

# Arizona Game and Fish Department

*A new era is coming to Arizona trap, skeet and sporting clays shooting*

## Ben Avery Clay Target Center

37016 N. Archery Drive  
Phoenix, AZ 85086

**Under new management this fall by  
the Arizona Game and Fish Department**

### **A new era begins this fall**

The Arizona Game and Fish Department will take over operation of the Ben Avery Clay Target Center on Sept. 18, 2006.

### **Facility upgrades**

The clay target center is undergoing extensive renovation. Once the department takes over management, customers will immediately notice:

- Extended hours year-round (7 a.m. until 10 p.m., five days a week)
- Refurbished trap/skeet fields with new towers
- New sporting clays shooting stations
- New target throwers
- Outstanding customer service in a safe, friendly recreational shooting environment

### **By early 2007, the center will include:**

- 18 fully functional trap and skeet fields (14 overlays with four additional trap fields)
- Upgraded electrical service and lights for night shooting
- Full-service RV spaces
- Refurbished clubhouse

### **Personalized customer service**

We'll provide the same outstanding level of customer service that we deliver to customers at the other department-operated shooting ranges at the Ben Avery Shooting Facility. Our staff serves the needs of recreational shooters of all experience levels. Beginners are welcome and will receive expert instruction in a safe, controlled environment.

### **Competitive events**

The department has developed a strong schedule of events for the 2006-07 season, including two major competitions and a number of registered events. The Ben Avery Shooting Facility also hosts other large events, such as Winter Range and the Arizona Game and Fish Department Outdoor Expo.

### **Youth programs**

The center is integral to continued development of our youth programs, such as the rapidly growing Scholastic Clay Target Program. The center will serve as a venue for state championship events and as a practice facility for area youth.
