Increased; Must be Paid Up Front Please use the new application form this year that is CANARY YELLOW. See page 9 for current fees. All application fees, hunt permit-tag fees, and license fees (if applying for a license at the time of application) must be included with each application.

Buying a Bonus Point Only the \$5 application fee and license fee (if needed) are required. The hunt permit tag fee is no longer required. See R12-4-107 on page 54.

No License Refunds You must purchase a hunting license to apply for the draw even if you are not drawn.

Loyalty Bonus Point A single loyalty bonus point will be awarded to people who buy a license and apply for big game hunts for five consecutive years. The point is genus specific and will be retained as long as the hunter continues to apply each calendar year for that genus. The starting year for record keeping purposes is 2001. See R12-4-107 on page 54.

Bighorn Sheep Set-Aside for Nonresidents Fifteen percent of the total available bighorn sheep hunt permit-tags in any calendar year will be set aside for nonresidents. See R12-4-114 on page 58.

Restricted Nonpermit Tags for Elk and Buffalo Available to Some Deer and Pronghorn Antelope Hunters See page 42 for a description of new Population Management Seasons that will offer restricted nonpermit tags for elk or buffalo to deer or pronghorn antelope hunters in specific units.

Bonus Point Pass Percentage The bonus point pass percentage has increased from 10 to 20 percent, meaning that 20 percent of tags in each hunt will be set aside for applicants with the highest number of bonus points.

Successful Archery Deer Hunters Must Contact AZGFD Successful archery deer hunters, including Kaibab archery hunters, must contact AZGFD in person or by telephone at 1 (866) 903-3337 within 10 days of taking a deer. See page R12-4-308 on page 64.

Transferring of Big Game Tags A person may transfer their big game tag for use by a child with a life threatening medical condition. See A.R.S. 17-332 on page 51.

Hunting Information

Who Can Go?

Everyone needs a license to hunt wildlife in Arizona. You must possess a Pioneer license, disabled veterans license, a valid Class G General Hunting License, or a Class F Combination Hunting and Fishing License, plus any required hunt permit-tags, nonpermit-tags or stamps.

A person under 14 may hunt wildlife other than big game without a license when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.

No one under the age of 14 may take big game without having completed the Arizona Hunter Education Course or equivalent. No one under age 10 may be certified to hunt big game under the hunter education course.

Young Hunters

AGE – Anyone 14 years of age or over needs a license to hunt wildlife in Arizona. You need in possession a valid Class G General Hunting License, or a Class F Combination Hunting and Fishing License, or a Class H Three-day Hunting License (not valid for big game), plus any required tags, permit-tags or stamps.

A person under 14 may hunt wildlife other than big game without a license when accompanied by a properly licensed person 18 years or older. (No more than two unlicensed children may accompany any license holder.)

No one under the age of 14 may take big game without having completed a Hunter Education Course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10 to 13 years of age must have in their possession a valid Class F or G license, a valid Hunter Education Course completion card, plus any required permit tags.

Lifetime License Holders

If a lifetime license holder changes resident status from Arizona, the licensee must then purchase nonresident stamps, tags, and permits. A nonresident tag or stamp can accompany your lifetime resident license. The lifetime license will remain legal for the taking of all wildlife as permitted by law. Residency may be reestablished after moving back to Arizona and meeting the required time period as set forth by law. Consult A.R.S. 17-335.01 for additional information.

Residency Requirements

Residency means a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application for a license, or a member of the armed forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license.

Arizona residents may purchase a resident license. All other individuals must purchase a non-resident license.

Purchase Hunting and Fishing Licenses online at azgfd.gov

Purchase Hunting and Fishing Licenses online at azgfd.gov.

A temporary license number will be issued upon transaction completion that allows the purchaser to legally hunt and/or fish. This temporary number cannot be used to apply for a hunt permit-tag through the draw process. The regular paper license will be mailed within one business day.

Three-Day Non-Resident License

A Class H, three-day non-resident license, valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, nongame birds, upland game birds and migratory game birds, except ducks, geese and swans is available at all license dealers for \$51.50. This license is not

valid for hunting big game nor is it valid when applying for big game hunts through the draw process.

Lost License or Tag Replacement

Lost licenses, hunt permit-tags and nonpermit-tags may be replaced for a fee at any Arizona Game and Fish Department license dealer. See R12-4-103 Duplicate Tags and Licenses on page 53 for additional information.

Physically Challenged Hunters

Those hunters who are physically challenged may qualify for a Challenged Hunter Access/Mobility Permit (CHAMP). See R12-4-217 on page 60 for a description of this permit. Contact any Arizona Game and Fish Department office for additional information and application.

The Draw

When the number of hunt permits for a species in a particular area must be limited to prevent over-harvest of wildlife, the Commission Order governing seasons for that species assigns a hunt number to a designated area, and a hunt permit-tag is required to take that species in that area. Hunt permit-tags are issued through a computerized random drawing. Big game tags not issued through the drawing process are nonpermit-tags. Nonpermit-tags may be purchased directly from department offices or through license dealers.

Qualifications

Individuals wishing to participate in a drawing must apply in writing on the Hunt Permit-Tag Application Form. Online applications services will not be available for the 2005 Fall draw.

Each applicant must possess a Class F or G hunting license for the year in which the hunt will take place or possess a pioneer or disabled veteran's license. A Class H license may not be used in applying for big game permit-tags. **Juveniles applying for big game hunts must be licensed.** Applicants not licensed for the year in which the hunt will take place must submit the information and fees required on each license application on each hunt-permit application submitted.

Applying For A Hunt

Applications for hunt permit-tags must be made on Hunt Permit-Tag Application Forms available at department offices, Web site, and license dealers. Please use the current year's application form, which is colored CANARY YELLOW. Do not use any previous year's application form as certain important changes have been made this year. Applications not prepared in a legible manner may well be deemed not valid and shall be rejected as specified in R12-4-104(D). Use standard blue or black ink (no gel ink).

No more than four people may apply in one envelope. No more than two non-residents may apply as a group when applying for bighorn sheep. All applicants in a group must apply for the same hunt number(s) and in the same order of preference.

No person may submit more than one valid application per genus of wildlife in any calendar year, except as specified in R12-4-104(K).

No more than one genus may be included on each paper Hunt Permit-Tag Application Form. Use a separate form and envelope for each genus (elk, deer, etc.) of wildlife you wish to hunt. Deer hunts are in the 1000 series, antelope hunts in the 2000 series, and so on. You can list a general hunt as your first choice and a special weapons hunt for the same genus as another choice on the same application—just be sure they are in the same numerical series. Use only one application per genus, even if you are mixing general and special weapons choices.

Hunt Permit, Bonus Points Disclaimer

The issuance of any big game permit has no express or implied guarantee or warranty of hunter success. Any person holding a valid permit assumes the risk that circumstances beyond the control of Arizona Game and Fish may prevent the permit holder from using the permit. In such situations, Arizona Game and Fish disclaims any responsibility to reissue or replace a permit, to reinstate bonus points or to refund any fees, except under specific circumstances as stated in R12-4-107 on page 54.

Fees

Each applicant shall enclose the following fees:

1. The fee for the appropriate hunt permit-tag. **IMPORTANT NOTICE: A Unit 12A (North Kaibab) Habitat Management Stamp is now required for all 12A (North Kaibab) deer hunters. These stamps are available at all license dealers at a cost of \$15.00. They are not obtained through the draw process. Application for Kaibab deer hunts no longer requires the additional \$5.00 fee per person.**
2. A permit application fee.
3. Fee for a hunting license, if a license is requested. Be sure to enclose license fees for each person who is applying on the application for a hunting license.

Each payment enclosed with a hunt permit-tag application shall be made by certified check, cashier's check, money order, or personal check or draft payable to the Arizona Game and Fish Department. Cash will not be accepted.

One personal check or money order can cover all fees for the application.

The permit and license fees are specified in the fee schedule. The hunt permit-tag fees on page 9 include the \$5.00 non-refundable application fee.

A \$25 fee will be charged for each returned or dishonored check.

Submitting Applications

Applications may be mailed to the Phoenix Office or hand-delivered to department offices in Phoenix, Mesa, Tucson, Flagstaff, Pinetop, Kingman or Yuma. **Mailed applications must be sent only to the department's Phoenix Office at P. O. Box 52002, Phoenix, AZ 85072-2002.** On deadline days, department business offices close at 5:00 p.m. (MST), but applications can be delivered to drop boxes until 7:00 p.m., (MST). Drop boxes are locked promptly at 7:00 p.m., (MST). All applications must be received by the department before the deadline. Deadlines for submission are specified in the Hunt Application Schedule on page 8. Postmarks don't count.

Complete and proper preparation of an application is the sole responsibility of the applicant.

What Happens To My Application?

The department will examine your application and determine whether or not it is eligible for inclusion in the Draw. Any application not properly prepared, submitted with insufficient fees or one that is illegible is not valid and will be rejected and all fees refunded.

If there is an error and your paper application is received by the department on or before Friday, May 27, 2005, we will make three attempts within a 24-hour period to notify you by telephone if a phone number is provided. If we are able to contact you by phone and our customer service representatives can correct the application at that time, they will do so and enter the application in the Draw. If an error cannot be corrected by phone, we will still attempt to notify you of the error and advise you to re-submit your application. The applicants may then prepare a new Hunt Permit-Tag Application Form, include the appropriate fees and re-apply by the scheduled deadline date.

If any applicant in a group is rejected for any reason, all other

Hunting Information

applicants in that group will also be rejected.

No hunt permit-tag will be issued to anyone in a group if there are not sufficient hunt permit-tags available for all applicants in that group.

Hunt permit-tags will be mailed to successful applicants.

What If I'm Not Drawn?

Please use one of the methods (telephone or Internet) described on page 2 to access draw results. These methods of access shall serve as the official notification of draw results.

Your money will be refunded. Over-payments and hunt permit-tag fees received with unsuccessful applications will be returned to applicant "A," as shown on the Hunt Permit-Tag Application Form. Application and license fees received with valid applications will not be refunded. You will not be issued or charged for more than one license.

If you or a member of your group elected to donate his/her fees or a portion thereof, the donation will not be refunded. If an applicant has applied for a hunting license and they are unsuccessful in the draw, his/her money for the license fee will not be refunded. A hunting license is required to apply in a drawing.

You will be awarded bonus points if eligible to receive them.

Hunt permit-tags remaining after the drawing will be issued on a first-come, first-served basis through the mail only as specified in the hunt permit-tag application schedule on page 8. When the bag limit is one per calendar year, an unsuccessful applicant may re-apply for remaining hunt permit-tags in unfilled hunt areas. Unsuccessful spring turkey and buffalo hunters may apply in a fall drawing.

Hunter Questionnaire Program

The department uses the Hunter Questionnaire to estimate harvest and hunter participation levels.

Accurate data are necessary for making sound wildlife management decisions. Your response, whether you were successful or unsuccessful, or even did not hunt, is essential for obtaining accurate data. Your response is voluntary and in no way affects your chances of being drawn for a permit-tag in subsequent years. Unreturned questionnaires cost money, while providing no data. Help us use sportsmen's dollars more efficiently to manage wildlife — please return your hunter questionnaire!

Hunting Accidents

Any person, who while taking wildlife, is involved in a shooting accident resulting in an injury should render every possible assistance to the injured person. If the accident results in a fatality, he or she shall immediately report the accident to the nearest available law enforcement officer and render assistance as required. In any hunting accident, a report shall be filed with the Arizona Game and Fish Department within ten days.

Guides and Guide Service

If you are paying a guide to assist you in taking wildlife in the State of Arizona you should determine that your guide is lawfully licensed. A guide license issued from the Arizona Game and Fish Department is required for any person who, for pay, aids or assists another in the taking of wildlife in Arizona. This license does not assure consumer satisfaction; potential clients should require references before engaging the services of a guide.

Guiding on USFS, BLM, or USFWS lands requires a special-use permit from the administering agency. It is the responsibility of the client to determine if his guide has the necessary special use permits.

Road Damage by Motorized Vehicles

The U.S. Forest Service has expressed concern over damage to roads during hunting seasons. Since the majority of our big

game habitat is found on Forest Service lands, the department urges hunters to cooperate with the U.S. Forest Service to reduce road damage. The U.S. Forest Service may close roads during wet periods. During such periods, roads are closed to all users. Please cooperate and reduce road damage. Careless hunters can be fined for damages they cause; assessment can be as high as \$5,000 per mile driven.

Posting Signs

The U.S. Forest Service would like to remind you that posting or erecting any unauthorized paper notice, sign or similar matter on lands administered by the U.S. Forest Service is a violation of the Code of Federal Regulations.

Taking Wildlife from a Vehicle

Includes: using a vehicle to hunt while traveling on or off road; and/or chasing wildlife with a vehicle, both of which are illegal. It is also illegal under state law to shoot from, across, or onto a roadway or railway. See A.R.S. 17-301.B on page 50.

It is illegal to use an aircraft to pursue, shoot, hunt or otherwise take wildlife. See R12-4-319 on page 64.

Hunting Near Buildings

It is unlawful to discharge a firearm within one-quarter mile of an occupied building while hunting, without permission of the owner or occupant. This includes farmhouses, cabins, lodges, trailer homes and other buildings. It may be difficult to know whether a building is "occupied" or not. If in doubt, don't shoot. See Classification of Violations, Title 17-309.A.4 on page 51.

Camping, Hunting Near Water Holes

It is unlawful to camp within one-quarter mile of a water hole containing water, or a man-made watering facility containing water if camping there means that wildlife or livestock may be denied access to the only reasonably available water. Give wildlife a break. A quarter-mile is only 440 yards.

Hunting water holes on public lands from ground blinds and tree stands can sometimes lead to conflicts between hunters. All legally licensed hunters have the same rights to hunt public land. No reservations exist in public hunting areas, regardless of when a person builds a blind or stand. Ethical and responsible hunters shall work together to resolve conflicts. Denying access to public lands is a violation of state and/or federal law.

Radio Collars

Radio transmitters have been placed on numerous species. Radioed animals may be legally taken in season, but any radios or other animal markers (such as ear tags) must be returned to the nearest department office or officer.

When Is Hunting Legal?

SEASONS

Open hunting season dates are indicated in the Commission Orders governing the taking of each kind of big and small game (pages 10-42). Seasons for all wildlife are closed unless specifically opened by Commission Order.

Special restrictions apply on state wildlife areas (see R12-4-802, pages 65-66), as well as at certain times on parks, refuges and similar areas (see Hunting on Public Lands in the Index, page 3).

SHOOTING HOURS

Legal shooting time is during daylight hours (see sunrise-sunset chart on page 80) or as prescribed by the Commission (see individual Commission Orders). In general, if you can see well enough to shoot safely, you are legal. Taking wild animals or birds by moonlight or artificial light is illegal, except for raccoons, reptiles and other mammals as prescribed in R12-4-304, pages 61-62. Other time requirements apply for migratory

birds (see Migratory Bird Regulations).

Non-US Citizens Wanting to Hunt in Arizona

Pursuant to new regulations by the U.S. Bureau of Alcohol, Tobacco and Firearms (ATF), nonimmigrant aliens who want to temporarily import firearms and/or ammunition into the United States for the allowable purpose of taking wildlife will need an ATF import permit and valid hunting license in possession at the time of entry/import into the United States. For further information or to make application for the import permit, contact ATF's Firearms and Explosives Import Branch at (202) 927-8320, or download an application from the ATF web site at www.atf.treas.gov. Arizona hunting licenses can be obtained from licenses dealers throughout the state, from any Arizona Game and Fish Department office, or online at azgfd.gov.

Purchasing A Bonus Point Only

In the event you do not wish to participate in a big game drawing for antelope, bighorn sheep, buffalo, deer or elk but still wish to accumulate bonus points, you may "purchase a bonus point" for any or all of the genera named above.

When completing your application, you must choose the bonus point hunt number established for that genus as your first choice. A bonus point hunt number is established within each applicable Commission Order. If you choose this hunt number, you may not choose any other hunt number on your application. **If the bonus point hunt number is any choice other than the first choice or any other hunt numbers appear on the application, your application will be rejected.** You may purchase only one bonus point per species per drawing.

In order to purchase a bonus point, you must have previously purchased a hunting license or apply for a hunting license through the draw for the year in which the hunt will take place. You must also include the \$5.00 application fee per applicant. Your application will not be entered into the draw and you will not receive a refund on the license fee or the application fee. **Do not** include the fee for the hunt permit-tag for the genus in which you are applying for the bonus point. A bonus point purchase costs you only the license fee (if needed) and the \$5.00 application fee per applicant.

If you apply for a bonus point only using the established bonus point hunt number, you may **NOT** submit another application for the same genus. To do so will cause both applications to be rejected as duplicate applications. If you apply to purchase a bonus point only, you will NOT be entered into the drawing.

All applicants in a group must apply for the same established bonus point hunt number. The application will not be included in the random number drawing and the individual(s) on the application will each receive a bonus point for that genus.

How to Apply for the Draw

Completing Your Paper Hunt Permit-tag Application Form

R12-4-104 on page 53-54 explains application and drawing procedures in detail. Complete and proper preparation of an application is the sole responsibility of the applicant. If any applicant in the group fails to complete any required portion of the application, all applicants in the group will be rejected.

Numbered paragraphs correspond to numbers circled on the SAMPLE forms - use them to assist you in completing your forms.

1 Enter the hunt number(s) of the hunt(s) in which you wish to participate. The hunt number will indicate the genus (deer, elk, etc.) and area you want to hunt. Do not use the Game Management Unit Number. Hunt numbers are listed in the far left column of each Commission Order. Deer hunts are in the 1000 series, antelope in the 2000 series, elk in the 3000 series, and so on. All hunt numbers on an application must be in the same series. YOU CAN NOT MIX HUNT SERIES NUMBERS, BUT YOU CAN MIX WEAPON TYPES WITHIN A SERIES. You must submit a separate application for each genus (series). No more than five hunt choices can be requested. You may request fewer. You do not have to fill in all the blocks. Do not repeat any choices.

2 Enter your correct date of birth (mm/dd/yy).

3 Enter your Social Security Number. In accordance with Federal Requirement, 42 U.S.C. Section 666A13 and A.R.S. 25-320 (K) and 25-502 (E), you must provide your Social Security Number in the space provided. This is kept on file with the Arizona Department of Economic Security for use in identifying and tracking child support offenders. If you are not a U.S. citizen you must write "NOT US CITIZ" in the Social Security field. If you are not a U.S. citizen, you must obtain a Department I.D. Number and enter it on the application. See #6.

4 Check the appropriate resident or nonresident box. Resident means a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application, or a member of the Armed Forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license.

5 Enter your valid Arizona hunting license number for the year in which the hunt for which you are applying occurs. The hunting license number consists of two letters and six numbers. If you don't have a license, see "Completing Your License Application Form" below. You must purchase a license through the draw by completing a License Application Form and submitting payment with each of your applications if you are not licensed.

6 Enter your Department I.D. Number (formerly called Sportsman I.D.). This number is only for those individuals who choose to use a department issued I.D. Number instead of a social security number to track bonus points. This is a permanent number and is to be used on all hunt applications. Your I.D. Number (if different from SSN) is vital to track your bonus points and to ensure that you receive the proper credits. Using a different number may result in your not receiving proper bonus point credits. An I.D. Number may be obtained by calling the department.

ing Your Hunt Permit-Tag Application Form, paragraph 4 to determine if you qualify.) No entry is required here for a nonresident applicant.

16 Check the fee box next to the license type which you wish to purchase. If you are requesting a license on more than one application, you must specify the same class of license on each application and include the license fee in each application. You will not be issued or charged for more than one license. If you are not licensed for the year in which the hunt will occur, you must complete the License Application Form for each genus applied for and include payment for a license with each application. If you are drawn for more than one genus, only one license will be issued in your name. If you are not drawn, you will be refunded only the hunt permit-tag fee. You must possess or purchase a license to participate in a drawing or to purchase a bonus point. No refunds will be issued for license fees if you apply in a drawing and are unsuccessful in the drawing.

How to Apply for the Draw

Big Game Habitat Fund

Arizona has one of the most diverse wildlife populations in the nation. Our partnerships are continually evolving to become almost as diverse as our wildlife resources.

Partnerships, involving individual groups, and other government entities, have become an integral part of the department's wildlife management programs. In case

after case, we are reminded that with these partnerships the number of projects undertaken are far greater than what might otherwise have been achieved without their assistance.

In our efforts to manage wildlife for present and future generations funding is always a limiting factor. Our part-

ners' donations allow us to stretch our funds and often multiply our dollars and our efforts. You can become part of our success story by donating a portion of your refund to big game habitat projects. Do so by entering the amount of your donation in the space provided. This is a voluntary donation which will be deducted from your refund.

17 Enter the amount you wish to donate in this block. This donation will be subtracted from your refund if you are eligible for a refund.

17

If unsuccessful, I wish to donate \$ _____. ____ from my refund to the Big Game Habitat Fund.

The Arizona Game and Fish Department will not be offering an online application service for big game hunts in the 2005 Fall Draw. You may access the 2005-2006 hunting regulations and big game hunt permit application form by logging on to azgfd.gov, but *you may not submit a big game application online*. To enter the 2005 Fall Draw, applications must be hand delivered to any Arizona Game and Fish office, or mailed to the department's Phoenix office at: P.O. Box 52002, Phoenix, AZ 85072-2002.

All big game applications must be received by the department no later than 7:00 p.m. on Tuesday, June 14, 2005. (See page 8). Postmarks do not count.

Deer Hunting Information

Mule Deer

Mule deer were named for their oversized ears, like those of a mule. The tail is narrow and ropelike, tipped with black. A mule deer has a white rump patch, but it doesn't throw its tail up when startled and the effect is unlike the "flag" of a whitetail.

Mule deer are generally brownish in color with black markings. They have a dark patch of hair on the top of the head and the entire face shades gradually to a pale cream around the nose and mouth. They are larger and heavier than a whitetail. Mule deer bucks older than a year usually dress out at 135 pounds or more.

The antlers of a mule deer branch out in a double-forked pattern.

When startled, mule deer will usually bound away with a pogo-stick-like action known as stotting. They will often pause after a short distance and look back to see what scared them. Mule deer are also found in a wider variety of habitats than whitetail. They are at home in desert, grassland, chaparral and pine forest. The desert variety inhabits elevations below 3,500 feet, where whitetail are much less common.

White-tailed Deer

These deer are aptly named for the distinctive white underside of their bushy tail. When scared a whitetail will often "flag," or throw its tail up to display this white area.

The white-tailed deer found in Arizona are small and delicate appearing. Bucks rarely dress out to more than 100 pounds. They are an overall grayish-tan with white markings, including a distinct white muzzle and eye ring. Only the upper part of the tail may be cinnamon red to break the overall gray impression.

The whitetail's antlers are formed by individual tines branching off a forward-curving main beam.

Whitetail run like a cottontail, scurrying up and through the brush. They are usually found alone or in small groups of three or less. These deer are usually found in heavy grass or woods at elevations of 4,500 feet and higher. They are uncommon below 3,500 feet and are likely to be the only deer found above 6,000 feet in the mountains of southeast Arizona.

the Jacob Lake Checking Station in accordance with R12-4-308.

Your resident fee for a North Kaibab deer hunt permit-tag is \$24.50 (\$130.50 for nonresidents). The \$5.00 special North Kaibab fee is no longer required when applying for a North Kaibab deer hunt through the draw process.

A Unit 12A (North Kaibab) Habitat Management Stamp is now required for all 12A (North Kaibab) deer hunters. This stamp is required for hunt permit-tags obtained through the draw process and archery nonpermit-tags obtained at all license dealers. The Unit 12A (North Kaibab) Habitat Management Stamp is available at a cost of \$15.00 at any Arizona Game and Fish Department office or wherever hunting licenses are sold. All North Kaibab deer hunters shall have this stamp with their hunting license.

Highway 67 and Forest Road Closures

Highway 67 in Unit 12A is closed from the first major snowfall after November 1st through May 15th.

The U.S. Forest Service is concerned about road damage occurring during periods of wet weather. To prevent road damage, provide for public safety, and protect natural resources, the U.S. Forest Service may close roads to all users during wet periods. The U.S. Forest Service asks that users respect and obey road closures and drive responsibly during wet periods. This includes stopping or turning around at large mud holes instead of causing resource damage by driving around them. It is recommended that hunters call the appropriate Forest Service office for the forest where their hunt occurs to find out current road status. The phone numbers for each of the National Forests in Arizona are found on page 72.

North Kaibab Deer Hunters

All successful North Kaibab deer hunters, except during the archery deer season, must check out their deer, in person, at

Wildlife Health Advisory CHRONIC WASTING DISEASE

Chronic wasting disease is a neurological disorder that causes death in deer and elk. The Arizona Game and Fish Department has conducted surveillance for this disease since 1998 and it has not been found in Arizona. Although there is no scientific link between the disease in wildlife and human health, hunters are urged to use caution while harvesting deer or elk.

DO:

- Avoid harvesting animals that appear to be sick.
- Wear rubber gloves when processing animals.
- Where possible, bone out carcasses and leave the bones at the kill site.
- Check the Arizona Game and Fish Department Web site for additional information on this disease.
- If you hunt these species out of state, check the regulations there as some states have laws regarding carcass movement.

The department is asking for your assistance in surveillance for CWD. To have the head of a deer or elk that you harvest tested for CWD, please drop the animal's head off at one of the regional offices (address found

on page 2), or at the Phoenix office, 2222 W. Greenway Road, between the hours of 8 a.m. and 5 p.m. Monday through Friday. Heads should be contained in a plastic garbage bag. It is important that you do not drop any heads off at times other than these as department representatives must record some data from the animal before it can be tested.

For more information on CWD, check the Centers for Disease Control or the Arizona Game and Fish Department Web sites at www.cwd-info.org and azgfd.gov/cwd.

WEST NILE VIRUS

West Nile Virus is a viral disease that entered the United States in 1999 and has spread rapidly through most of North America including Arizona. This disease can cause illness or death in humans. The most likely source of exposure to humans is through the bite of an infected mosquito.

DO:

- Use an insect deterrent such as 35% DEET when outdoors where mosquitoes are active.
- Use rubber gloves when handling harvested birds.
- Check the Center for Disease Control or the Arizona Game and Fish Department Web sites for current information.

Ten Commandments of Hunting Safety

1. Treat every firearm as if it is loaded. Never assume a firearm is unloaded.
2. Always control the direction of your firearm's muzzle. Never pull a firearm toward you by the muzzle.
3. Be sure of your target and what is beyond it. Another hunter could be in front of your target or behind your target.
4. Be sure the barrel and action are clear of obstructions and that you have only ammunition of the proper size for the firearm you are carrying.
5. Unload and case firearms when not in use. Leave the actions open. Firearms should be carried unloaded and in protective cases when in a vehicle.
6. Never point a firearm at anything you do not want to shoot. Never allow horseplay with, or around a firearm.
7. Never climb a fence or tree, or jump a ditch or log with a loaded firearm. Take a moment and unload the firearm first.
8. Never shoot a bullet at a flat, hard surface or water. During target practice, be sure that your backstop will stop the bullet.
9. Store firearms and ammunition separately and keep them out of the reach and sight of children and careless people. Some states require firearms and ammunition to be locked up in different areas! It is a good idea.
10. Never use alcoholic beverages or drugs that affect your behavior before or while shooting with a firearm or bow.

California Condors in Arizona

Arizona Game and Fish Department Asks for Your Assistance

Arizona hunters have a long tradition of wildlife conservation. Arizona Game and Fish Department is asking for your help in continuing this proud tradition. The department recently surveyed hunters about their thoughts on condor management, and specifically the concern over lead poisoning in condors. Hunters responded that they wanted to help, but requested more information on the topic. This information is provided below.

Condors and lead

In 1982, only 22 California condors were left in the world. Those birds were captured in an effort to breed and save the species, and today, Arizona has 53 free-flying condors, including two wild-hatched chicks. Several more condors are awaiting release in our state. At least two pairs of condors are showing incubation behavior, so we expect more chicks in 2005.

Although the reintroduction of condors in Arizona is going well, one factor that still is impacting its success is lead from spent ammunition in carcasses the birds consume. Because condors are scavengers they are likely to feed on animals or parts of animals that are left in the field by hunters. Condors are group feeders, so when one bird is exposed, many others can be too. When lead enters a condor's system, it can cause paralysis and possible death. Since condor reintroduction began in 1996, six deaths have been caused by lead poisoning, including two this year. Based on X-rays and materials from their digestive tracts, we know these six birds died from ingesting lead shotgun pellets or fragments from lead rifle bullets. In eight other cases, lead shot or lead fragments have been removed from the digestive tracts of live condors. These birds showed high lead levels in blood tests and might have died without treatment.

At least twice per year all condors in Arizona are captured and their blood tested for lead. Nearly all condors have background levels of lead, but since the testing began in 1999, there have been a total of 164 significant lead exposure

California condor

events. Of these, treatment (chelation) for high blood lead levels was required 60 times. Some birds required treatment several times. Without treatment more birds also might have died.

Game and Fish is sponsoring research to determine all sources of lead exposure in the condors. Scientists are comparing lead found in condors to lead from ammunition, soil, and other environmental sources.

What can you do?

One of the best options hunters have for helping condors is to use non-lead shotgun and rifle ammunition. High performing non-lead shot is widely available. Virtually all common rifle calibers have non-lead bullets available. Typically these are full copper bullets (as opposed to copper jacketed bullets that may fragment and still cause lead exposure). For a list of non-lead ammunition manufacturers go to the California condor page of the department's Web site. If you choose to use lead ammunition, you can still help in other ways:

- 1) Remove all shot animals, including coyotes, and animal parts (gut piles) from the field.
- 2) Hide carcasses and gut piles by covering them with rocks or brush.
- 3) When cleaning your animal take special care to find the bullet and remove it from the carcass and from the field. Also, cut out any animal part that appears to contain bullet fragments and remove that material from the field.

In addition, the Arizona Game and Fish Department is developing a pilot program with Cabela's and Sportsman's Warehouse to assist deer hunters in 12A and 12B if they wish to use nontoxic ammunition. Successful applicants will hear more at a later date.

Hunter support is a key factor in bringing condors back for all of us to enjoy. For additional information or to report condor sightings, please call the Arizona Game and Fish Department's Condor Coordinator at (928) 214-1249 in Flagstaff.

Elk: Commission Order 4

Limited Opportunity Elk Hunts

Within the hunt regulations, several of the elk hunts are designated as "Limited Opportunity" hunts. These hunt structures were developed in response to land management issues in relation to elk numbers and are an effort by the department to limit elk populations within specific management areas. This management approach is being applied in two situations. One situation is where elk are remaining yearlong in habitats that were traditionally occupied only during winter. Some of these habitats include private land where elk are damaging crops and some are on public land where the impacts from yearlong elk occupation have reduced habitat quality for the wintering elk population. The second situation occurs where elk are expanding into habi-

itats that were not historically occupied by elk. These expanding elk populations have the potential to influence other wildlife populations or private lands.

Hunters applying for these hunts can expect low densities of elk and correspondingly low hunt success. These hunts are designed to meet management objectives by lowering elk densities within delineated areas of specific hunt units. If you select one of these "Limited Opportunity" hunts on your initial application, you may have a good chance of being drawn. *Should you draw one of these hunts on the initial application, you will expend your accumulation of bonus points.* Any permits that remain may be issued on a first-

come, first-served basis on or after August 8, 2005. Should you be UNSUCCESSFUL in the initial permit-draw for elk, remaining leftover permits may be acquired without expending your accumulated bonus points. Information on the availability of leftover permits may be obtained on or after July 29, 2005 from the department's Web site at azgfd.gov or by telephone at (602) 789-3702. Should you be drawn for any of the "Limited Opportunity" hunts, additional information may be available from the appropriate Regional office to assist with hunt planning. Phone numbers for each Regional office can be found inside the front cover of these regulations.

Mexican Gray Wolf Reintroduction Project

Hunters have played a significant role over the past 100 years in recovering and reestablishing wildlife populations across our country, ranging from white-tailed deer to wild turkey to Canada geese. The Arizona Game and Fish Department is asking hunters to step up once again to assist in recovering a wildlife species to its historic habitat in eastern Arizona.

If you are hunting this year in Unit 1 or 27, please be aware that Mexican wolves may be present in your area. Over the past several years 18 wolves have been shot, causing significant setbacks to the reintroduction project. It's possible that many of these shootings were cases of mistaken identity—that the shooter believed the target was a

coyote. Please read the following identification material and become familiar with the regulations regarding interactions with Mexican wolves.

We hope you have an enjoyable, safe and successful hunt. Good luck!

Arizona Game and Fish Department

Know the Difference

Coyote (*Canis latrans*)

Ears are prominent, pointed, relatively long.

Nose is slender and pointed.

*1-2 feet tall; 4 feet long with tail
front paw, 2.5 inches long x 2 inches wide*

- Moves with more bounce and bounding
- Nose is more pointed; face is mostly one color
- Usually displays skittish behavior unless fed
- Legs and feet are smaller, more delicate
- Weighs 20 - 35 pounds
- Fur color is very similar to wolves:
 - Grizzled gray or rust
 - Rarely white or black

Mexican Wolf (*Canis lupis baileyi*)

Ears are rounded, relatively short.

Nose is large and blocky.

*2-3 feet tall; 5 feet long with tail
front paw, 4.5 inches long x 3.5 inches wide*

- Moves in a stiff and unique gait
- Nose is broad; face often has markings
- Sometimes displays curious behavior
- Legs are longer, more lanky; feet are larger
- Weighs 50 - 80 pounds
- Fur color is very similar to coyotes:
 - Grizzled gray, black, rust
 - Not all white or all black

Helping wolves and humans coexist

Mexican wolves are protected by the Endangered Species Act under a special rule which allows people to scare away or harass wolves in an "opportunistic and non-injurious" manner. This means you cannot seek out, pursue, or attract wolves, nor can you physically injure a wolf in any way. However, you can scare a wolf away by making loud noises or by throwing rocks in the animal's direction.

Keep in mind that few people have had to frighten Mexican wolves away, and no one has been injured by them. Most report that hearing or seeing wolves has not affected the success of their hunt, and say a sighting has actually added to the quality of their experience. About 50 wolves roam nearly 10,000 square miles of the recovery area in the Fort Apache Indian Reservation and in the Apache-Sitgreaves and Gila National Forests of Arizona and New Mexico.

A person who violates the rules pertaining to wolves is subject to prosecution. Criminal penalties are up to one year in jail and a fine of up to \$50,000, and/or a civil penalty of up to \$25,000.

If you have any questions regarding wolves, call the Pinetop office of the Arizona Game and Fish Department at (928) 367-4281.

Common sense ways to avoid wolf conflicts

Wolves normally avoid human contact. Like all wildlife, they can be curious and could become habituated to humans. This is especially true if people at campgrounds feed wolves.

If a wolf should approach you, raise your arms and look as big as possible. Yell or throw rocks to scare it away. Back away slowly—never run.

Some other tips are:

- Keep a clean camp.
- Prepare and store food and wash dishes away from sleeping areas.
- Properly store garbage in camp and dispose of trash in predator-proof receptacle.
- Always keep pets close to you. Do not leave them unattended or allow them to run free.
- Never feed wildlife—including wolves.

To report wolf sightings, possible livestock depredations, or harassment of wolves call:

Thank You Hunters and Recreational Shooters!

Thanks to you...Arizona's rich outdoor heritage is enjoyed by all — thanks to hunters like you whose purchase of hunting and recreational shooting equipment supports wildlife management and habitat enhancement in the Grand Canyon State. When you purchase a rifle, ammunition, archery equipment, and other sporting gear, you pay a federal excise tax and import duties. Since 1937, this money has been collected by the federal government and redistrib-

uted to the states using a formula based on hunting license sales and the state's land area. In 2004, that meant over \$5 million for game management in Arizona. This money paid for game surveys, hunter education classes, wildlife water catchment construction, and wildlife research, among other projects. Hunters like you are part of the largest and most successful wildlife conservation programs in the world...thank you.

Jaguars

Attention Mountain Lion Hunters

Jaguars are listed as endangered in the U.S. under the Endangered Species Act. If, when using dogs to tree mountain lions, a jaguar is inadvertently chased and/or treed by dogs, the dogs must be called off the trail upon realization that a jaguar is being chased. Please report any jaguar sighting as soon as possible by calling (602) 789-3573.

Jaguar tracks are similar to mountain lion tracks. Front feet of the jaguar are larger than the hind feet (both pads and toes) and tend to be wider than mountain lion feet (measuring up to six inches). There is overlap in size between the two species however, therefore the tracks are often difficult to distinguish. Scats are also similar.

The Arizona Houndsmen have offered a \$5,000 reward to any individual who provides information leading to the arrest and conviction of any person who intentionally kills a jaguar. If you believe that you have witnessed a violation, please notify Arizona Game and Fish Department (Operation Game Thief) at 1 (800) 352-0700.

Tune in for the latest wildlife and outdoor recreation information from the Arizona Game and Fish Department.

Supplemental Hunts and Hunter Pool

Beginning in 2003-2004, the Arizona Game and Fish Department established Population Management Hunts and the Hunter Pool. AZGFD Wildlife Managers have found that previous hunt strategies designed to manage some wildlife populations are not meeting objectives. When regular hunt seasons don't meet management objectives, conflicts between wildlife and other uses of the land can occur. Population management hunts are designed to allow the department to achieve supplemental harvests of wildlife when traditional harvest strategies have not met their objectives. Population management hunts will enhance the department's ability to meet population and habitat management objectives.

The following information is important to know if you are planning on applying for a population management hunt.

- Population management hunts may occur as necessary, under the provisions of R12-4-115 (see page 59 for rule).
- The Population Management Seasons Commission Order 26 approved by the Commission designates the range of species, season dates, open areas, legal wildlife, lawful taking methods, and maximum tag numbers for population management hunts to be prescribed by the Director and implemented under R12-4-115.
- When a population management hunt is found to be necessary, as prescribed in R12-4-115, hunters will be selected from the hunter pool made up of hunter pool applicants (see application below).
- The hunter pool list will be purged by the department annually, on April 30, so you must renew your application each year after April 30 if you wish to remain in the hunter pool. You may apply at any time during the year (note: do

not include the hunter pool hunt application form with a hunt permit-tag application—you must apply separately. See application below for instructions).

- To complete your application, you must designate the species of animal you desire to hunt and the weapon type(s). You must also submit a \$5 application fee (note: one \$5 application fee per application—not per species). *Please do **not** send cash.*
- You may designate more than one species and weapon type on the application form. If you choose to designate more than one species and weapon type on your hunter pool application, your name will be included in the hunter pool for each species and weapon type you designate. This means that you may be eligible to participate in a population management hunt for more than one species or method of take each year (note: annual bag limits apply to all population management hunts and may limit your ability to participate in a population management hunt or regular season hunt).
- A hunting license number is not required in order to have your name included in the hunter pool; however, you must have a valid hunting license in order to purchase your tag and hunt if you are selected to participate in a population management hunt.
- If you participate in a population management hunt and fill your annual bag limit for that species, you may not participate in a regular hunting season for that species even if you are drawn through the normal draw process (note: A.R.S. 17-332.E. prohibits the issuing of a refund for the purchase of a license or a permit).

- If your application is selected during a random drawing for a population management hunt, the department will attempt to contact you three times by telephone within a 24-hour period. If you cannot be contacted within 24 hours, your application will be returned to the hunter pool for inclusion in future population management hunts during that year.
- If you are offered a restricted non-permit tag for a population management hunt, pursuant to R12-4-115, you may decline to participate. If you decline to participate, your application will be returned to the hunter pool for inclusion in future population management hunts during that year (note: if you agree to participate in a population management hunt but fail to purchase your tag within the timeframe designated when you are contacted, you will not be eligible for further population management hunts that year).
- If you elect to participate in a population management hunt, it is probable that you will be asked to arrive in the field to hunt within a few days of being contacted (note: purchase of restricted nonpermit-tag and applicable hunting license prior to hunting is required).
- Restricted non-permit tags issued through the hunter pool may be purchased through the Phoenix office. See the front of the hunting regulations booklet for the address and phone number.
- You will not gain or lose bonus points when you apply for, or participate in, a population management hunt.

Form may be photocopied.

Do not include this form with a Hunt Permit-tag Application Form
(See R12-4-115 on page 59)

Have you:

- Filled in all the blanks?
- Enclosed the \$5.00 application fee?
- Signed your application?
- Indicated your choice of species?

Population Management Season Notes:

- These seasons shall be held in accordance with R12-4-115 and may include shorter time frames, smaller geographic areas, and specification of legal wildlife within that described in this Commission Order.
- In accordance with R12-4-318, dogs may not be used to pursue bears between January 1 and July 31.
- Hunter access in Units 29, 30A, 30B, and 32 is restricted. Applicants should secure access before applying.
- The Fort Huachuca Army Garrison in Unit 35A is open to hunting only to properly licensed military and civilian personnel holding a valid Fort Huachuca post hunting permit. Special regulations must be obtained from Fort Huachuca. Applications for these hunts must be submitted to the Arizona Game and Fish Department.
- Round Valley Hunt Area in Unit 1 — That portion of Unit 1 beginning at the junction of AZ Hwy 260 and AZ Hwy 261; south on AZ Hwy 261 to F.S. 8070C; east on F.S. 8070C to F.S. 285; north on F.S. 285 to F.S. 74; east on F.S. 74 to F.S. Trail 607 (Saffel Canyon Trail); east on F.S. Trail 607 to AZ Hwy 191; southeast on AZ Hwy 191 to Nutrioso Creek; north along Nutrioso Creek to AZ Hwy 60; west on AZ Hwy 60 to AZ Hwy 191; south along AZ Hwy 191 to AZ Hwy 260; west on AZ Hwy 260 to AZ Hwy 261.

- The Grand Canyon-Parashant, Vermilion Cliffs, Sonoran Desert, Ironwood Forest, and Agua Fria National Monuments are open to hunting.
- Restricted nonpermit tags for these population management seasons will be available to permit holders in corresponding big game seasons.
- Individuals that have previously harvested a buffalo in Arizona and have met the one (1) per lifetime bag limit are not eligible to purchase the restricted nonpermit tag for buffalo.

Within the Population Management Season Commission Order (pages 40-42), you will note several seasons with footnote (9) that indicate they differ from the standard ones in the Commission Order. Restricted nonpermit tags for these particular seasons will be offered only to successful applicants for deer or pronghorn antelope permits in hunts that season dates and open areas exactly correspond. If drawn for the corresponding deer or pronghorn antelope hunt, you may purchase a restricted nonpermit tag from a department office for elk and/or buffalo that you may use to harvest these animals during the season dates and open areas indicated on your tag. You will not lose bonus points if you choose to purchase one of these tags, although the annual bag limit for elk (1 per calendar year) and buffalo (1 per lifetime) still applies. Further, you are not eligible to purchase the restricted nonpermit tag for that species if you have already met the bag limit. Elk and buffalo within these hunt areas are at low densities and your chances for success are relatively low, but this will allow you to harvest an animal should you encounter one during your hunt for deer or pronghorn antelope.

 - 3. The applicant, before the drawing, purchases a hunting license valid for the year in which the hunt takes place. The applicant shall either provide the hunting license number on the application or submit an application and fees for the license with the Hunt Permit-tag Application Form.
- D. An applicant who purchases a bonus point only shall:
 - 1. Submit a valid Hunt Permit-tag Application Form, as prescribed in R12-4-104, with the Commission-assigned bonus point hunt number for the particular

- genus as the first choice hunt number on the application. Placing the bonus point only hunt number as a choice other than the first choice or including any other hunt number on the application invalidates the application;
 - 2. Include with the application payment for the hunt permit-tag application fee and a fee for a hunting license if the applicant does not already possess a license valid for the year for which the draw is conducted (If an applicant who purchases a bonus point has not already purchased a license for the year for which the applicant is applying, the applicant shall also submit all applicable information designated under R12-4-104(D)(4). If an applicant who purchases a bonus point has already purchased a license for the year for which the applicant is applying, the applicant shall also submit the number of the applicant's license); and
 - 3. Submit only one Hunt Permit-tag Application Form for the same genus for each season that bonus points are issued for that genus.
- E. With the exception of the hunter education bonus point, each bonus point accumulated is valid only for the genus designated on the Hunt Permit-tag Application Form.
 - F. Except for a permanent bonus point awarded for hunter education or loyalty bonus points that are accrued and forfeited as prescribed in subsection (K), all of an individual's accumulated bonus points for a genus are forfeited if:
 - 1. The individual is issued a hunt permit-tag for that genus in a computer drawing; or
 - 2. The individual fails to submit a Hunt Permit-tag Application Form for that genus for five consecutive years.
 - G. An applicant issued a first-come hunt permit-tag under R12-4-114(C)(2)(d) after the computer drawing does not lose bonus points for that genus, and a valid but unsuccessful applicant for a first-come hunt permit-tag remaining after the computer drawing does not gain a bonus point.
 - H. The Department shall award one permanent bonus point for each genus upon an individual's first graduation from the Department's Arizona Hunter Education Course or for serving as a Department hunter education instructor.
 - 1. The Department shall credit an individual who graduated after January 1, 1980, but before January 1, 1991, or an individual certified by the Department as an active hunter education instructor after January 1, 1980, with one permanent bonus point for each genus if the individual provides the following information on a form available from the Department: Department identification number; name; address; residency status and length of Arizona residency, if applicable; date of birth; sex; weight; height; color of hair and eyes; and, for a person other than an instructor, the month and year of graduation from the Department's Arizona Hunter Education Course.
 - 2. An instructor or an individual who has graduated from the Department's Arizona Hunter Education Course shall submit the required form 30 days before a drawing's application deadline, as specified in the hunt permit-tag application schedule, in order for the bonus point to be counted by the Department in that drawing.
 - I. The Department shall make an applicant's total number of accumulated bonus points available on the Department's application web site or IVR telephone system. If the applicant disagrees with the total, the applicant shall provide previous notices or proof of compliance with this Section to prove Department error. In the event of an error, the Department shall correct the applicant's record.
 - J. The Department shall credit bonus points under an applicant's Department identification number for the genus on the application. The Department shall not transfer bonus points between individuals or genera.
 - K. The following provisions apply to the loyalty bonus point program:

- 1. The Department shall award a loyalty bonus point if an applicant applies for a hunt permit-tag for a specific genus consecutively for a five-year period, and purchases a hunting license or combination hunting and fishing license for each of the five consecutive years.
 - 2. An applicant retains a loyalty bonus point once accrued as long as the applicant applies annually for a hunt permit-tag for the genus for which the loyalty bonus point was accrued.
 - 3. If an applicant who has accrued a loyalty bonus point fails to apply in any calendar year for a hunt permit-tag for the genus for which the loyalty bonus point was accrued, the applicant's loyalty bonus point for that genus is forfeited.
 - 4. For the purpose of the loyalty bonus point program, year one of the calculation of consecutive application years is 2001, and the Department shall award a loyalty bonus point to an applicant who qualifies for the loyalty bonus point on or after the effective date of this Section.
 - 5. A loyalty bonus point is accrued in addition to all other bonus points.
- L. The Department shall reinstate any bonus points forfeited for a successful hunt permit-tag application for military personnel, military reserve personnel, national guard personnel, or public agency employees who are unable to use the hunt permit-tag due to mobilization, activation, or required duty in response to a declared national or state emergency, or required duty in response to an action by the President, Congress, or a governor of the United States or its territories. Under A.R.S. § 17-332(E), no refunds for a license or hunt permit-tag will be issued to an applicant who applies for reinstatement of bonus points under this subsection. To request that forfeited bonus points be reinstated under these circumstances, an applicant shall submit the following to the Arizona Game and Fish Department, Draw Section, 2222 W. Greenway Rd., Phoenix, AZ 85023:
 - 1. A letter from the applicant requesting reinstatement of bonus points;
 - 2. The hunt number for which the hunt permit-tag is valid;
 - 3. Evidence of mobilization or duty status, such as a letter from the public agency or official orders;
 - 4. An official declaration of a state of emergency from the public agency or authority making the declaration of emergency, if applicable; and
 - 5. The valid, unused hunt permit-tag, which must be received before the beginning date of the hunt for which the hunt permit-tag is valid, or evidence of mobilization or activation that precluded the applicant from submitting the tag before the beginning date of the hunt.

R12-4-110

Posting and access to state land

A. For the purpose of this rule:

1. "Corrals", "feed lots", or "holding pens" mean completely fenced areas used to contain livestock for purposes other than grazing, including feeding, roundup, branding, doctoring, and other related purposes.
2. "Road" includes any maintained or unmaintained road that has been utilized by the public.
3. "State lands" means all land owned or held in trust by the State of Arizona which is managed by the Arizona State Land Department, and lands which are owned or managed by the Arizona Game and Fish Commission.
4. "Trail" means a path that clearly shows or has a history of established use.

B. In addition to those prohibitions against posting in A.R.S. § 17-304, no person shall lock a gate, construct a fence, place an obstacle or otherwise commit an act which denies legally available access to or use of any existing trail or road upon state lands by persons lawfully taking wildlife. Any person in violation of this rule shall be responsible for taking immediate corrective action to remove any locks, fences or other obstacles unlawfully blocking access upon state lands. If immediate corrective action is not taken, a representative of the Department may remove any unlawful posting and remove any locks, fences or other obstacles unlawfully blocking access upon state lands. In addition, the Department may take appropriate legal action to recover expenses incurred in the removal of unlawful postings or obstacles blocking access upon state land.

C. The provisions of this rule shall not grant any person the right to trespass upon private land to gain access to any state land.

D. State lands within 1/4 mile of any occupied residence, cabin, lodge, or other building and lands within corrals, feed lots or holding pens containing concentrations of livestock other than for grazing purposes, may be posted against hunting or trapping without further action of the Commission.

E. State lands other than those referred to in subsection (D) of this rule may be posted to prohibit hunting, fishing or trapping only by permit from the Commission if the Commission determines that the closing is necessary:

1. Because the taking of wildlife would constitute an unusual hazard to permitted users.
2. To prevent unreasonable destruction of plant life or habitat.
3. For proper resources conservation, utilization and protection, including but not limited to high fire dan-

ger, excessive interference with mineral development, developed agricultural land, or timber or livestock operations.

F. Applications for posting State land to prohibit hunting, fishing or trapping pursuant to subsection (E), or to close a road or trail pursuant to subsection (I), shall be submitted pursuant to R12-4-610. When an application to close state land to hunting, fishing and trapping is made by a person other than the State land lessee, notice shall be given to the lessee and the State Land Commissioner prior to consideration of the application by the Commission. The lessee of the state land or the State Land Commissioner shall have 15 days after receipt of notice within which to file objections in writing to the application after which the matter shall be submitted to the Commission for determination.

G. A person may utilize a vehicle on or off a road to pick up legally killed big game animals.

H. The closing of State land to hunting, fishing or trapping shall not be deemed to restrict any other permitted use of the land.

I. State trust land may be posted with signs that read "State Land No Trespassing" but such posting shall not prohibit access to such land by persons lawfully taking wildlife.

J. Permission to lock or obliterate a gate or to close a road or trail providing legally available access to licensed hunters and fishermen to state trust lands may be granted by the Commission when access to such lands is provided by a reasonable alternate route. The Director may grant a permit for a lessee of State trust lands to temporarily lock a gate or close a road providing access in an area of such lands where persons taking wildlife would cause an unreasonable interference during a critical livestock or commercial operation. Said permit shall not exceed 30 days. Applications for permits in excess of 30 days shall be submitted to the Commission for approval. When a permit is issued granting a temporary road or gate closure, a copy of the permit shall be posted at the point of the closure during the period of the closure.

K. In exercising hunting, fishing and trapping privileges on state land no licensee shall:

1. Break or remove any lock or cut any fence to gain access to state land.
2. Intentionally or wantonly destroy, deface, injure, remove or disturb any building, sign, equipment, marker or other property.
3. Harvest or remove any vegetative or mineral resources or object of antiquity, historic, or scientific interest.
4. Appropriately mutilate, deface, or destroy any natural feature, object or natural beauty, antiquity, or other public or private property.
5. Dig, remove, or destroy any tree or shrub.
6. Gather or collect renewable or non-renewable resources for the purpose of sale or barter unless specifically permitted or authorized by law.
7. Drive or operate motorized vehicles or otherwise conduct himself in a manner that may result in unnecessary frightening or chasing of domestic livestock or wildlife or that unnecessarily endangers the lives or the safety of others.

R12-4-111

Identification Number

A. An applicant for a Department identification number may either:

1. Assign his or her own number by using his or her social security number, or
2. Obtain a number from the Department by providing the Department with full name and any aliases, date of birth, and mailing address.

R12-4-112

Diseased or injured wildlife

A. The Director may authorize Department employees to condemn, upon request of a licensee, the carcass of a lawfully taken and lawfully possessed diseased or injured big game animal that is, in the opinion of the employee, unfit for human consumption, if this condition was not created by the actions of the person who took the animal.

B. The entire big game animal so condemned shall be surrendered to the Department employee.

C. After condemnation and surrender of the big game, the licensee may be authorized in writing, by the Department employee, to purchase and use a duplicate tag. Such tag may be purchased from any dealer where the tag is available. The license dealer shall forward the written authorization to the Department with the report of the tag sale.

R12-4-114

Issuance of Nonpermit-tags and Hunt Permit tags

A. In accordance with A.R.S. § 17-332 and the provisions of this Section, the Department shall annually provide numbered tags for sale to the public. The Department shall ensure that each tag includes a transportation and shipping permit as prescribed in A.R.S. §§ 17-332 and 17-371 and that each tag is made of tear-resistant material with an adhesive back covered by a detachable paper backing and clearly identifies the animal for which the tag is valid.

B. If the Commission establishes a big game season for which a hunt number is not assigned, the Department or its authorized agent, or both, shall sell nonpermit-tags.

1. To obtain a nonpermit-tag, an applicant shall provide to a license dealer or Department office the applicant's name, home mailing address, and Department identification number.
2. An applicant shall not apply for or obtain nonpermit-tags in excess of the bag limit prescribed by the Commission when it established the season for which the nonpermit-tags are valid.

C. If the number of hunt permits for a species in a particular hunt area must be limited, a Commission order establishes a hunt number for that hunt area, and a hunt permit-tag is required to take the species in that hunt area.

1. To apply for a hunt permit-tag, an applicant shall submit an application under R12-4-104.
2. The Department shall use the following procedure to determine whether a hunt permit-tag will be issued to an applicant:
 - a. The Department shall reserve a maximum of 20% of the hunt permits for each hunt number to issue to individuals and groups who have bonus points that have been issued according to R12-4-107.
 - b. The Department shall issue the reserved hunt permit-tags for hunt numbers designated by eligible applicants as their first or second choices. The Department shall issue the reserved hunt permit-tags by random selection:
 - i. First, to eligible applicants with the greatest number of bonus points for that genus;
 - ii. Next, if there are reserved hunt permit-tags remaining, to eligible applicants with the next greatest number of bonus points for that genus; and
 - iii. If there are still tags remaining, to the next eligible applicants with the next greatest number of bonus points; continuing until all of the reserved tags have been issued or until there are no more applicants for that hunt number who have bonus points.
 - c. The Department shall ensure that the first selection from all unreserved hunt permit-tags is by random drawing.

Arizona Game and Fish Commission Rules About Hunting

- d. If the bag limit established by Commission order is more than one per calendar year, or if there are hunt permit-tags remaining unissued after the random drawings, the Department shall ensure that these hunt permit-tags are available on a set date on a first-come, first-served basis as specified in the hunt permit-tag application schedule published annually by, and available from, the Department.
- D. The Department shall ensure that no more than 10% of the total available buffalo hunt permit-tags in any calendar year are issued to nonresidents and that no more than 50% nor more than two buffalo hunt permit-tags of the total available in any hunt number are issued to nonresidents.
- E. The Department shall set aside 15% of the total available bighorn sheep hunt permit-tags in any calendar year, rounded down to the nearest whole number, to be issued to nonresidents and shall ensure that no more than 50% nor more than two bighorn sheep hunt permit-tags of the total available in any hunt number are issued to nonresidents.

R12-4-115

Supplemental Hunts and Hunter Pool

- A. For the purposes of this Section, the following definitions apply:
 - 1. "Management objectives" means goals, recommendations, or guidelines contained in Commission-approved wildlife management plans, which include hunt guidelines, operational plans, or hunt recommendations;
 - 2. "Hunter pool" means all individuals who have submitted an application for a supplemental hunt; and
 - 3. "Supplemental hunt" means a season established by the Commission for the following purposes:
 - a. Take of depredate wildlife under A.R.S. § 17-239;
 - b. Take of wildlife under an Emergency Season if the Commission adopts, amends, or repeals a Commission order for reasons constituting an immediate threat to the health, safety, or management of wildlife or its habitat or to public health or safety; or
 - c. Take of wildlife under a population management hunt if the Commission has prescribed restricted nonpermit-tags by Commission order for the purpose of meeting management objectives because regular seasons are not, have not been, or will not be sufficient or effective to achieve management objectives.
- B. For the purposes of authorizing a population management hunt, the Commission through Commission order shall open a season or seasons and prescribe a maximum number of restricted nonpermit-tags that the Director may issue under this Section.
- C. The Director shall implement a population management hunt under the open season or seasons prescribed in subsection (B) if the Director finds that:
 - 1. Regular seasons have not met or will not meet management objectives;
 - 2. Take of wildlife is necessary to meet management objectives; and
 - 3. Issuance of a specific number of restricted nonpermit-tags is likely to meet management objectives.
- D. To implement a population management hunt under subsection (B), the Director shall do the following:
 - 1. Select season dates, within the range of dates prescribed by the Commission through Commission order;
 - 2. Select specific hunt areas, within the range of hunt areas prescribed by the Commission through Commission order;
 - 3. Select the legal animal that may be taken from the list of legal animals prescribed by the Commission through Commission order;
 - 4. Determine the number of restricted nonpermit-tags

- that will be issued from the maximum number of tags prescribed by the Commission through Commission order; and
- 5. Reduce restricted nonpermit-tag fees up to 75% if the normal fee structure will not generate adequate participation from either the hunter pool or hunt permit-tag holders under subsection (G).
- E. The Director shall not issue more restricted nonpermit-tags than the maximum number prescribed by the Commission through Commission order.
- F. To participate in a supplemental hunt, an individual shall obtain a restricted non-permit tag as prescribed by this Section. A restricted non-permit tag is valid only for the supplemental hunt for which it is issued.
- G. If the season dates and open areas of a supplemental hunt prescribed by the Commission through Commission Order exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw, the Department shall make the restricted nonpermit-tags available only to holders of the hunt permit-tags, and not the hunter pool.

The Department or its authorized agent shall maintain a hunter pool for supplemental hunts and shall randomly select applicants from the hunter pool for participation in a supplemental hunt, if the season dates and open areas of the supplemental hunt do not exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw.
- J. When issuing restricted nonpermit-tags to the hunter pool, the Department or its authorized agent shall randomly select applicants from the hunter pool. The Department or its authorized agent shall attempt to contact each randomly-selected applicant by telephone at least three times during a 24-hour period. If an applicant cannot be contacted or cannot participate in the supplemental hunt, the Department or its authorized agent shall return the application to the hunter pool and draw another application.  2. The number of the applicant's hunting license, valid for the year of the supplemental hunt.
- P. The Department shall reserve a restricted nonpermit-tag for an applicant only for the period specified by the Department when contact is made with the applicant. A restricted nonpermit-tag not purchased within the specified period shall be issued to another applicant drawn from the hunter pool as prescribed by this Section. A supplemental hunt application submitted in accordance with this Section does not invalidate any application for a hunt permit-tag. Common Violations

Common violations while hunting big game, small game and migratory birds

It is each hunter's responsibility to protect our hunting heritage. You can help ensure responsible hunting by reporting violations to our Operation Game Thief hotline 1 (800) 352-0700. Unfortunate incidents and oversights do occur. If you should find yourself in violation of any laws or rules while hunting please contact the Operation Game Thief hotline to report it. It certainly is more beneficial to report a violation yourself than have a Game Ranger discover it in the field, or have another party report it, and certainly more understandable to the judicial system and the Arizona Game and Fish Commission.

Take Wildlife Without A License

(A.R.S. 17-331) Page 51

In order to take any wildlife in Arizona, you must have a current year's hunting license in your possession. You should check your license every time that you go hunting, fishing or collecting.

Take Wildlife During Closed Season, After Legal Hours or With Aid of Artificial Light

(A.R.S. 17-309 A 11 and 17-301 A) Pages 51 and 50

Wildlife may only be taken during times prescribed by the Commission and closed season shall be in effect unless opened by Commission Order. Pay particular attention to 1/2 day dove seasons and review the Commission orders related to the species you are pursuing before leaving home. Use of spotlights to locate game is illegal if you have any weapons in your vehicle. If fear of theft is a concern, you should disable your firearm or bow and make it obvious that it is incapable of firing. Examples are leaving all ammunition, arrows and/or barrels or bolts in camp. Hunters cannot use lighted sight pins or other artificial light sources to extend legal shooting hours.

Exceed Bag and/or Possession Limit

(A.R.S. 17-309 A 15 and 16) Page 51

Wildlife may only be taken as prescribed by the Arizona Game and Fish Commission Orders for bag and possession limits. Consult Commission Orders for specifics.

Possess Unlawfully Taken Wildlife

(A.R.S. 17-309 A 17) Page 51

Any wildlife that is unlawfully taken, may not be legally possessed. So even though you may not have been involved in the illegal taking of wildlife, you cannot legally possess unlawfully taken wildlife or parts thereof.

Improper Tagging of Big Game

(R12-4-302) Page 61

All big game taken shall be immediately tagged in accordance with the instructions on the back of the permit-tag and pursuant to Commission Rule, R12-4-302.

Take/Hunt From A Vehicle

(A.R.S. 17-301 B, R12-4-319) Pages 50 and 64

No person may take wildlife from a motor vehicle (including watercraft and aircraft), except as permitted by Commission Order, and under the provisions of the Challenged Hunter Access Mobility Permit Commission Rule (R12-4-217). "Take," as defined by law, includes pursuing, shooting, hunting and killing wildlife. You are unlawfully using a vehicle to take wildlife if you intentionally drive around until you see the animal you wish to harvest and then make an attempt to take. "Road hunting" is illegal; so is pursuing wildlife with a vehicle, chasing or heading off moving wildlife with a vehicle, and driving off-road to get closer to wildlife. You do not have to shoot from the vehicle to be in violation.

Obtain License or Permit By Fraud

(A.R.S. 17-341) Page 52

Only persons who have been a bona fide resident (pages 4 and 50) of Arizona for a minimum of six months, or members of the Armed Forces stationed in Arizona for a minimum of 30 days, may obtain resident licenses and permits. Factors that may establish residency would include most, if not all of the following: a resident is considered to be someone who primarily or permanently resides in Arizona, possesses an Arizona drivers license and registers their vehicles in Arizona, maintains a home in Arizona, votes in Arizona and pays Arizona resident income taxes. A person cannot be considered a resident of two states at the same time.

Take Wildlife With Prohibited Device or By An Unlawful Method

(A.R.S. 17-301.A; 17-309.A 6, 10, 19, and 21) Pages 50-51 (R-12-4-303) Page 61, and (R-12-4-304) Pages 61-62

Wildlife may only be taken by a device or method as prescribed by the Commission. It is unlawful to take wildlife with a centerfire rifle with a magazine that holds more than 5 rounds. It is unlawful to take migratory game birds with an unplugged shotgun capable of holding more than three rounds.

Shoot Too Close To An Occupied Building or Residence

(A.R.S. 17-309 A 4) Page 51

Without the resident's permission, you may not discharge a firearm within 1/4 mile of an occupied residence while taking wildlife. All structures including barns, sheds and cabins should be assumed occupied. This is one of the most common violations during dove and quail seasons.

Littering While Taking Wildlife

(A.R.S. 17-309 A 9) Page 51

All hunters are responsible for cleaning up after themselves. All camp areas should be left clean. Shell casings and associated debris constitute litter and should be picked up and packed out. Also, all hunters are responsible for the proper care and disposal of their wildlife carcasses. Carcass debris should be disposed of according to local jurisdiction regulation. Please check with your local authorities for specific regulations and instructions.

Shoot Across Road

(A.R.S. 17-301 B) Page 50

No person may knowingly discharge any firearm or shoot any other device including bow and arrow upon, from, across, or into a maintained road or railway. It is advisable not to shoot from or across any road. Again, this is one of the most common violations during the dove season.

License Revocation

(A.R.S. 17-340) Page 52

You can have your license privileges revoked by the Commission for up to five years for a conviction of:

- unlawful taking or possession of wildlife
- careless use of firearms resulting in human injury or death
- destroying or injuring livestock
- acts of vandalism or littering while hunting or fishing
- knowingly allowing another to use your big game tag
- unlawful entry on to closed area for purposes of taking wildlife
- unlawful posting of state or federal lands
- license fraud

You may also be civilly liable for the loss of wildlife to the state (see below).

Civil Liability

(A.R.S. 17-314) Page 51

Under state law anyone who is found to have unlawfully wounded or killed, or unlawfully possessed any of the following wildlife may be subject to civil action by the Arizona Game and Fish Commission in the form of recovery of the following minimum sums factoring in the current Consumer Price Index for 2004 (updated annually):

Endangered species, elk, bighorn sheep, buffalo and eagles	\$2,337.87
Deer, antelope, mountain lion or bear ...	\$1,402.72
Turkey or javelina	\$467.57
Beaver	\$233.79
Goose or raptors	\$124.69
Duck, small game animal or small game bird	\$46.47
Game fish or nongame bird	\$31.17

Hunting Near Waterholes and From Tree Stands

First Come—First Served ... It's an Ethical Issue

Tree stands and blinds near waterholes can be exciting places to encounter wild-life and are perfectly legal tools to aid in your hunting experience and enjoyment. However, if you have ever hunted from a tree stand or blind on a waterhole, you've probably encountered other hunters wanting to hunt the same area. You may even have had a negative encounter with another hunter when deciding who was going to stay and hunt. Here are some important tips, ethically speaking, to keep in mind when planning to hunt around a waterhole on public land:

- Waterholes on public and state lands belong to everyone, and everyone should enjoy free and equal access.
- Responsible hunters should respect other hunters' privileges. They should leave the area if another hunter gets to a waterhole first. Remember, First Come—First Served.
- Ethically responsible hunters will always yield to another hunter who has reached the waterhole first on any given morning or evening during the hunt. Remember, First Come—First Served.
- Simply posting a sign/notice on or near a waterhole does not give anyone the exclusive right to hunt that waterhole; the hunter actually needs to be present. Remember, First Come—First Served.
- Hanging a tree stand near a waterhole does not entitle a person to exclusive hunting rights to that waterhole. Remember, First Come—First Served.

"First Come – First Served" is a common courtesy that should be used when more than one person wants to hunt the same area or waterhole, regardless of who has a tree stand or blind in the area. The Arizona Game and Fish Department reminds all hunters that confrontations in hunting situations can involve firearms and hot tempers. Whether you are in the city or next to a waterhole, any threats, intimidation, assault, or disorderly conduct can result in citations, arrests and/or jail time. Please do not allow yourself to get into a situation like that—ethical hunting is everyone's business.

Possession of Live Wildlife and Educational Displays

Under the authority of your hunting and/or fishing license, and pursuant to Commission Rule R12-4-404, wildlife may be taken live from the wild and held captive when a Commission order allows for a live bag and possession limit for the particular species. One of the allowable uses for such captive wildlife is that it may be placed on educational display.

"**Educational display**," as defined in Commission Rule R12-4-401(5), means to display captive live wildlife to increase public understanding of wildlife biology, conservation and management without requiring payment from the audience. Commission Rule R12-4-402 says that the display of live wildlife for any purpose is prohibited unless authorized by Commission rule. An educational display is an authorized exception to R12-4-402, and must be narrowly construed and limited to its intended purpose in order to be allowed.

Educational display limits the display to the use of wildlife as part of an educational program focusing on wildlife biology, conservation or management. The display of

wildlife is not permitted if these topics are not the principle focus of the educational program. A display of wildlife that has only a remote connection with wildlife biology, conservation or management is not intended and is not permitted.

The phrase "**without payment from the audience**" implies that the educational display is provided for the benefit of an interactive or live audience, as opposed to offering wildlife for use in educational publications, films or videos. An educational display of wildlife prohibits payment to you as the licensee for the use of the wildlife.

The phrase "**without payment from the audience**" not only prohibits payment directly from the audience, but also payment for the use of the wildlife from a source other than the audience. Any payment for the commercial use of wildlife itself is prohibited under an educational display. However, there is nothing that prohibits you as a licensee from being reimbursed for your expenses associated with an educational display. Reimbursement for expenses

does not constitute any personal gain or benefit to you as the licensee and is therefore non-commercial.

Commercial use of wildlife is covered under the definition of "**Exhibit**" as defined in Commission Rule R12-4-401(8). It means to display captive live wildlife in public, or to allow photography of captive live wildlife, for any commercial purpose. Only licensed zoos, persons with a Sport Falconry License and persons with a Wildlife Holding License may exhibit live wildlife. Any other license/permit holder may not under any circumstances receive compensation if such payment is intended for the use or display of the wildlife.

Remember that possession of live wildlife held under the authority of a hunting or fishing license is restricted to the primary use(s) established in that license. Violation of the constraints of your license may result in enforcement actions being taken against you. You should contact your local Game and Fish Department office should you have any questions concerning activities allowed under the authority of your particular license.

Hunters and Off-Highway Vehicles

The use of off-highway vehicles (OHVs) specifically all-terrain vehicles (ATVs), by hunters is growing. The Arizona Game and Fish Department's Off-Highway Vehicle Program promotes responsible use of off-highway vehicles.

OHV rules and laws:

- No one may use a motor vehicle to assist in the taking of wildlife (except as permitted under the Challenged Hunter Access Mobility Permit).
- An off-highway vehicle may only be used as a means of travel and NOT as a hunting aid.
- Cross-country travel is not allowed in most areas, unless you are picking up legally taken big game. (Some areas do not allow even that.)
- Contact the appropriate land management agency to learn its off-highway vehicle rules and regulations. Phone num-

George Andrejko

bers to federal and state land management agencies are on pages 71 and 72.

- Call Operation Game Thief at 1-800-352-0700 to report anyone hunting from an ATV.

Tips for OHV users:

- Stay on existing roads and trails.
- OHVs can severely damage wildlife habitat.
- Hunting from any vehicle is illegal and unsafe.
- OHV rules vary depending on which agency manages the land on which you are riding.
- It is your responsibility to know applicable OHV laws.

Firearms safety:

- When carrying a rifle or shotgun on an ATV, it should be unloaded and firmly attached to the vehicle.
- It is unsafe to carry a rifle or shotgun mounted on the handlebars.
- A rifle mounted on handlebars might be longer than the width of an ATV and stick out over the sides. This increases the chance of having the rifle hit something such as a tree, causing the driver to lose control.

WILD GAME DONATION CENTER

You are a sportsman and you love to hunt! Did you know that the sport you enjoy so much can be the source of nutritious red meat for so many hungry children and needy families? Share your success by donating all or some of your animals at your participating local meat processor. Hunters who want to clean out the freezer to make room for this year's bounty may also donate the game meat at local food banks (please only USDA processed game meat). Desired cuts are ground meat, stew meat, and roasts.

With your help, this a wonderful way to give back to the needy and generate positive publicity by further demonstrating our hunting heritage as food providers.

Funds are needed to process and distribute these animals.

Won't you please help?

\$50 = The processing fee for one deer

\$150 = The processing fee for one elk

Operation Game Thief

Wildlife's Answer To Dialing 911

1 (800) 352-0700

Poachers are a serious threat to Arizona's wildlife. They contribute nothing, yet every animal they take deprives hunters and non-hunters alike of wildlife recreational opportunities. Please report any poaching or other wildlife related violations to the Operation Game Thief hotline. The hotline operates 7 days a week, 24 hours a day. All calls will remain confidential upon request. Rewards of up to \$1000 may be offered upon arrest in certain cases. Poachers are a "Mutiny on your Bounty" so please help us put them out of business.

Report Violations Online

You can report wildlife violations on the department Web site address, azgfd.gov. Simply click on the Operation Game Thief icon and follow the prompts. If desired your confidentiality will be insured.

Wildlife Violator Compact

Poaching is no longer an acceptable form of human behavior—ANYWHERE. Currently there are 19 states, including

Arizona and all the western states that are members of the Wildlife Violator Compact. In essence the compact states that if you have your license (hunting, fishing, trapping and/or guiding) privileges revoked in one of the member states, you are suspended in ALL the member states for the entire period of your revocation.

Unit Watch Program

The Unit Watch Program began in 1987, and is similar to Neighborhood Block Watch Programs that are found in many communities. Unit Watches use the cooperative assistance of hunters, anglers and associated organizations, to increase our effectiveness by using peer pressure and oversight to reduce wildlife violations, and bring about regulation outreach.

During hunting seasons, Unit Watches are scheduled in cooperation and coordination with a sponsoring organization in a hunt area that has had many reports of violations in the recent past. Prior to the Unit Watch, letters are sent from both the sponsoring organization and the department to hunters with permit-tags for the

associated hunt units asking for their assistance, and advising of the Unit Watch details. A locality map of the Unit Watch camp or headquarters is printed on the back of the department letter.

The campsite headquarters provides hunters a place to gather, share hunt information, seek assistance, and relay violation information to department officers.

Several of Arizona's hunter and angler organizations have been sponsors of the Unit Watch Program. Organizations, to name a few, include the Arizona Bow Hunters Association, Tucson Rod and Gun Club, Scottsdale Sportsman's Club, Chandler Rod and Gun Club, Laquachi Bowmen, and the Lee's Ferry Chapter of Trout Unlimited. This past year's Unit Watch events were sponsored by the Phoenix and Prescott Chapters of the Rocky Mountain Elk Foundation, the Southern Arizona Bow Hunters of Tucson and Elsewhere, Sportsman's Gun Club, and many of the department's Hunter Education instructors.

If you are interested in sponsoring or participating at an upcoming Unit Watch Program, contact the Operation Game Thief Program Manager at (602) 789-3205 for further information.

Where Can You Hunt?

Where Can You Hunt?

GENERAL – Areas open for hunting are shown in the Commission Orders for each big and small game species (pages 10-42). Generally, U.S. Forest Service, Bureau of Land Management and State of Arizona lands are open for hunting. National Parks, and some National Monuments and State Parks are not.

MAPS – The Arizona Game and Fish Department does not publish maps. There are, however, maps available from the U.S. Forest Service, the Bureau of Land Management, and the State Land Department.

ACCESS – Land in Arizona is owned or managed by six different governments or agencies, each with its own set of access rules. (There are 13.1 million acres of private land in Arizona.)

- **THE U.S. FOREST SERVICE** manages 15 percent of the state, and the Bureau of Land Management manages 16 percent. Access is open to hunting and fishing in season, though some areas are subject to special closures.
- **THE BUREAU OF LAND MANAGEMENT** at (602) 417-9200 is the source for additional information on BLM and other public lands.
- **THE STATE OF ARIZONA** manages 13 percent of the state, and the State Land Access Rule (R12-4-110, page 58) delineates the rights and privileges of sportsmen and landowners or operators as regards state lands. Note that "State Land - No Trespassing" signs prohibit access to non-permittees. Properly licensed hunters lawfully taking wildlife are considered permittees for the purpose of trespassing on state land, and are therefore allowed access - see R12-4-110, paragraph H, page 58. The State Land Department is at (602) 542-4621.
- **INDIAN RESERVATIONS** comprise 28 percent of Arizona. Individual tribal governments establish hunting and fishing regulations for their reservations. See R12-4-117, page 59.
- **NATIONAL WILDLIFE REFUGES** have separate regulations. See the next column for telephone numbers for refuges in Arizona.
- **MILITARY INSTALLATIONS** have separate regulations. Consult individual Commission Orders for specific information.

HUNT UNITS – The maps on pages 43-49 show hunt unit boundaries, which are described in detail in R12-4-108 on pages 54-58. Portions of any unit may be closed during certain hunts. These closures are listed in the footnotes following the Commission Order for the hunt in question (pages 10-42).

SPECIAL RESTRICTIONS – Some parks, refuges and similar areas have special regulations governing certain kinds of hunting - see R12-4-301 (page 61). For special requirements in state wildlife areas, see R12-4-802 (pages 65-66).

ROADS AND VEHICLES - It is illegal to take wildlife or to discharge a firearm or shoot any other device from a vehicle. A vehicle is any device designed to carry a person - all terrain vehicles, all terrain cycle, pickup, automobile, motorcycle, aircraft, train, powerboat, sailboat, a boat under sail, or a floating object towed by a powerboat or sailboat. (Requirements for waterfowl are different - see Migratory Bird Regulations.)

National Wildlife Refuges

National Wildlife Refuges in Arizona provide hunting opportunities in designated areas. The following rules apply to all National Wildlife Refuges and are listed to help guide you when visiting:

1. Loaded weapons may be carried only in hunting zones when actually hunting. A loaded weapon is defined as ANY round in the weapon, including the magazine.
2. Weapons in the vehicle must be unloaded and cased.
3. Target shooting or the discharge of a weapon except to hunt is not permitted.
4. Motorized vehicles may operate on designated public roadways only and must be licensed and equipped to legally operate on state highways.
5. Pits, permanent blinds and stands, and baiting are prohibited.
6. The use or possession of alcoholic beverages while hunting is prohibited.
7. Temporary blinds, boats, hunting equipment, and decoys must be removed following each day's hunt.
8. Guide service providers must obtain a Special Use Permit from the refuge on which they provide their services.

Additional information, including refuge-specific regulations and maps, should be obtained by writing or phoning the refuge you plan to visit at:

Hunters are also advised that increases in United States Force Protection may result in hunt cancellations at any time and with little or no prior notification. In the event a hunt is cancelled due to an increase in security, hunters drawn for military reservation hunt permit-tags will not be reimbursed or otherwise compensated by the Arizona Game and Fish Department.

Wilderness Areas

The Wilderness Act of 1984 and the Desert Wilderness Act of 1990 designated large portions of Arizona as wilderness. Hunters should be aware that this may influence their hunt. Except where specifically permitted, all forms of motorized travel are prohibited. Hunters should be prepared for remote and primitive conditions. For additional information regarding wilderness restrictions, hunters should contact the Bureau of Land Management, the U.S. Fish and Wildlife Service, or the U.S. Forest Service, as appropriate for the area of interest.

Shooting Within City Limits

Arizona State Law (A.R.S. § 13-3107) prohibits discharge of firearms in the incorporated limits of any municipality unless excepted by local ordinance. In addition, some city or town ordinances also prohibit discharge of other implements. Check with your local police department for information before shooting inside incorporated limits.

State Trust Land

This is the sign used to delineate the boundaries of the state trust lands for hunters, anglers, and trappers. Some of the older signs may still be posted. However, the new sign as shown below, should be followed by sportsmen as it effectively replaces the older state trust land sign.

Tree Stands and Blinds

Tree stands and blinds can be effective and perfectly legal tools to aid in the taking of wildlife. However, please take into consideration the following before hanging a tree stand or setting a blind:

- It may be unlawful to cut any trees or branches while hanging tree stands or setting blinds.
- It may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.
- Construction of permanent tree stands or blinds on public lands is unlawful without appropriate authorization.
- It may be unlawful to pound climbing spikes or attach anything that penetrates the surface of a tree causing permanent injury or scarring.
- Placement of tree stands or blinds on public property does not give a person ownership of that area. First come — first serve is common courtesy that should be used when more than one person wants to hunt the same area (or waterhole).

Sportsmen are advised to be responsible when using tree stands or blinds, and check with the appropriate land management agency regarding use and/or restrictions.

Access to Private Lands

You must have written or verbal permission from private property owners for use of their legally posted private lands for any purpose including crossing these lands by foot or vehicle to get to public and State Trust lands not accessible by public means.

The private landowner who has given you permission to use the property may not mind if you bring a friend or two along. But you may destroy your welcome if you arrive with a carload of companions.

Developing person-to-person relationships with private landowners is another key to having more access available for wildlife recreation. Sportsmen who get to know a landowner and who stop in after their stay are almost always welcomed back.

By treating the land as if it were your own, and by showing consideration and courtesy to the landowner and the property, a sportsman will always have a place to enjoy wildlife.

Never forget that you are a guest when using or crossing private lands, and this access is a privilege, not a right. Your actions may be the determining factor in anyone else accessing these lands.

Be aware that in some areas gaining permission to hunt one particular species may be nearly impossible while gaining permission to hunt another species is often easy. For example, some landowners may not let you hunt big game on their property, but would let you call predators or hunt small game.

Be aware that sometimes the landowner may grant access to those who ask to go by foot or horseback versus vehicular access.

Don't assume, unless told otherwise, that permission granted one season means you automatically have permission the following seasons. Situations and ownership change, and permission should be requested each season.

Guide Service

A guide license issued from the Arizona Game and Fish Department is required for any person who, for pay, aids or assists another in the taking of wildlife in Arizona. This license does not assure consumer satisfaction; potential clients should require references before engaging the services of a guide.

Guiding on USFS, BLM, or USFWS lands requires a special-use permit from the administering agency. It is the responsibility of the client to determine if their guide has the necessary special use permits.

Trapping

Trapping on private land is legal in Arizona, with seasons generally running from November through February.

All traps must be inspected daily. It is illegal to disturb traps or trapped animals without permission of the trap owner. If you must disturb a trap, for example to release your own dog, leave the trap where you found it. See Trapping Commission Orders on page 37 and A.R.S. 17-301D.

Landowner Relations Program

The Arizona Game and Fish Department's Landowner Relations Program (LRP) has evolved into a valuable collection of incentive programs. The LRP has two primary objectives:

- Protect or acquire access to federally managed public lands and Arizona State Trust lands to ensure continued recreational opportunities for outdoor enthusiasts;
- Work with private landowners and land management agencies to enhance and protect wildlife populations and habitat.

The LRP has five major programs offering a variety of assistance opportunities to landowners.

- **Heritage Access Program** Works with landowners to mitigate recreational issues caused by the public accessing private property to reach public and State Trust lands. The Sportsman/Landowner RESPECT and Adopt-A-Ranch volunteer programs are both part of the Heritage Access Program.
- **Heritage IIAPM Program** Provides funds to conduct habitat development for sensitive species and/or sensitive habitats.
- **Big Game Stewardship Program** Targeted toward improving or creating habitat for Arizona's big game species, primarily deer, antelope, bighorn sheep, javelina, turkey,

and elk. The program is funded by the sale of special tags and hunter donations. Only deeded private lands are eligible.

- **Landowner Incentive Program** A cost-share program funded by a U.S. Fish and Wildlife Service grant for habitat enhancement and protection of "at risk" species. Funds are distributed to landowners through a competitive grant program that pays up to 75 percent of a project's cost.
- **Farm Bill Cooperative Program** Created in partnership with the Natural Resources Conservation Service to promote participation in Farm Bill programs.

By working with the Landowner Relations Program, landowners can frequently obtain 50 percent, 75 percent or even 100 percent of the funding necessary for projects on their land. If you would like more information on any of the Landowner Relations programs, visit our Web site, azgfd.gov/landowner.

Sportsman-Landowner Relations

Sportsmen Etiquette and Responsibilities

Please observe the following when using private, State Trust or public lands:

- Do not drive on wet and muddy roads where damage to the road is likely.
- You may not operate a motorized vehicle cross-country except for the sole purpose of retrieving downed big game on State Trust land (A.R.S. 17-454).
- Do not hunt near livestock waters where livestock is nearby; harassment of livestock is illegal.
- Treat the lands as if they were yours; any damages to the land or vegetation can take decades to recover! Certain damages to the lands or improvements are subject to prosecution (A.R.S. 13-1601 through 1605).
- It is misdemeanor trespass if you cross private property that is posted no trespass (A.R.S. 13-1501 through 1508).
- It is illegal to camp within 1/4 mile of livestock and/or wildlife watering sources (A.R.S. 17-308).
- Remember, you must have a valid hunting or fishing license and be actively hunting or fishing, or have obtained a use permit from the State Land Department, to legally use State Trust lands unless using a public easement (A.R.S. 37-501, 502; R12-5-533D).
- Be respectful of others. They possess the same rights as you to use the lands.

If you observe vandalism violations, please call **1 (800) VANDALS**.

To report hunt violations, call the Operation Game Thief Hotline **1 (800) 352-0700**; all calls are confidential.

Water Developments

For five decades, wildlife water developments (catchments) have been providing a reliable source of water for game and nongame species throughout Arizona.

Water developments range from bedrock tinajas (potholes) modified to increase storage or reduce evaporation, to engineered designs with precipitation collection aprons or dams, storage tanks, or troughs. Many of these developments are maintained by the department, however just as many are managed by the Bureau of Land Management, Forest Service, U.S. Fish and Wildlife, the military, and others.

Should you notice a wildlife water development leaking, damaged, or in need of repair, please contact the nearest department office or the Development Branch at (602) 789-3485 at your earliest convenience. If possible, please record the GPS coordinates of the water development site or provide a simple directional map.

Thank you in advance for your support of Arizona's wildlife.

Conservation Education Programs

Hunter Education

The purpose of Arizona's Hunter Education Program is to promote safe, knowledgeable and responsible hunter conduct, to emphasize the importance of wildlife management, laws and regulations, and to encourage the safe handling of firearms/bow hunting equipment.

Arizona's Hunter Education Program has been in effect since 1955. The success of this program is dependent on the corps of volunteer instructors trained and certified by the Arizona Game and Fish Department. These instructors give their time and effort to this program so that you, the student, will be able to enjoy hunting safely and responsibly.

Today's increasing criticism of hunting by those opposed to hunting points directly at yesterday's poor behavior. Tomorrow's privileges may well rely on instilling in bow and firearms hunters a responsible attitude and to assist them to

adopt and follow an acceptable behavior toward people, wildlife and the environment in which they hunt. The Arizona Hunter Education Program is definitely a step in the right direction.

Sport Fishing Program

It is an educational program, designed to promote awareness, appreciation and support for Arizona's recreational fishing opportunities.

The Arizona Game and Fish Department conducts fishing clinics, with interested groups, throughout the State of Arizona. The department uses volunteer fishing instructors and supplies all educational materials, rods, reels, bait and terminal tackle. There is no charge for this program. What a deal!

A fishing clinic is generally composed of two parts, Classroom Instruction and Field Instruction. Classroom instruction

is usually a one-hour speaking presentation in a classroom or place of meeting. Field instruction is a hands-on, fishing event, lasting 3 to 4 hours, at a nearby body of water.

Boating Education

Pleasure boating as a family sport is growing by popularity every year. The U.S. Coast Guard estimated the total number of recreational boats in 1962 at 5.85 million. This number has grown to a current estimate of more than 20 million pleasure boats. Each year, an estimate 75 million people go boating. Today recreational boats are used for a wide variety of activities, including fishing, water skiing, hunting, sailing, paddling, or just plain cruising.

Unfortunately, many pleasure boaters will have problems. U.S. Coast Guard national statistics show there are approximately 7,000 boating accidents reported each year, involving about 8,000 boats, which result in nearly 800 fatalities and about \$25 million in property damage. Can these accidents be prevented? The answer is an emphatic "YES".

Scholastic Clay Target Program

The Arizona Game and Fish Department Scholastic Clay Target Program is a team-based program designed to introduce young people to the sport of shotgun shooting. Each team must have at least one adult leader or instructor. There is no limit to the number of people who can be on a team. Teams compete during the school year, and each season culminates in statewide competitions.

Becoming an instructor

Instructors must be 21 years or older and interested in working with youth. Instructors must attend a certification workshop taught by the Arizona Game and Fish Department or another certifying body such as the National Rifle Association, 4-H Shooting Sports or National Sporting Clays Association. Instructors must also submit to a background check.

Once an instructor has been certified, they can request equipment and supplies such as shotguns, ammunition and targets to start a program. Instructors are volunteers who are responsible for organizing club activities and practices, and for teaching team members how to shoot trap, skeet and sporting clays. An instructor can join an existing club or start a new one by calling the Arizona Game and Fish Department.

Joining a team

All young people 9 years and older are welcome. There are three divisions: fifth-graders are in the rookie division, sixth- to eighth-graders are in the junior division and grades nine through 12 shoot in the senior division. Team members participate in one or all of three kinds of shooting activities: trap, skeet and sporting clays.

Practices and competitions

The instructors decide where to hold practices, and are encouraged to hold them at shooting facilities that have shotgun fields. Instructors without access to a shotgun facility may hold practice where it is legal and safe to conduct shotgun shooting using portable shooting equipment. Formal shootings and competitions will be scheduled and held at a nearby shooting range.

Practices begin each fall and continue through early summer. Each season concludes with three nationally

sanctioned competitions that recognize the best shotgun shooters in the country: the National Skeet and Sporting Clays Championships and the National Trap Championships.

Shooting, leadership and teamwork

The Scholastic Clay Target Program teaches teamwork, discipline and self-confidence. The program provides team leaders and team members the opportunity to participate in an activity that promotes the highest standards of safety, sportsmanship and ethical behavior.

How to get started

Call the Arizona Game and Fish Department at (602) 789-3235 or visit our Web site at azgfd.gov. You can also contact your local shooting range or gun club to find out if they offer the program.
